Pamela R. McCarroll, 2013-12-24 How do we hope in the face of modernity's failure and postmodernity's absence of foundations How do we hope when the future seems fearful and no clear way forward appears How do we hope when despair indifference and cynicism dominate the psychic landscape of English speaking North America In dialogue with theologians of the cross George Grant and Douglas John Hall this book unmask the failure of hope in our time and the vacuum of meaning that remains As an exercise in the theology of the cross *Waiting at the Foot of the Cross* explores the North American context as one in which true hope is discovered only when life's negations are engaged from a posture of waiting trust Such hope is not passive or blind Rather it is attentive active open and spiritually grounded in the One who meets us when all hope is

spent The final chapter proposes a way toward hope for today that inspires subversive resilience in the face of the ambiguities and vicissitudes of life Readers interested in the theology of the cross in thinking theologically in our time and place and those interested in the character of Christian hope will find this book compelling *George Grant's Platonic Rejoinder to Heidegger* Ian H. Christian Moral Theology in the Emerging Technoculture Brent Waters, 2016-05-23 We are living in an emerging technoculture Machines and gadgets not only weave the fabric of daily life but more importantly embody philosophical and religious values which shape the contemporary moral vision a vision that is often at odds with Christian convictions This book critically examines those values and offers a framework for how Christian moral theology should be formed and lived out within the emerging technoculture Brent Waters argues that technology represents the principal cultural background against which contemporary Christian moral life is formed Addressing contemporary ethical and religious issues this book will be of particular interest to students and scholars exploring the ideas of Heidegger Nietzsche Grant Arendt and Borgmann **The River of History** Peter Farrugia, 2005 The articles in this collection are dedicated to the proposition that human beings make history not just in the sense of being agents of change in the here and now but in the sense that we interpret appropriate and make use of the past for our own purposes in the future Covering topics that range from teaching history to the concept of property rights and the discipline of history in the television age these essays will radically alter the notion of how we make history It will show that we are never fully able to bend history to our will and that as we attempt to do so we are often shocked at the turns it takes despite our best efforts to shape it for future generations **Polis, Nation, Global**

Christianity and Liberal Society Robert Song, 2006-01-13 Liberalism forms the dominant political ideology of the modern world but despite its pervasive influence this is the first book length treatment of liberal political thought from a Christian theological perspective Song discusses the different aspects and interpretations of liberalism with reference to the critiques of three twentieth century theologians the American Protestant Reinhold Niebuhr on the liberal progressivist philosophy of

history the lesser known Canadian George Grant on the threat of technology to fundamental liberal values as articulated in the recent work of John Rawls and the French Thomist Jacques Maritain on the defence of political pluralism Further to this Song explores the implications of this political theology for the issues in fundamental constitutional theory raised by a bill of rights and judicial review of legislation and concludes with an account of the critical but supportive stance of liberalism Christian theology should take

Moving Images of Eternity William F. Pinar, 2019-03-26 William F Pinar presents a comprehensive and original study that demonstrates the significance and pertinence of the scholarship of George Grant for teaching today While there are studies of Grant s political philosophy there has been no sustained study of his teaching Pinar not only draws upon the collected works he has also consulted Grant s PhD thesis at Oxford as well as the philosopher s biography collected letters and the vast secondary literature What emerges is a treatise that reveals Grant s timeliness and his prescience in identifying and critiquing key educational issues nearly half a century ago from academic vocationalism and educational technology to privatization and the ascendancy of research issues that are eminently relevant today Beyond the classroom Grant s concerns extended to the impact of economic globalization which he feared would erase distinctive national histories and cultures As such Grant foresaw the current issues of right wing populism notably in the UK and the US as reactions against these historical tendencies This volume is destined to become an indispensable reference work for students of Grant in particular and for students of education in general This book is published in English S il existe des tudes portant sur la philosophie politique et la th ologie de George Grant il n y avait jusqu maintenant aucune tude soutenue sur son enseignement et plus pr cis ment sur la relation de son approche p dagogique celles ci Aucune tude ne pouvait de fa on aussi pouss e l uvre compl te y compris ses pr sentations aux enseignants et sa th se doctorale d Oxford en philosophie ou sa biographie sa correspondance et la vaste litt rature secondaire Con u comme livre de r f rence pour les adeptes de Grant de m me que comme un manuel pour les tudants en ducation cet ouvrage arrive point nomm Pinar souligne la prescience de Grant qui identifiait et critiquait il y a d j cinquante ans des questions d ordre ducationnel vocation acad mique technologie p dagogique privatisation de l enseignement ascendance de la recherche sur l enseignement qui sont d actualit Grant tait aussi pr occup par le destin de ce qu il appelait la particularit au Canada et l tranger et s inqui tait que la mondialisation conomique effacerait les histoires et cultures nationales distinctives Un tat mondial universel et homog ne les remplacerait ce qui repr senterait la pire tyrannie inflig e l humanit Grant avait vu venir le populisme de droite que l on voit actuellement prendre prise notamment au Royaume Uni et aux tats Unis comme r action ces tendances historiques Ce livre est publi en anglais

