Integral Humanism; Temporal and Spiritual Problems of a New Christendom Jacques Maritain, 1973-01-01 **The Failure of Modernism** Brendan Sweetman, 1999 The contributors to *The Failure of Modernism* are influenced by the view that modernism has failed and most of the essays attempt to critique specific features of modernism often from a more traditional perspective Modernism in philosophy is characterized by skepticism and anti realism in epistemology and by relativism in ethics and politics **Catholic Cosmopolitanism and Human Rights** Leonard Francis Taylor, 2020-03-05 Provides a more complete account of the human rights project that factors in the contribution of cosmopolitan Catholicism

Human Dignity in the Judaeo-Christian Tradition John Loughlin, 2019-07-11 Dignity is a fundamental aspect of our lives yet one we rarely pause to consider our understandings of dignity on individual collective and philosophical perspectives shape how we think act and relate to others This book offers an historical survey of how dignity has been understood and explores the concept in the Judaeo Christian tradition World renowned contributors examine the roots of human dignity in classical Greece and Rome and the Scriptures as well as in the work of theologians such as St Thomas Aquinas and St John Paul II Further chapters consider dignity within Renaissance art and sacred music The volume shows that dignity is also a contemporary issue by analysing situations where the traditional understanding has been challenged by philosophical and policy developments To this end further essays look at the role of dignity in discussions about transhumanism religious freedom robotics and medicine Grounded in the principal Christian traditions of Catholicism Orthodoxy Anglicanism and Protestantism this book offers an interdisciplinary and cross period approach to a timely topic It validates the notion of human dignity and offers an introduction to the field while also challenging it **Christian Realism and Liberation Theology** Dennis P. McCann, 2001-08-30 Christian Realism and Liberation Theology provides the best interpretation and critique we have of liberation theology Equally important however is McCann s interpretation of Reinhold Niebuhr For it is McCann s contention that Niebuhr is best appreciated as attempting to provide a form of spirituality sufficient to sustain the frustrations of political struggle By bringing Niebuhr and liberation theology into creative contrast McCann not only illuminates the contributions and shortcomings of each but helps us better understand the issues confronting the development of an adequate Christian social ethic This is a book that has needed writing for some time We are in McCann s debt Stanley Hauerwas Gilbert T Rowe Professor of Theological Ethics Divinity School Duke University **Jacques Maritain** James V. Schall, 1998 The engaging and inquiring mind of French philosopher Jacques Maritain reflected on subjects as varied as art and ethics theology and psychology and history and metaphysics Maritain s work on the theoretical groundings of politics arose from his diverse studies In this book distinguished theologian and political scientist James V Schall explores Maritain s political philosophy demonstrating that Maritain understood society state and government in the tradition of Aristotle and Aquinas of natural law and human rights and duties Schall pays particular attention to the ways in

which evil appears in political forms and how this evil can be morally dealt with Schall's study will be of great importance to students and scholars of political science philosophy and theology

Religion in America Since 1945 Patrick Allitt, 2003-12-17 Moving far beyond the realm of traditional church history Patrick Allitt here offers a vigorous and erudite survey of the broad canvas of American religion since World War II Identifying the major trends and telling moments within major denominations and also in less formal religious movements he asks how these religious groups have shaped and been shaped by some of the most important and divisive issues and events of the last half century the Cold War the Civil Rights Movement the Vietnam War feminism and the sexual revolution abortion rights the antinuclear and environmentalist movements and many others Allitt argues that the boundaries between religious and political discourse have become increasingly blurred in the last fifty years Having been divided along denominational lines in the early postwar period religious Americans had come by the 1980s to be divided along political lines instead as they grappled with the challenges of modernity and secularism Partly because of this politicization and partly because of the growing influence of Asian Latino and other ethnic groups the United States is anomalous among the Western industrialized nations as church membership and religious affiliation generally increased during this period Religion in America Since 1945 is a masterful analysis of this dynamism and diversity and an ideal starting point for any exploration of the contemporary religious scene

