Spiritually Integrated Psychotherapy Len Sperry, 2025-03-04 As integrating spiritual concerns becomes commonplace in psychotherapy, this new edition of *Spiritually Integrated Psychotherapy* leads the way in describing and illustrating its effective clinical practice from the first through to the last session. Islamically Integrated Psychotherapy Carrie York Al-Karam, 2018-07-01 Integrating the Islamic faith with modern psychotherapy is at the forefront of the spiritually integrated psychotherapy movement. To bring this work to wider attention and to promote its continuation, Dr. Carrie York Al-Karam has brought together the present volume of nine essays, each of which is written by a Muslim clinician who practices Islamically integrated psychotherapy (IIP), a modern approach that unites the teachings, principles, and interventions of the faith with Western therapeutic approaches. As delineated in the Introduction, IIP has emerged from a variety of domains, including the psychology of religion and spirituality, multicultural psychology, and counseling, transpersonal psychology, Muslim Mental Health, and Islamic Psychology. The individual chapters then describe a variety of ways IIP is practiced by Muslim clinicians in their service provision with Muslim clients. The contributors discuss a wide range of topics, such as how Islam can be viewed

as a system for psychological wellbeing or a science of the soul what marital counseling can look like from an Islamically integrated perspective Prophet Mohammed as a psycho spiritual exemplar in a new approach called The HEART Method the use of Quranic stories in family therapy as well as using Islamic teachings when working with Muslim children and adolescents A description of the various approaches is supplemented with discussions of their theoretical underpinnings as well as research based recommendations for advancing clinical application What emerges is a vital resource for Muslim and non Muslim clinicians alike as well as the lay Muslim reader wanting to know more about how the Islamic faith and psychotherapy are engaging with each other in a modern clinical context
