Approaches in the Treatment of Adolescents with Emotional and Substance Abuse Problems Brahm

Fleisch, 1991 **ADOLESCENCE EDUCATION** CHOUDHARY, GIRISH BALA, 2014-07-18 The young and adolescents are an epitome of change hope and progress The lives of adolescents are subject to global challenges faced by information and technological revolution changing markets and globalization and specific changes taking place in family dynamics cultural traditions religious beliefs and other socialization practices This book on Adolescence Education assumes importance in view

of the likely impact of acquired skills and behaviours during this period on an individual's prospects in adulthood. This book is an attempt to understand the broader context in which adolescent lives are embedded. The theoretical perspective presents a multi-disciplinary view of adolescence that helps to understand the evolution of the concept of adolescence. Presenting an elaborate account of adolescence as experienced by young people in India and highlighting the challenges that emerge as a result of dynamic changes in society, the attempt is made to identify the emerging issues and concerns that impact the lives of adolescents and provide a perspective to adolescent education. The historical account presented helps to build an understanding of the various socio-cultural forces that led to the emergence of the existing Adolescent Education Programme (AEP). The text presents the key features of the present AEP that are imperative for its successful implementation. The UN and civil society initiatives are mapped with a view to locate the characteristic features and thrust of various interventions. The text gives some gleanings from available evidences regarding execution of various existing adolescent programmes and existential realities of adolescents' lives. The book is intended for the undergraduate and postgraduate students of Education, Psychology and Sociology. Besides, the book is equally beneficial for the students opting for Psychology at their 2nd level.

Model Programs for Adolescent Sexual Health Tabitha Benner, Josefina J. Card, 2008-05-22

Model Programs for Adolescent Sexual Health is a directory of the most promising and proven effective sexual education and prevention programs in the United States. The programs included in this volume were selected for their demonstrated positive impact on STI, pregnancy, and HIV/AIDS-related risk behaviors by a group of eminent HIV/AIDS expert scientists. The programs also show effective prevention strategies aimed at a variety of ages, children, adolescents, college students, a variety of ethnic and cultural orientations, Latino, African American, GLBT, and more, and for use in a variety of settings: schools, community settings, medical clinics, and more. The following information is provided for each program listed in the directory: The Program Abstract summarizes the program including its target clientele, site, approach, components, length, staffing requirements, program materials, and implementation costs. The Program Rationale and History explains how the program was designed and its underlying theoretical framework and assumptions. Program Schedule explains the goals and activities of each program session. Program Materials explains the necessary materials needed to implement the program. Note that not all materials are included in this directory; however, all can be ordered from Sociometrics. How to Implement the Program explains the ground rules and other necessary steps prior to implementation. Evaluating the Program explains how the program was evaluated for its effectiveness.
