New Perspectives on Austrians and World War II Gunter Bischof, Fritz Plasser, Barbara Stelzl-Marx, 2011-12-31 For more than a generation after World War II official government doctrine and many Austrians insisted they had been victims of Nazi aggression in 1938 and therefore bore no responsibility for German war crimes During the past twenty years this myth has been revised to include a more complex past one with both Austrian perpetrators and victims Part one describes soldiers from Austria who fought in the German Wehrmacht a history only recently unearthed Richard Germann covers units and theaters Austrian fought in while Thomas Grischany demonstrates how well they fought Ela Hornung looks at case studies of denunciation of fellow soldiers while Barbara Stelzl Marx analyzes Austrian soldiers who were active in resistance at the end of the war Stefan Karner summarizes POW treatment on the Eastern front Part two deals with the increasingly difficult life on the Austrian homefront Fritz Keller takes a look at how Vienna survived growing food shortages Ingrid Böhler takes a rare look at life in small town Austria Andrea Strutz analyzes narratives of Jewish refugees forced to leave for the United States

Peter Ruggenthaler and Philipp Lesiak examine the use of slave laborers And Brigitte Kepplinger summarizes the Nazi euthanasia program The third part deals with legacies of the war particularly postwar restitution and memory issues Based on new sources from Soviet archives Nikita Petrov describes the Red Army liberation Winfried Garscha analyzes postwar war crimes trials against Austrians Brigitte Bailer Galanda and Eva Blimlinger present a survey of postwar restitution of property And Heidemarie Uhl deals with Austrian memories of the war

The Impact of the European Reformation Ole Peter Grell, 2017-05-15 Recent decades have witnessed the fragmentation of Reformation studies with high level research confined within specific geographical confessional or chronological boundaries By bringing together scholars working on a wide variety of topics this volume counteracts this centrifugal trend and provides a broad perspective on the impact of the European reformation The essays present new research from historians of politics of the church and of belief Their geographical scope ranges from Scotland and England via France and Germany to Transylvania and their chronological span from the 1520s to the 1690s Considering the impact of the Reformation on political culture and examining the relationship between rulers and ruled the book also examines the church and its personnel another sphere of life that was entirely transformed by the Reformation Important aspects of knowledge and belief are discussed in terms of scientific knowledge and technological progress juxtaposed with analyses of elite and popular belief which demonstrates the limitations of Weber's notion of the disenchantment of the world Together they indicate the diverse directions in which Reformation scholarship is now moving while reminding us of the need to understand particular developments within a broader European context demonstrating that movements for religious reform left no sphere of European life untouched *Terrorism* J.

Lutz, 2005-09-02 Terrorism is not a new phenomenon but has been present for over two thousand years It has been used to advance ethnic religious and ideological goals it has been used by dissidents and states to maintain control it has been used at times as a means for attaining or maintaining power for its own sake Terrorism has often appeared as a response to the intrusion of outside groups in established societies This book places terrorism in a historical and analytical context It is a comparison of terrorist groups over time noting both similarities and differences It will also contribute to discussions of the underlying causes of terrorism by providing a broader context than is usually attempted It is important to put recent terrorist events in an appropriate context and to learn what history has to offer for dealing with this type of political violence
