Language Hacking German
Benny Lewis, 2017-03-28

It's true that some people spend years studying German before they finally get around to speaking the language But here's a better idea Skip the years of study and jump right to the speaking part Sound crazy No it's language hacking Unlike most traditional language courses that try to teach you the rules of German LanguageHacking shows you how to learn and speak German through proven memory techniques unconventional shortcuts and conversation strategies perfected by one of the world's greatest language learners Benny Lewis aka the Irish Polyglot Using the language hacks shortcuts that make learning simple that Benny mastered while learning his 11 languages and his speak from the start method you will crack the language code and exponentially increase your language abilities so that you can get fluent faster It's not magic It's not a language gene It's not something only other people can do It's about being smart with how you learn learning what's indispensable skipping what's not and using what you've learned to have real conversations in German from day one The Method LanguageHacking takes a modern approach to language learning blending the power of online social collaboration with traditional methods It focuses on the conversations that learners need to master right away rather than presenting language in order of difficulty like most courses This means that you can have conversations immediately not after years of study Each of the 10 units culminates with a speaking mission that prepares you to use the language you've learned to talk about yourself Through the language hacker online learner community you can share your personalized speaking missions with other learners getting and giving feedback and extending your learning beyond the pages of the book You don't need to go abroad to learn a language any more
