

HUMANIST *Ceremonies*

The background of the entire cover is a photograph of a large, mature tree with dense foliage, standing in a grassy field. The sun is low on the horizon, partially obscured by the tree's branches, creating a warm, golden glow across the sky and the ground. The tree's shadow is cast long and dark on the grass in the foreground.

Funerals Without God:

Funerals Without God Jane Wynne Willson, 2009-12-02 The main purpose of this booklet is twofold to help Humanists who are thinking of becoming officiants on a regular basis and to help families and friends who are faced with the need to organize a ceremony themselves at short notice A third group who may find parts of it useful are funeral directors coping with funerals where there is no officiant and the family has no wish to play an active role The booklet aims to set out clearly the basic format of a Humanist ceremony to suggest possible readings and turns of phrase and to state simply the various practical measures that need to be taken In short it is a straightforward working manual It was the first funeral I had attended where I felt comfortable and comforted by the words spoken it gave me a sense of great peace To hear others publicly proclaim their love respect and admiration for my husband made the funeral an uplifting experience Afterwards so many who had attended told me that it was the most interesting most moving most relevant and best funeral that they had ever been to Their remarks gave me a great deal of comfort and I knew that I had treated my husband s atheism with the respect and dignity that it deserved A large number of those present from a wide range of beliefs and backgrounds later expressed what we can only call enthusiasm for an experience that was new to them and in many cases compared very favourable with the often awkward and impersonal alternatives with which they were familiar Bearing in mind that this is a form of ceremony which has not yet gained wide acceptance we consider ourselves fortunate to have received such expert and personal attention Funerals Without God Jane Wynne Willson, 1995 *Funerals Without God* Jane Wynne Willson, British Humanist Association (London), 1990-09-01 *Atheist Awakening* Richard P. Cimino, Christopher Smith, 2014 *Atheist Awakening* is a groundbreaking study of the growth and revitalization of the atheist movement in the U S Through in depth interviews and observation of atheist gatherings the authors find that much of this awakening has come about as atheists have engaged in new forms of activism and community building The book portrays a new atheism one that has revised strategies to wage a powerful defensive and offensive battle against their ideological and political antagonists

Secularization in the Long 1960s Clive D. Field, 2017 Using empirical research this study provides a clear guide to the current state of the debate surrounding secularization in Britain during the long 1960s **The Oxford Handbook of Atheism** Stephen Bullivant, Michael Ruse, 2013-11-21 Recent books by among others Sam Harris Richard Dawkins and Christopher Hitchens have thrust atheism firmly into the popular media and academic spotlight This so called New Atheism is arguably the most striking development in western socio religious culture of the past decade or more As such it has spurred fertile and often heated discussions both within and between a diverse range of disciplines Yet atheism and the New Atheism are by no means co extensive Interesting though it indeed is the New Atheism is a single historically and culturally specific manifestation of positive atheism the that there is are no God s which is itself but one form of a far deeper broader and more significant global phenomenon The Oxford Handbook of Atheism is a pioneering edited volume exploring atheism

Quartier, 2007 Funeral rites help people to cope with their loss and express their religious needs Even in a secularised society such as that in the Netherlands large groups of people still fall back on ecclesiastic rites when a loved one dies But how does one explain that there are more people participating in church funerals than people who assign religion a focal place in their lives How do present day funeral goers regard the rites in which they participate Does the rite actually help them to bridge the gaps left by the deceased This study considers such questions from the angle of ritual and liturgical studies by way of empirical research into perceptions of present day church funerals in the Netherlands **Saying Goodbye** Ruth

encountered It brings together accounts of how these experiences are actually managed with analyses of a range of representations of dying and grieving in order to provide a more theoretical approach to the relationship between death gender and ethnicity Though death and dying have been an increasingly important focus for academics and clinicians over the last thirty years much of this work provides little insight into the impact of gender and ethnicity on the experience The result is often a universalising representation which fails to take account of the personally unique and culturally specific experiences associated with a death Drawing on a range of detailed case studies *Death Gender and Ethnicity* develops a more sensitive theoretical approach which will be invaluable reading for students and practitioners in health studies sociology social work and medical anthropology