Laughing Matters Giorgio Baruchello, Ársæll Már Arnarsson, 2023-11-06 The present book addresses the background rationale general structure and particular aims and arguments characterizing our third and last volume about humor and cruelty A guiding foray is provided into the vast expert literature that can be retrieved in the Western humanities and social sciences on these two terms Pivotal thinkers and crucial notions are duly identified highlighted and examined Apposite subsidiary references are also included especially with regard to psychodynamics and clinical psychology existentialism feminism liberalism Marxism and representative recent studies in the philosophy of humor and its cognates The stage is thus set for the exploration and assessment of the conflicts between humor and cruelty unfolding in Part 2 of Volume 3 Being the philosophical terminus of our entire research project Volume 3 counterbalances complements and occasionally complexifies the numerous forms of mutual cooperation between humor and cruelty that the preceding Volume 2 had unearthed and discussed Like Aristotle and Dewey Arnarsson and Baruchello do not define their terms at the outset but instead they relentlessly pursue the meanings of two ordinary words that everyone vaguely understads to arrive at a critical insight into the concepts these words represent which are both disparate and interrelated Richard Marc Rubin President George Santayana Society

Catholic Labor Movements in Europe Paul Misner, 2015 Catholic Labor Movements in Europe narrates the history of industrial labor movements of Catholic inspiration in the period from the onset of World War I to the reconstruction after World War II The stated goal of concerned Catholics in the 1920s and 1930s was to rechristianize society But dominant labor movements in many countries during this period consisted of socialist elements that viewed

religion as an obstacle to social progress It was a daunting challenge to build robust organizations of Catholics who identified themselves with the working classes and their struggles *Divine Revolution* Dean Brackley, 2004-09-27 A compelling exploration of one of the central issues if not the central issue facing theology in our time the relation between transcendent salvation and temporal liberation What does the salvation that the church proclaims mean for the poor of the world In *Divine Revolution* Dean Brackley presents in a comprehensive yet manageable way what Catholic theology has to say about this complex and urgent topic He addresses the historical as well as the systematic dimensions of the question providing insights that point toward an understanding of the issues that challenge conservative and liberal interpretations alike In a work of great daring and clarity Brackley surveys the confusion surrounding the social historical dimension of salvation in Catholic thought He shows the irony of the fact that after 2 000 years what salvation means for the poor in relationship to their concrete plight remains a quaestio disputata for official Magisterial teaching Going deeply into the relationship of salvation and liberation Brackley explores the thought of Maritain Rahner and Gutierrez to demonstrate how the synbolon of the Reign of God that Jesus announces transcends the tired theological distinctions of all sides in the debate Drawing from developments in feminist and Protestant theology as well as contemporary social theory *Divine Revolution* offers a fresh understanding of what it means to participate in God s revolutionary reign Catholic tradition Brackley argues has great potential to articulate a hope which responds to the suffering of the poor in our time When conventional wisdom says compassion fatigued Americans are tired of hearing about the poor Brackley responds The poor are far more tired of being poor They too would like to move on to other things but they cannot **Philosophical Theory and the Universal**

Declaration of Human Rights William Sweet, 2003-05-26 *Philosophical Theory and the Universal Declaration of Human Rights* examines the relations and interrelations among theoretical and practical analyses of human rights Edited by William Sweet this volume draws on the works of philosophers political theorists and those involved in the implementation of human rights The essays although diverse in method and approach collectively argue that the language of rights and corresponding legal and political instruments have an important place in contemporary social political philosophy *The Twentieth Century* Gregory Baum, 1999-11-11 Many of the essays are well worth reading particularly for those with interests in recent historical theology church history and the sociology of religion Oliver D Crisp Themelios 26 1 Autumn 2001 *The Mind That Is Catholic* James V. Schall, 2011-01-30 In this wide ranging collection of philosophical essays the acclaimed Catholic intellectual presents his vision of Catholic thought applied in the world In *The Mind That Is Catholic* political philosopher and Catholic intellectual James V Schall presents a retrospective collection of his academic and literary essays written in the past fifty years In these essays exploring topics from war to friendship philosophy politics and everyday living Schall exemplifies the Catholic mind at its best According to Schall the Catholic mind seeks to recognize a consistent and coherent relation between the solid things of reason and the definite facts of revelation It seeks to understand how they belong together each

