**Sarah Elaine Eaton**

## **Integrity And Higher Education Three Monographs:**

**Integrity and Higher Education** Henry H. Walbesser, 2001-08-23 Institutional and professorial integrity were the hallmarks of the greatest intellectual institution of our time the American university Both forms of integrity are now under daily attack by forces more concerned with the business aspects of a university Sports programs have become more important than academic rigor Universities are unique social institutions with the two responsibilities 1 teaching adults how to think and reason in a variety of disciplines with the goal of becoming a functioning problem solver and 2 to create the next generation of knowledge makers In the great universities these responsibilities are accomplished by active researcher teachers organized around intellectual guilds called departments Administrators are drawn from faculty who are well established scholars In the past two decades this structure has been under attack by those who view a university as a business Faculty have become employees Under the business model the very essence of a university as a place to explore all sides of an idea has been gradually replaced with a corporate uneasiness with controversy of any kind The result of changing from the collegial model to the business model has been a dumbing down of academic programs and an ever increasing number of breaches of integrity A theory for the renewal of institutional integrity is advanced and its implementation discussed within a university setting

Handbook of Academic Integrity Sarah Elaine Eaton, 2023-12-04 The book brings together diverse views from around the world and provides a comprehensive overview of academic integrity and how to create the ethical academy At the same time the Handbook does not shy away from some of the vigorous debates in the field such as the causes of academic integrity breaches There has been an explosion of interest in academic integrity in the last 20 30 years New technologies that have made it easier than ever for students to cut and paste coupled with global media scandals of high profile researchers behaving badly have resulted in the perception that plagiarism is on the rise This in combination with the massification and commercialisation of higher education has resulted in a burgeoning interest in the importance of academic integrity how to safeguard it and how to address breaches appropriately What may have seemed like a relatively easy topic to address students copying sources without attribution has in fact turned out to be a complex interdisciplinary field of research requiring contributions from linguists psychologists social scientists anthropologists teaching and learning specialists mathematicians accountants medical doctors lawyers and philosophers to name just a few Because of this broad interest and input this handbook serves as the single authoritative reference work which brings together the vast growing interdisciplinary and at times contradictory body of literature For both established researchers practitioners and those new to the field this Handbook provides a one stop shop as well as a launching pad for new explorations and discussions

**Books In Print 2004-2005** Ed Bowker Staff, Staff Bowker, Ed, 2004

The Changing Nature of the Academic Deanship Mimi Wolverton, 2001-04-19 Who are academic deans and what do they do What challenges do they face and what strategies do might they use to meet these challenges What can universities do to help them become

more effective Newly appointed academic deans often find themselves in key leadership roles with strained fiscal resources external accountability pressures dizzying technology and system demands and a rapidly shifting student demographic Previous training and experience as faculty is often not enough to prepare academic deans for surmounting these challenges Authors Mimi Wolverton Walter H Gmelch Joni Montex and Charles T Neils draw from their own experiences in higher education and their research at the Center for Academic Leadership at Washington State University to examine the evolving role of the academic dean and the profound external changes which are affecting the nature of deanship They present six specific strategies to meet the persistent challenges in funding diversity issues legal concerns technology demands ethical practices and achieving the balance between the personal and professional They also address the university's role in furthering the leadership abilities of its academic deans and examine successful practices in selection socialization development and evaluation Offering an effective strategy that moves deans as managers of day to day operations to deans as leaders of a dynamic environment this book is a valuable resource for academic deans at any stage of their career

**Smart Education and e-Learning 2018** Vladimir L. Uskov, Robert J. Howlett, Lakhmi C. Jain, Ljubo Vlacic, 2018-05-28

This book features the contributions presented at the 5th International KES Conference on Smart Education and e Learning which took place in Gold Coast Australia June 20-22 2018 The peer reviewed papers are grouped into several interconnected parts Part 1 Smart Education Systems and Technology Part 2 Smart Pedagogy Part 3 Smart Education Case Studies and Research and Part 4 Sustainable Learning Technologies Smart Higher Education Futures Smart education and smart e learning are emerging and rapidly growing areas with the potential to transform existing teaching strategies learning environments and educational activities and technology in the classroom Smart education and smart e learning focus on enabling instructors to develop new ways of achieving excellence in teaching in highly technological smart classrooms and providing students with new opportunities to maximize their success and select the best options for their education location and learning style as well as the mode of content delivery This book serves as a useful source of research data and valuable information on current research projects best practices and case studies for faculty scholars Ph D students administrators and practitioners all those who are interested in smart education and smart e learning *Resources in Education*, 2001-10

**Mentoring At-Risk Students through the Hidden Curriculum of Higher Education** Buffy Smith, 2013-06-07

Mentoring At Risk Students through the Hidden Curriculum of Higher Education reveals how the institutional culture and social networks of universities influence the academic success of underrepresented students This book is based on a qualitative study that integrates a sociological and higher education theoretical framework to examine the impact of mentoring programs on students acquisition of institutional cultural capital and social capital during their college experience This book offers an innovative mentoring model that illuminates how students can navigate the hidden curriculum of higher education In addition the book provides practical strategies on how to avoid academic mine fields in order to thrive in college

