the reunification of the country within restricted boundaries after 45 years of division I was born in the New World 20 years after the end of the war lived most of my youth with the reality of the division and witnessed the whole reunification process as a member of a family of German descent living outside Germany My interest in the subject plus several logical links to Germany a vision from abroad and obviously my knowledge of German helped me to start preparing in 1987 well before any possibility of reunification existed a legal thesis which unexpectedly even for me turned into reality with the fall of the Berlin Wall in 1989 and the reunification in 1990 I was able to deliver the final work my professional thesis personally into the hands of Federal President Richard von Weizsäcker during his state visit to Mexico in 1992 And shortly thereafter I received from him a very rewarding letter But just now after 30 years I am able to publish in English this reworked and updated version of my original thesis now as a history book I have tried to condense and explain the facts of 45 years of division so Germans and foreigners can have a full and objective view of all the aspects historical political territorial and legal alike pertaining to the so called German Question during the period 1945 1990 I hope you enjoy it     France Restored William I. Hitchcock, 2000-11-09 Historians of the Cold War argues William Hitchcock have too often overlooked the part that European nations played in shaping the post World War II international system In particular France a country beset by economic difficulties and political instability in the aftermath of the war has been given short shrift With this book Hitchcock restores France to the narrative of Cold War history and illuminates its central role in the reconstruction of Europe Drawing on a wide array of evidence from French American and British archives he shows that France constructed a coherent national strategy for domestic and international recovery and pursued that strategy with tenacity and effectiveness in the first postwar decade This once occupied nation played a vital part in the occupation and administration of Germany framed the key institutions of the new Europe helped forge the NATO alliance and engineered an astonishing economic recovery In the process France successfully contested American leadership in Europe and used its position as a key Cold War ally to extract concessions from Washington on a wide range of economic and security issues     *Mitterrand, the End of the Cold War, and German Unification* Frédéric Bozo, 2009 This book explores the role of France in the events leading up to the end of the Cold War and German unification from publisher description     Great Britain, France, Germany and Italy and the Origins of the EEC, 1952-1957 Ennio Di Nolfo, 2012-10-25 No detailed description available for Great Britain France Germany and Italy and the Origins of the EEC 1952 1957     **Borders and Border Regions in Europe** Arnaud Lechevalier, Jan Wielgohs, 2014-04-15 Focussing European borders The book provides insight into a variety of changes in the nature of borders in Europe and its neighborhood from various disciplinary perspectives Special attention is paid to the history and contemporary dynamics at Polish and German borders Of particular interest are the creation of Euroregions mutual perceptions of Poles and Germans at the border EU Regional Policy media debates on the extension of the Schengen area Analysis of cross border mobility between Abkhazia and Georgia or the impact of Israel s Security Fence to Palestine on society complement the focus on

Europe with a wider view      **Germany's New Partners** Sven Bernhard Gareis, Matthew Rhodes, 2019-10-28 In the wake of the 2008 financial crisis Germany became Europe's most influential nation state This book aims to provide a comparative assessment of how this is reflected in the country's bilateral security relationships with key global and regional partners Prepared by an international team of scholars it offers unique in depth perspectives on the ways these evolving interactions affect the prospects for addressing recent and emerging security challenges      **Charter of the North Atlantic Treaty Organization** Ian Shapiro, J. reunification this book shows that Mitterrand's main concern was not the potential threat of an old nemesis but rather that a reunified Germany be firmly anchored in a unified Europe Updated with a new introduction and other materials the book blends primary research and interviews with key actors in France and Germany to take readers behind the scenes of world governments as a new Europe was formed Tilo Schabert had unprecedented exclusive access to French presidential archives and here focuses on French diplomacy not only to dispel the notion that Mitterrand was reluctant to accept reunification but also to show how successful he was in bringing it about *Peacemaking by Democracies* Norrin M. Ripsman, 2010-11-01

Challenging this assumption *Peacemaking by Democracies* breaks down the category of democracy to argue that differences in structural autonomy among democratic states have a lot to do with how foreign security policies are chosen and international negotiations are carried out The more structural autonomy the foreign security policy executive possesses the greater the policy independence from public and legislative opinion it is able to achieve Jacket **Haunted by History** Cyril Buffet, Beatrice Heuser, 1998 Europe is a continent weighed down by the shadows of its past its wars the traditional enmities the suspicions of neighbours fuelled by historical memories This has immediate consequences for the understanding and representation of the past journalists politicians historians often apply simplistic pre-conceived patterns i.e. myths to current events resulting in distorted and misleading analyses This volume exposes the way some historical myths such as Balance of Power Rapallo the Special Relationship the Franco-German Couple the Peril of Islam are used to blur not to clarify our understanding of international affairs even to manipulate contemporary politics *Britain, France, West Germany and the People's Republic of China, 1969-1982* Martin Albers, 2016-12-01 This book focuses on helping readers to fill the gap of the little known history between Western Europe and its most important trading partner the People's Republic of China Inspired by the economic and political significance of Sino-European relations this book shows how the China policies of the three biggest states of Western Europe Britain France and the Federal Republic of Germany helped China reintegrate into the international community in the 1970s Against the background of the Cold War the end of Maoism and the emergence of globalization the governments in Bonn Paris and London had to find ways of dealing with Europe's declining influence and promote their own national interests in Asia Based on newly declassified government files readers will find such sources invaluable in understanding the argument that despite pursuing very different policies the three governments supported a rapid expansion of peaceful exchange between the People's Republic and Europe and substantially contributed to the success of Beijing's reform policy