profiting from the other It respects what can be known by faith alone but does not exclude the intelligibility of what is revealed In these contemplative and insightful essays Schall shares a lifetime of study in political philosophy a wide ranging discipline and perhaps the most vital context in which reason and revelation meet Father James V Schall is one of the few renaissance men still among us His knowledge of various areas of reality and human endeavor is encyclopedic Kenneth Baker SJ editor Homiletic Pastoral Review The Vanishing Tradition Paul Gottfried,2020-07-15 This anthology provides a timely critical overview of the American conservative movement The contributors take on subjects that other commentators have either not noticed or have been fearful to discuss In particular this collection of searing essays hits hard at blatant cult of celebrity and intolerance of dissent that has come to characterize the conservative movement in this country As The Vanishing Tradition shows the conservative movement has not often retrieved its wounded instead dispatching them in order to please its friendly opposition and to prove its moderateness The movement has also been open to the influence of demanding sponsors who have pushed it in sometimes bizarre directions Finally the essayists here highlight the movement s appeal to permanent values as a truly risible gesture given how arduously its celebrities have worked to catch up with the Left on social issues This no holds barred critical examination of American conservatism opens debates and seeks controversy **Divine Democracy** Miguel E. Vatter,2021 Liberal democracies assume neutrality toward the religious beliefs of its citizens the legal system is supposed to determine guilt or innocence without religious prejudice First coined by Carl Schmitt political theology questions these widely held assumptions It describes how political and legal concepts were derived from theological ones dissolving the connection between the public sphere and secularism In this intellectual history Miguel Vatter reconstructs how and why the discourse of political theology was adopted and repurposed by anti Schmittian thinkers to bolster the legitimacy of liberal democratic government Ultimately he shows to what extent contemporary democracy rests on theological assumptions Book jacket A Companion to Public Theology ,2017-01-23 Winner of the 2017 Choice Outstanding Academic Title Award Public theology has emerged in the twentieth and twenty first centuries as theologians have increasingly entered the public square to engage complex issues This Companion to Public Theology brings a much needed resource to this relatively new field The essays contained here bring a robust and relevant faith perspective to a wide range of issues as well as foundational biblical and theological perspectives which equip theologians to enter into public dialogue Public theology has never been more needed in public discourse whether local or global In conversation across disciplines its contribution to the construction of just policies is apparent in this volume as scholars examine the areas of political social and economic spheres as well as issues of ethics and civil societies and draw on contexts from six continents Contributors are Chris Baker Andrew Bradstock Luke Bretherton Lisa Sowle Cahill Letitia M Campbell Cludio Carvalhaes Katie Day Frits de Lange Jolyon Mitchell Elaine Graham Paul Hanson Nico Koopman Sebastian Kim Esther McIntosh Clive Pearson Scott Paeth Larry L Rasmussen Hilary Russell Nicholas Sagovsky Dirk J Smit William Storrar David

Tombs Rudolf von Sinner Jenny Anne Wright and Yvonne Zimmerman **Christianity and Global Law** Rafael Domingo, John Witte, Jr., 2020-03-31 This book explores both historical and contemporary Christian sources and dimensions of global law and includes critical perspectives from various religious and philosophical traditions Two dozen leading scholars discuss the constituent principles of this new global legal order historically comparatively and currently The first part uses a historical biographical approach to study a few of the major Christian architects of global law and transnational legal theory from St Paul to Jacques Maritain The second part distills the deep Christian sources and dimensions of the main principles of global law historically and today separating out the distinct Catholic Protestant and Orthodox Christian contributions as appropriate Finally the authors address a number of pressing global issues and challenges where a Christian informed legal perspective can and should have deep purchase and influence The work makes no claim that Christianity is the only historical shaper of global law nor that it should monopolize the theory and practice of global law today But the book does insist that Christianity as one of the world's great religions has deep norms and practices ideas and institutions prophets and procedures that can be of benefit as the world struggles to find global legal resources to confront humanity's greatest challenges The volume will be an essential resource for academics and researchers working in the areas of law and religion transnational law legal philosophy and legal history

