Close Reading the Anthropocene Helena Feder,2021-06-09 Reading poetry and prose images and art literary and critical theory science and cultural studies Close Reading the Anthropocene explores the question of meaning its importance and immanent potential for loss in the new geological epoch of the Anthropocene Both close reading and scientific ecology prioritize slowing down and looking around to apprehend similarities and differences to recognize and value interconnections Here close suggests careful attention to both the reading subject and read object Moving between places rocks plants animals atmosphere and eclipses this interdisciplinary edited collection grounds the complex relations between text and world in the environmental humanities The volume s wide ranging chapters are critical often polemical engagements with the question of the Anthropocene and the changing conversation around reading interpretation and textuality They exemplify a range of work from across the globe and will be of great interest to scholars and students of the environmental humanities ecocriticism and literary studies

Enduring Roots Gayle Brandow Samuels,2005-01-03 Trees are the grandest and most beautiful plant creations on earth From their shade giving arching branches and strikingly diverse bark to their complex root systems trees represent shelter stability place and community as few other living objects can Enduring Roots tells the stories of historic American trees including the oak the apple the cherry and the oldest of the world s trees the bristlecone pine These stories speak of our attachment to the land of our universal and eternal need to leave a legacy and demonstrate that the landscape is a gift to be both received and sometimes tragically to be destroyed Each chapter of this book focuses on a specific tree or group of trees and its relationship to both natural and human history while exploring themes of community memory time and place Readers learn that colonial farmers planted marker trees near their homes to commemorate auspicious events like the birth of a child a marriage or the building of a house They discover that Benjamin Franklin s Newtown Pippin apples were made into a pie aboard Captain Cook s Endeavour while the ship was sailing between Tahiti and New Zealand They are told the little known story of how the Japanese flowering cherry became the official tree of our nation s capital a tale spanning many decades and involving an international cast of characters Taken together these and many other stories provide us with a new ways to interpret the American landscape It is my hope the author writes that this collection will be seen for what it is a few trees selected from a great forest and that readers will explore both the trees and the forest and find pieces of their own stories in each