The Vanishing Tradition Paul Gottfried, 2020-07-15 This anthology provides a timely critical overview of the American conservative movement The contributors take on subjects that other commentators have either not noticed or have been fearful to discuss In particular this collection of searing essays hits hard at blatant cult of celebrity and intolerance of dissent that has come to characterize the conservative movement in this country As *The Vanishing Tradition* shows the

conservative movement has not often retrieved its wounded instead dispatching them in order to please its friendly opposition and to prove its moderateness The movement has also been open to the influence of demanding sponsors who have pushed it in sometimes bizarre directions Finally the essayists here highlight the movement's appeal to permanent values as a truly risible gesture given how arduously its celebrities have worked to catch up with the Left on social issues This no holds barred critical examination of American conservatism opens debates and seeks controversy *Canadian Communication Thought* Robert E. Babe, 2000-01-01 Babe examines the writings of ten major thinkers in the context of their physical and cultural environments and finds that there is indeed a mode of theorizing that is quintessentially Canadian

Hegel and Canada Susan M. Dodd, Neil G. Robertson, 2018-01-01 Hegel and Canada is a collection of essays that analyses the real but under recognized role Hegel has played in the intellectual and political development of Canada The volume focuses on the generation of Canadian scholars who emerged after World War Two James Doull Emil Fackenheim George Grant Henry S Harris and Charles Taylor *This is Our Writing* T. F. Rigelhof, 2000 Punctuate his title as you like but T F Rigelhof considers *This is Our Writing* a declaration an enquiry and an exclamation As a writer of half a dozen a reviewer of dozens upon dozens and as a reader of a multitude more books Terry Rigelhof knows much about writing in Canada In these eleven essays he asks what is best in what has been written by Canadians in the twentieth century He examines selected works of some writers whose accomplishments need serious revaluation What are the real achievements of Robertson Davies Carole Corbeil Mavis Gallant Mordecai Richler Hugh Hood Leonard Cohen and George Grant Rigelhof comes up with a list that will surprise some and dismay others This is a book for readers who have always known in their heart of hearts that Robertson Davies was an egregious windbag and that underneath the inspired silliness of their carefully contrived and managed public images Mordecai Richler and Leonard Cohen have produced three of the most intelligent novels we have In a sequence of interlocking personal essays Rigelhof explores living a writerly life in Canada at the end of the twentieth century The text is fortified by a dozen photographs all but one previously unpublished by Gabor Szilasi one of Canada's greatest active documentary photographers *Wealth, Poverty, and Human Destiny* Doug Bandow, David Schindler, 2014-05-06 The rapid spread of the liberal market order across the globe poses a host of new and complex questions for religious believers indeed for anyone concerned with the intersection of ethics and economics Is the market economy particularly as it affects the poor fundamentally compatible with Christian moral and social teaching Or is it in substantial tension with that tradition In *Wealth Poverty and Human Destiny* editors Doug Bandow and David L Schindler bring together some of today's leading economists theologians and social critics to consider whether the triumph of capitalism is a cause for celebration or concern Michael Novak Richard John Neuhaus Max Stackhouse and other defenders of democratic capitalism marshal a number of arguments in an attempt to show that among other things capitalism is more Christian in its foundation and consequences than is conceded by its critics that as Stackhouse and Lawrence Stratton write the roots of the modern corporation lie in the

religious institutions of the West and that as Novak contends globalization is the natural ecology of Christianity The critics of liberal economics argue on the other hand that it is historically and theologically shortsighted to consider the global capitalist order and the liberalism that sustains it as the only available option Any system which has as its implicit logic that stable and preserving relationships among people places and things do not matter and are of no worth in the words of Wendell Berry should be regarded with grave suspicion by religious believers and all men and women of goodwill Badow and Schindler take up these arguments and many others in their responses which carefully consider the claims of the essayists and thus pave the way for a renewed dialogue on the moral status of capitalism a dialogue only now re emerging from under the Cold War rubble The contributors fresh insightful examinations of the intersection between religion and economics should provoke a healthy debate about the intertwined issues of the market globalization human freedom the family technology and democracy Canadian Books in Print. Author and Title Index ,1975 **Border Within** Ian H. Angus,1997 A Border Within addresses the question of English Canadian identity by exploring whether a plurality of discourses can lead to other than a fragmented society Ian Angus examines the relationship between globalizing social movements and the particularities of identity politics by extending the theories on identity of Harold Innis and George Grant two seminal figures in Canadian political philosophy to develop a philosophy applicable to the contemporary social issues of multiculturalism and environmentalism Retrieving Origins and the Claim of Multiculturalism Antonio Lopez,Javier Prades,2014-11-10 This book explores the philosophical legal and theological roots of Western multiculturalism that is the encounter and coexistence of different cultures within a liberal society Rather than concerning themselves with the particulars of cultural dialogue the authors of this volume go deeper and question the very reality of multiculturalism itself The contributors represent different cultures and faith traditions but are united in friendship and in the conviction that the Christian faith enables an authentic approach to long standing debates on multiculturalism Publisher
