Intellectuals In Power:

Intellectuals in Power Paul A. Bové, 1986 Intellectuals and the Articulation of the Nation Ronald Grigor Suny, Michael D. Kennedy, 2001 An interdisciplinary look at the role of intellectuals in the making of nations **Men of Ideas** Lewis A. Coser, 1997-07-22 Provides an analysis of the evolution of the western intellectual class since the seventeenth century Publisher **The Intellectual and His People** Jacques Rancière, 2021-03-16 Following the previous volume of essays by Jacques Rancière from the 1970s *Staging the People* *The Proletarian and His Double* this second collection focuses on the ways in which radical philosophers understand the people they profess to speak for *The Intellectual and His People* engages in an incisive and original way with current political and cultural issues including the discovery of totalitarianism by the new philosophers the relationship of Sartre and Foucault to popular struggles nostalgia for the ebbing world of the factory the slippage of the artistic avant garde into defending corporate privilege and the ambiguous sociological critique of Pierre Bourdieu As ever Rancière challenges all patterns of thought in which one time radicalism has become empty convention **The Sociology of Intellectuals** Simon Susen, Patrick Baert, 2017-11-15 This volume offers an unprecedented account of recent and future developments in the sociology of intellectuals It presents a critical exchange between two leading contemporary social theorists Patrick Baert and Simon Susen advancing debates at the cutting edge of scholarship on the changing role of intellectuals in the increasingly interconnected societies of the twenty first century The discussion centres on Baert's most recent contribution to this field of inquiry *The Existentialist Moment* *The Rise of Sartre as a Public Intellectual* 2015 demonstrating that it has opened up hitherto barely explored avenues for the sociological study of intellectuals In addition the authors provide an overview of various alternative approaches that are available for understanding the sociology of intellectuals such as those of Pierre Bourdieu Randall Collins and Neil Gross In doing so they grapple with the question of the extent to which intellectuals can play a constructive role in influencing social and political developments in the modern era This insightful volume will appeal to students and scholars of the humanities and social sciences particularly to those interested in social theory and the history of intellectual thought **Michel Foucault's Archaeology of Western Culture** Pamela Major-Poetzl, 2017-10-10 The author argues that Foucault's archaeology is an attempt to separate historical and philosophical analysis from the evolutionary model of nineteenth century biology and to establish a new form of social thought based on principles similar to field theory in twentieth century physics She examines Foucault's view of the relationship between power and knowledge and goes on to discuss the new concepts of space time subject and causality expressed in relativity theory quantum mechanics Saussurean linguistics and Foucault's literary essays Originally published in 1983 A UNC Press Enduring Edition UNC Press Enduring Editions use the latest in digital technology to make available again books from our distinguished backlist that were previously out of print These editions are published unaltered from the original and are presented in affordable paperback formats bringing readers both historical and cultural

value Intellectuals - and Politics ,1967 **Intellectuals and Power** François Laruelle,2014-12-23 In this important new book the leading philosopher Fran ois Laruelle examines the role of intellectuals in our societies today specifically with regards to criminal justice He argues that rather than concerning themselves with abstract philosophical notions like justice truth and violence intellectuals should focus on the human victims Drawing on his influential theory of non philosophy he shows how we can submit the theorizing of intellectuals to the scrutiny of the everyday suffering of the victims of crime In the course of a wide ranging discussion with Philippe Petit Laruelle suspends the presumed authority of intellectuals by challenging the image of the dominant intellectual exemplified by philosophers such as Sartre Foucault Lyotard and Debray In place of domination he puts forward instead a theory of determination the determined intellectual is one whose character is conditioned by his relationship to the victim rather than one who attempts to dominate the victim s experience through a process of theorizing While philosophy consistently takes the voice away from victims of suffering non philosophy is able to construct a theory of violence and crime that gives voice to the victim This highly original book will be essential reading for all those interested in contemporary French philosophy and all those concerned with justice in the modern world

Intellectuals in Twentieth-Century France Jeremy Jennings,2016-07-27 This book examines the role and place of the intellectual in twentieth century French society The essays are for the most part written by eminent French scholars and make available to the English speaking reader a growing body of research which explores the ethical and historical issues raised by the prominence of the intellectual in politics since the Dreyfus Affair The volume concludes with an examination of the contrasting and complementary roles of the French and British intellectual **Theories of the New Class** Lawrence P. King,2004 **Intellectuals and Politics (Routledge Revivals)** Robert Brym,2010-07-02 This essay first published in 1980 analyses the relationship between intellectuals social locations and their political orientations Dr Brym provides a critical discussion of the various sociological views of intellectuals and specifies some of the social conditions which encourage intellectuals to follow various directions on the political compass He also demonstrates that intellectuals are neither socially rootless nor tied to one particular class or group within society concluding that it is only by an analysis of intellectuals mobility patterns that we can hope to arrive at an adequate understanding of their politics Clearly written and assuming only a basic grounding in sociological theory this book will thus be of special interest to students of political sociology social movements the sociology of knowledge the sociology of culture and the sociology of intellectuals **The New Salmagundi Reader** Robert Boyers,Peggy Boyers,1996-10-01 The New Salmagundi Reader comprises forty three pieces in subject categories such as the Sense of the Past Homelands Writers The Art Scene Politics and Varieties Public Intellectuals and Their Discontents Yadullah Shahibzadeh,2020-09-30 This book addresses the ways in which the figure of the intellectuals and their relationship to the public has been theorized through the conceptualizations of bureaucracy democracy and communism as universal processes from the 19th century to the present Starting with Hegel and Marx the author looks at the rise of the