This book is written for administrators faculty student affairs professionals and students to promote retention academic success and create a more transparent inclusive and equitable higher education system See here for an article by the author on mentoring programs in colleges and universities published in Inside Higher Ed <http://www.insidehighered.com/news/2014/08/04/book-argues-mentoring-programs-should-unveil-colleges-hidden-curriculum> To learn about a recent presentation by the author see here [http://diverseeducation.com/article/66772-utm\\_campaign=DiverseNewsletter3-utm\\_medium=email-utm\\_source=Eloqua-elq82772667e2334157934731fc05a8fe9c-elqCampaignId358](http://diverseeducation.com/article/66772-utm_campaign=DiverseNewsletter3-utm_medium=email-utm_source=Eloqua-elq82772667e2334157934731fc05a8fe9c-elqCampaignId358) Opportunity Monograph United States. Division of Vocational Education,1918 *Monograph* South-western Publishing Company,1960 November 3, 4, 5, and 6, 1969 United States. Congress. House. Committee on Ways and Means,1970 **Quality and Accountability in Higher Education** E. Grady Bogue,Kimberely B. Hall,2003-02-28 This comprehensive volume clarifies the historical technical and philosophical details present in the various quality assurance theories and policy systems of the American higher education system The authors E Grady Bogue and Kimberely Bingham Hall examine the theories of quality including goal achievement outcomes value added impacts and reputation They trace the philosophical heritage and analyze the strengths and weaknesses of quality assurance policy systems such as accreditation rankings and ratings outcomes licensure program reviews follow up studies and total quality management They also recommend a set of policy principles for improving their integration and effectiveness Besides offering the details of policy systems for defining developing and demonstrating quality this work also delves into the moral and ethical issues inherent in quality measures of higher education institutions Bogue and Hall assert that quality cannot exist without integrity in personnel policies and programs Political and academic officers must work together more closely in order to design appropriate collegiate accountability systems Administrators professors and government leaders would all benefit from this thorough analysis of past and present quality assurance programs and the subsequent recommendations for future policies **Monograph Series** University of Illinois at Urbana-Champaign. Graduate School of Library Science,1963 **Human Development and Capabilities** Alejandra Boni,Melanie Walker,2013-04-12 Globally universities are the subject of public debate and disagreement about their private benefits or public good and the key policy vehicle for driving human capital development for competitive knowledge economies Yet what is increasingly lost in the disagreements about who should pay for university education is a more expansive imaginary which risks being lost in reductionist contemporary education policy This is compounded by the influences on practices of students as consumers of a university education as a private benefit and not a public good of human capital outcomes over other graduate qualities and of unfettered markets in education Policy reductionism comes from a narrow vision of the activities products and objectives of the University and a blinkered vision of what is a knowledge society Human Development and Capabilities therefore imaginatively applies a theoretical framework to universities as institutions and social practices from human development and the capability approach attempting to show how universities might advance equalities rather than

necessarily widen them and how they can contribute to a sustainable and democratic society Picking through the capability approach for human development in relation to Universities this book highlights and explores three main ideas theoretical insights to advance thinking about human development and higher education Policy implications for the responsibilities and potential contributions of universities in a period of significant global change Operationalising a New Imaginary This fresh take on the work and purpose of the University is essential reading for anyone interested in university education capability approach and human development particularly postgraduates University policy makers researchers and academics in the field of higher education

Building Inclusive Ethical Cultures in STEM Elisabeth Hildt,Kelly Laas,Eric M. Brey,Christine Z. Miller,2024-02-22 This book shares innovative approaches to effectively engage students and faculty working in research labs lab based classrooms and courses to build inclusive ethical cultures The frameworks and approaches presented move beyond traditional research ethics training to strengthen the ethical culture in research labs The chapters in the book showcase best practices and approaches to embedding educational interventions in courses research labs and departments The book is based on the two day workshop Building Inclusive Ethical Cultures in STEM April 23 24 2021 Moving beyond the two day conference that inspired this collected volume the various chapters address questions like What are approaches and tools to integrate ethics education in STEM effectively How can STEM ethics education be improved What can researchers do to build more inclusive research environments How can meaningful discussions about ethics be effectively integrated into STEM courses research labs and workplace environments While each chapter takes a different perspective and is located in its respective context the contributions are united by the goal of effectively including ethical reflection in STEM education Instructors from both four year and two year colleges who teach STEM and lab based STEM courses young principal investigators junior faculty who are in the process of building their research groups departmental chairs interested in programmatic approaches for improving mentoring research ethics education and the research culture of their department will find this work to be a very valuable resource in their daily practice