The Encyclopedia of Christian Literature George Thomas Kurian, James D. Smith III, 2010-04-16 The written word is one of the defining elements of Christian experience As vigorous in the 1st century as it is in the 21st Christian literature has had a significant function in history and teachers and students need to be reminded of this powerful literary legacy Covering 2 000 years The Encyclopedia of Christian Literature is the first encyclopedia devoted to Christian writers and books In addition to an overview of the Christian literature this two volume set also includes 40 essays on the principal genres of Christian literature and more than 400 bio bibliographical essays describing the principal writers and their works These essays examine the evolution of Christian thought as reflected in the literature of every age The companion volume also features bibliographies an index a timeline of Christian Literature and a list of the greatest Christian authors The encyclopedia will appeal not only to scholars and Christian evangelicals but students and teachers in seminaries and theological schools as well as to the growing body of Christian readers and bibliophiles

John Paul II's Contribution to Catholic Bioethics Christopher Tollefsen, 2008-01-18 Any list of the most influential figures of the second half of the twentieth century would arguably have to begin with the name of Pope John Paul II From 1978 when he was inaugurated to the present over a quarter of a century later the Pope has been a dominant force in the world both within the Catholic and Christian Church and in the larger international community Among the areas in which the Pope has been of signal importance to contemporary discussion argument and policy has been the field of bioethics This collection brings together for the first time in an accessible and readable form a summary and assessment of John Paul II's contribution to bioethical issues and theories It includes discussion of the Pope's views on the dignity of the person and the

sanctity of human life and the application of these views to various difficulties in medical ethics such as abortion and embryo research the right to health care and the problem of suffering Throughout attention is paid to the way in which the Pope stands as a recognizably authentic voice for the Catholic faith in the medical arena *Faith, Scholarship, and Culture in the 21st Century* Alice Ramos, Marie I. George, 2002 While some intellectuals at the end of the nineteenth century argued that scientific progress would eventually cause the demise of religion it is evident that this has not been the case and that contemporary science is in fact not necessarily inimical to a religious worldview So a fruitful dialogue between science and religion has become a reality But there is also a more fundamental question that arises which is not simply the relationship of the sciences or of other disciplines to religion but rather whether faith can and should have an impact on teaching and research The majority of the essays in this volume hold that the Christian faith provides definite cognitive advantages and that to leave one's faith at the entrance of the campus thus separating faith from reason leads to a schizophrenic view of the Christian's intellectual life This volume thus shows how the religious faith of intellectuals not all of whom are Christian exercises a real influence on their scholarship In consonance with the thought of Pope John Paul II it is the contention of the scholars whose essays make up this volume that a faith that imbues research and teaching will effect a transformation not only in themselves but also in their students and eventually in society Hence a faith that is fully received thought out and lived will penetrate culture and there is no doubt that present day culture stands in need of transformation In fact the encyclical *Fides et Ratio* from which a number of the essays draw inspiration attributes the secularization of the West in great part to the separation of faith from culture Jacques Maritain himself more than fifty years ago recognized that modern and contemporary culture had severed its ties with the sacred and in so doing had turned its back on humanity Now in the twenty first century as always human beings have a profound need for meaning and transcendence a need which scholarly reflection such as that found in this volume can help to satisfy In addition to the editors the contributors are David Arias Jr Mariano Artigas Gavin T Colvert John Goyette Frederick Erb III Heather McAdam Erb Alfred J Freddoso Jeanne M Heffernan Leon Klenicki Ralph McInerny John F Morris Warren Murray Peter A Pagan Teresa I Reed Robert Royal James V Schall S J William Sweet and Dallas Willard Alice Ramos and Marie I George are both Associate Professors of Philosophy at St John's University