figure of the universal intellectual in various forms before turning to what is presented as a transformation of the figure of the intellectual into the public intellectual advanced by the New Philosophies and the critical response offered by Edward Said. The study presents two comparative case studies: the Iranian Revolution and the public intellectuals in Europe specifically in Norway, before concluding with a focus on the decay of the figure of the intellectuals and highlighting Rancière's critique of the intellectual masses distinction.

Mastering Discourse Paul A. Bové, 1992. *Mastering Discourse* gathers and elaborates more than a decade of thought on the problems of the intellectual in contemporary society by one of the most distinguished critics writing on these issues today. From Derrida and Foucault to Kristeva and Irigaray, Paul A. Bové looks at the practices of literary and cultural theory and discusses the way theorists have produced their institutional positions and politics. Examining some of the major theories developed out of and in relation to the problems of discourse, Bové analyzes the limited successes and failures of these efforts. *Mastering Discourse* offers an account of why theory fails to deal adequately with the politics of discursive cultures and warns that unless critics take much more seriously their own disciplinary inscriptions, they will always reproduce structures of power and knowledge that they claim to oppose. Moreover, Bové argues they will not fulfill the main role of the post-enlightenment intellectual, namely to respond effectively to the present through new theoretical and historical formulations that address the changing world of transnational capitalism and its neoliberal ideologies.

Melancholy Politics Jean-Philippe Mathy, 2011-01-01. The current cultural climate in France is often described as one of *déclinisme* or *sinistrose*, a mixture of pessimism about the national future, nostalgia for the past, and a sinister sense of irreversible decline concerning the present. The notion of democratic melancholia has become widely popular, cropping up time and again in academic papers and newspaper articles. In *Melancholy Politics*, Jean-Philippe Mathy examines the development of this disenchanted mood in the works of prominent French philosophers, historians, and sociologists since the beginning of the 1980s. This period represents a significant turning point in French intellectual life as the legacy of major postwar and sixties theorists such as Lévi-Strauss, Derrida, and Foucault was increasingly challenged by a younger generation of authors who repudiated both Marxism and structuralism. The book is not a classic intellectual or cultural history of post-1968 France but rather a contribution to the understanding of the present, a collection of soundings into what remains largely a complex, ongoing process.

Property and Power in Social Theory Dick Pels, 2002-08-26. Property and power perform a key role in social and political theories of class inequality and social stratification; however, theorists have yet clearly to define these concepts, their mutual boundaries, and scopes of application. This book answers the property-power puzzle by undertaking a broad historical inquiry into its intellectual origins and present-day effects through a series of case studies, including Marxism vs. anarchism, the fascist assertion of the primacy of the political, social science as power theory, the managerial revolution, the knowledge society, and the new intellectual classes.

Print and Power Shawn Frederick McHale, 2004-01-01. In this ambitious and path-breaking book, Shawn McHale challenges long-held views that

define modern Vietnamese history in terms of anticolonial nationalism and revolution McHale argues instead for a historiography that does not overstress either the role of politics in general or communism in particular Using a wide range of sources from Vietnam France and the United States many of them previously unexploited he shows how the use of printed matter soared between 1920 and 1945 and in the process transformed Vietnamese public life and shaped the modern Vietnamese consciousness Print and Power examines the impact of the French colonial state on Vietnamese society as well as Vietnamese and East Asian understandings of public discourse and public space The work goes on to contest the impact of Confucianism on pre modern and modern Vietnam and based on materials never before used provides a radically new perspective on the rise of Vietnamese communism from 1929 to 1945 **The Price of Public Intellectuals** R.

Sassower,2014-04-08 This book provides a historically informed survey critically outlining sociological psychological political and economic approaches to the role of public intellectuals Sassower suggests how the state might financially support the essential work of public intellectuals so as to critically engage the public and improve public policies **Knowledge And**

Decisions Thomas Sowell,2022-01-04 With a new preface by the author this reissue of Thomas Sowell s classic study of decision making updates his seminal work in the context of The Vision of the Anointed Sowell one of America s most celebrated public intellectuals describes in concrete detail how knowledge is shared and disseminated throughout modern society He warns that society suffers from an ever widening gap between firsthand knowledge and decision making a gap that threatens not only our economic and political efficiency but our very freedom because actual knowledge gets replaced by assumptions based on an abstract and elitist social vision of what ought to be Knowledge and Decisions a winner of the 1980 Law and Economics Center Prize was heralded as a landmark work and selected for this prize because of its cogent contribution to our understanding of the differences between the market process and the process of government In announcing the award the center acclaimed Sowell whose contribution to our understanding of the process of regulation alone would make the book important but in reemphasizing the diversity and efficiency that the market makes possible his work goes deeper and becomes even more significant **Democracy and the Will to Power** James Nelson Wood,1921
