## **Integrated Product Development:**

*Integrated Product Development* Mogens Myrup Andreassen, Lars Hein, 1987      **The Organisation of Integrated Product Development** Victor Paashuis, 2013-04-17 In today's industries New Product Development NPD is often the focal point of competition. Companies that are able effectively to develop, produce and introduce new products are the key competitors in markets where variety and time to market play an increasingly important role. This examination into the organisation of Integrated Product Development aims to answer the question: Which integration mechanisms lead to effective co-ordination and overlap of New Product Development activities in which situations? The mechanisms, strategies and goals, knowledge and skills and organisational arrangements are presented and their impact on the results of NPD projects and relationships is discussed. An in-depth understanding of the background and theory is provided using detailed case studies to illustrate both the human and organisational issues in practice.

*Integrated Product Development with Fiber-Reinforced Polymers* David May, 2021-07-03 This book presents the basics of fiber reinforced polymers FRP. The author presents the material specific advantages of FRP and the typical areas of their application. The problems created by conventional non-integrating product development are listed and the author states how these problems are potentially overcome by integrated product development IPD. In addition it is explained why IPD is of particular importance for FRP. An approach to IPD for FRP parts is presented. It is explained step by step how a catalogue of requirements is defined as well as how this basis is used to develop a concept, a design and a final construction. Simple but effective methods for the selection of fiber materials, semi-finished products and manufacturing processes are highlighted in this book. A concluding chapter describes an approach to techno-economic evaluation. Throughout the book practical application examples show the reader how to put the gained knowledge into practice.
