## **Georges Simenon Revisited:**

Georges Simenon Revisited Lucille Frackman Becker, 1999 This book presents a brief biography of Georges Simenon's life and critical interpretation and discussion of his works      *Translation Revisited* Mamadou Diawara, Elísio S.

Macamo, Jean-Bernard Ouédraogo, 2019-01-17 How realistic is it to expect translation to render the world intelligible in a context shaped by different historical trajectories and experiences Can we rely on human universals to translate through the unique and specific webs of meaning that languages represent If knowledge production is a kind of translation then it is fair to assume that the possibility of translation has largely rested on the idea that Western experience is the repository of these human universals against the background of which different human experiences can be rendered intelligible The problem with this assumption however is that there are limits to Western claims to universalism mainly because these claims were at the service of the desire to justify imperial expansion This book addresses issues arising from these claims to universalism in the process of producing knowledge about diverse African social realities It shows that the idea of knowledge production as translation can be usefully deployed to inquire into how knowledge of Africa translates into an imperial attempt at changing local norms institutions and spiritual values Translation in this sense is the normalization of meanings issuing from a local historical experience claiming to be universal The task of producing knowledge of African social realities cannot be adequately addressed without a prior critical engagement with how translation has come to shape our ways of rendering Africa intelligible      Investigating Simenon Russell Campbell, 2022-09-21 For nearly a century the work of Belgian crime

writer and psychological novelist Georges Simenon creator of Chief Inspector Maigret has captivated readers worldwide This investigation situates Simenon's work in its historical context and interprets it as a reaction to shifting gender relations in Western society Simenon's compelling narratives capture the anxieties of men whose patriarchal position was under threat in an era of insurgent feminist movements These concerns are also evident in Simenon's pervasive preoccupation with sexuality as well as his political stance that stems from his petit bourgeois upbringing This groundbreaking study includes interwoven commentary on all 191 novels Simenon published under his own name including several that have never been translated into English as well as a number of short stories and several pseudonymous works      *Italian Crime Fiction Revisited* Stefano Serafini, 2025-01-30 This book offers the first extensive investigation of Italian crime fiction in the period between 1861 the year of Italy's unification and 1941 when the famous Mondadori series I libri gialli which had published crime novels since 1929 was suppressed by the fascist regime By exploring the formal and thematic metamorphoses of Italian crime narratives and probing the different socio-political roles that they played in both the liberal and fascist periods it provides a radical re-conceptualization in both historical and theoretical terms of a form of fiction that has been largely marginalized for both aesthetic and ideological reasons uncovering how it was implicated in the construction of the modern state and in the articulation and shaping of the process of making Italians      **Icons of Mystery and Crime Detection** Mitzi M.

Knapp, 2001-10-30 The final decades of the 20th century have seen an explosion of interest in multiculturalism But multiculturalism is more than an awareness of the different cultures comprising contemporary societies For centuries people from around the world have come in contact with cultures other than their own and their exposure to multiple cultures has fostered their creativity and ability to make lasting contributions to civilization The effects of multiculturalism are especially apparent in literature since writers tend to be particularly aware of their environments and record their experiences This reference includes alphabetically arranged entries for more than 100 world writers from antiquity to 1945 who were significantly influenced by cultures other than their own Included are entries for major canonical Ancient and Modern writers of the Western and Eastern worlds Each entry is written by an expert contributor and includes a brief biography a discussion of multicultural themes and contexts a summary of the writer s critical reception and primary and secondary bibliographies By illuminating the shaping influence of multiculturalism on these writers the volume points to the lasting value of multiculturalism in the contemporary world      **Unwilling Executioner** Andrew Pepper, 2016 *Unwilling Executioner* is the first book to examine the deep rooted relationship between the development of crime fiction as a genre and the consolidation of the modern state It offers a far reaching and wide ranging perspective on this unfolding relationship over a three hundred year period but is not a straightforward and conventional narrative history of the genre It is part of a new and exciting critical move to read crime fiction as a transnational phenomenon and to examine crime novelists in an innovative comparative context taking them out of their discreet national traditions Considers Anglo American crime writing as well as works published in France Italy Germany Ireland Japan South Africa and elsewhere it addresses the related questions of why crime fiction is political and how
