German Administration Since Bismark

Gary Bonham

German Administration Since Bismarck:

German Administration Since Bismarck Herbert Jacob, 1974-11-13 **State & Government in the Federal Republic of Germany** N. Johnson, 2013-10-22 The second edition of *Government in the Federal Republic of Germany* first published in 1973 has been substantially rewritten and expanded and the title altered in recognition of an emphasis already present in the first edition and greatly enhanced after revision Since the first appearance of this authoritative text many changes in the details of organization and procedure have taken place as well as extensive changes in personnel and to some extent in the problems and policy issues which now face those responsible for government in the Federal Republic In considering these changes the author presents a view of the political institutions of the Federal Republic which develops logically and naturally from his earlier perspective *Germany without Bismarck* J. C. G. Rohl, 2023-11-15 *Germany Without Bismarck* The Crisis of Government in the Second Reich 1890-1900 meticulously explores the turbulent years following Otto von Bismarck's dismissal in 1890 a pivotal period of uncertainty and transformation for the German Empire Bismarck's unparalleled dominance in shaping the Second Reich left a void that sparked speculation about Germany's political trajectory some feared a return to federation others anticipated a parliamentary republic or Bismarck's resurgence as a dictator Yet the Reich endured until 1918 navigating a seven year crisis characterized by internal power struggles and an evolving relationship between the government and its people This study delves deeply into two interconnected crises the fragmentation of power within the executive branch as Bismarck's successors attempted collective governance amidst fierce rivalries and the broader tension between state authority and public consensus By 1897 Kaiser Wilhelm II had asserted himself as the ultimate authority within the government resolving the internal crisis but exacerbating discord with the legislature and society steering Germany toward aggressive foreign policies and eventual diplomatic isolation Drawing from newly accessible archival materials including the Reich Chancellery files and private papers of leading statesmen this book offers a comprehensive analysis of the political dynamics during this era It sheds light on the delicate balance Bismarck maintained between conservative aristocracy and burgeoning industrial interests a coalition that disintegrated under his successors The work also underscores the long term repercussions of Bismarck's iron and blood policies which though successful in unifying Germany fostered a volatile nationalism that undermined the political education and moderation of its citizens By placing Germany's internal crises in the context of Bismarck's legacy and the Kaiser's ambitions this study illuminates the structural weaknesses and ideological divides that ultimately set the stage for the monarchy's downfall and Germany's descent into global conflict This title is part of UC Press's *Voices Revived* program which commemorates University of California Press's mission to seek out and cultivate the brightest minds and give them voice reach and impact Drawing on a backlist dating to 1893 *Voices Revived* makes high quality peer reviewed scholarship accessible once again using print on demand technology This title was originally published in 1967 ***Germany Without Bismarck*** John C. G.

Röhl, **German Administration Since Bismarck** Herbert Jacob,1963 Ideology and Interests in the German State (RLE: German Politics) Gary Bonham,2014-12-17 This book addresses major theoretical issues in the fields of public administration and comparative politics It discusses the role which ideology played as a unifying force for at least parts of the German state bureaucracy in Wilhelmine Germany The examination of a modernizing ideology in the German case is useful for an understanding of the political dynamics of state led modernization and industrial strategy in many contemporary societies and the author explains political behaviour and relations in Germany in general terms that are universally relevant

Rethinking the Weimar Republic Anthony McElligott,2013-12-19 McElligott s impressive mastery of an enormous body of research guides him on a distinctive path through the dense thickets of Weimar historiography to a provocative new interpretation of the nature of authority in Germany s first democracy Sir Ian Kershaw Emeritus Professor of Modern History at the University of Sheffield UK This study challenges conventional approaches to the history of the Weimar Republic by stretching its chronological political parameters from 1916 to 1936 arguing that neither 1918 nor 1933 constituted distinctive breaks in early 20th century German history This book Covers all of the key debates such as inheritance of the past the nature of authority and culture Rethinks topics of traditional concern such as the economy Article 48 the Nazi vote and political violence Discusses hitherto neglected areas such as provincial life and politics the role of law and Republican cultural politics

Bismarck and the Guelph Problem 1866-1890 S.A. Stehlin,2012-12-06 Many historians have concerned themselves with the founding of the German Empire in 1871 and the means used to unite the disparate sections of Germany many of which had older traditions than did Bismarck s Prussia Understandably writers have given more attention to the victor than to the vanquished Except for polemicists who seek to prove the wrong done or to vindicate the action taken scholars have been interested in writing about trends which were to become significant in the new Reich about the new governmental structure itself and about the diplomacy and statesmanship which were used to form the new German nation state But the consolidation of many diverging strands of political economic and social traditions in the new state left many issues unsolved and in fact seemed to create new ones Many of these problems while not overtly affecting the basic outline of German history have nonetheless influenced it and have become at times serious matters of concern for the Reich Chancellor One of the problems was the threat of particularist sentiment to the national unity which Bismarck was trying to create Although there was an awareness among some nineteenth century Ger mans of a specific German nationality the majority of people did not think in terms of a German unity but regarded themselves as Bavarians Saxons or belonging to some other Stamm or tribal subdivision of the Germans *German Administration Since Bismarck* Herbert Jacob,1963 *Germany since 1789* David G. Williamson,2015-12-17 This essential text provides a clear and engaging introduction to the history of modern Germany The updated and expanded new edition now takes the story back to 1789 and brings it right up to the present day adopting a controversy led approach throughout Visual evidence maps documents and key event boxes support

the text and aid learning **Public Administration, Sixth Edition, A Comparative Perspective.** Ferrel Heady, 2001-02-13 Continuing in the standard of excellence set by previous editions this sixth edition assesses the bureaucracies and development of governments around the world providing helpful and revealing analyses of the relationships between bureaucracies and political regimes With over 1000 literature references tables and drawings the book has been updated to reflect changes in the political systems of the former Soviet Union Eastern Europe and the developing world The editor clearly articulates recent developments in the shifting global political landscape and discusses how conditions in development administration and comparative public policy affect nation states *The Holocaust and the German Elite* Rainer C. Baum, 2021-11-21 This book first published in 1981 is a study of the social and political sources of amoral political rule in modern times Only a moral indifference unparalleled in history made the Holocaust possible and by linking the German imperial ambitions to the meaningless suffering and death in the concentration camps the true significance of the Holocaust is revealed in all its horror Understanding this requires an understanding of the social forces that produced a national amorality among Germany's elites The author suggests three contributive causes a marked ambiguity among Germans in their attitude towards social values the development of a cadre characterized by status insecurity and an inability to resolve internal conflict **Army, Industry and Labour in Germany, 1914-1918** Gerald Feldman, 2014-03-04 This innovative study by one of the leading specialists in the field examines the social and economic role of the German army in the nation's internal affairs during the First World War This was the area in which the influence of the army was most direct and profound Germany's wartime economic mobilisation was both planned and directed by the army and as a consequence of this largely unanticipated responsibility the army was compelled to cope with the great social conflicts of Imperial Germany In the process of confronting the groups representing army and labour the army paved the way for the establishment of collective bargaining in Germany and also created the foundations for the postwar inflation

Unpublished Research on Western Europe, Completed and in Progress United States. Department of State. External Research Division, 1963 Beginning in 1954 Apr issue lists studies in progress Oct issue completed studies **External Research** United States. Department of State. External Research Division, 1963 **Elites Against Democracy** Walter Struve, 2015-03-08 Since the beginning of the current era of imperialism in the late nineteenth century there has been a striking contrast between bourgeois political thought in Germany and the West Walter Struve demonstrates how German political culture went through a phase in which great emphasis was placed on the establishment of a new political elite recruited on the basis of merit and skill but ruling in an authoritarian way and not controlled by the populace He suggests that this type of elitism many aspects of which were vital to the political culture of Nazi Germany seems today to be widespread in the West The development of this concept of an open yet authoritarian elite is approached through the analysis of the political ideas and activities of nine elitists among them Max Weber Walther Rathenau and Oswald Spengler The

author relates biography to intellectual political social and economic history so that his work becomes a study in the political and social context of intellectual history Originally published in 1973 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905 The Postwar Transformation of Germany John Shannon Brady, Beverly Crawford, Sarah Elise Wiliarty, 2010-08-04 As Germany celebrates the fiftieth anniversary of the founding of the Federal Republic of Germany the former West Germany leading scholars take stock in this volume of the political social and economic progress Germany made as it built a democratic political system and a powerful economy survived the Cold War and dealt with the challenges of reunification The contributors address issues such as Germany's response to extremists the development of a professional civil service judicial review the maintenance of the welfare state the nature of contemporary German nationalism and Germany's role in the world Contributors are Thomas Banchoff Thomas U Berger Patricia Davis Ernst Haas Jost Halfmann Christard Hoffmann Carl Ludwig Holtfrerich Donald P Kommers Wolfgang Krieger Peter Krueger Gregg O Kvistad Ludger Lindlar Charles Maier Andrei Markovitz Peter Merkl Claus Offe Simon Reich and Michaela Richter John S Brady and Sarah Elise Wiliarty are doctoral candidates in the Department of Political Science University of California Berkeley Beverly Crawford is Professor of Political Science Senior Lecturer in Political Economy of Industrial Societies and Associate Director Center for German and European Studies University of California Berkeley *Weimar Cities* John Bingham, 2016-05-06 Weimar Cities explores Germany's efforts to come to grips with its great cities after World War I by extension the book measures the feasibility of the postwar experiment that was the Weimar Republic The book focuses particularly on the weakness both local and national that resulted from the disjunct between the cities perceived and actual power **The Shaping of the Nazi State (RLE Nazi Germany & Holocaust)** Peter D. Stachura, 2014-09-19 Representing the scholarship of historians who have largely based their findings on previously unpublished material this volume originally published in 1978 provides a critical and provocative assessment of many established opinions on significant themes related to the dramatic rise and development of Adolf Hitler's Nazi Movement The volume discusses among other things The development of Hitler's foreign policy ideas The contributions of Gottfried Feder and Gregor Strasser to the successful growth of the Nazi party The social composition of the Stormtroopers The bureaucratic structure of the Third Reich The character and scope of resistance within Germany to the regime **Theories and Origins of the Modern Police** Clive Emsley, 2017-07-05 This volume is the first of four that will provide some of the most significant English language articles on the historical development of the police institution The articles included in this volume are broadly of two kinds The first introduce some of the theoretical outlines that have been suggested

for the origins and development of modern police institutions across Europe The second explore the systems of enforcement and the criticisms of them that had emerged on the eve of the revolutionary upheavals which convulsed Europe and inflicted a terminal blow to the ancien régime at the close of the eighteenth century
