The Thinking Reader Ciera Harris, 2025-02-21. Concepts, lesson plans, and strategies for making reading lessons work. *The Thinking Reader: Cultivating Critical Thinkers in the Classroom* is the frazzled teacher's guide to setting up any grade 2-4 classroom for reading success. You won't find any busywork, condescending lectures, or boring worksheets in this book. Instead, you'll learn flexible reading strategies to blend into your lessons at the start of the school year that will support your students for years to come. This book also debunks old school ideas about reading instruction and explains the concepts that you'll need to know as you help students build a foundation for their future as readers. Former elementary teacher and instructional coach Ciera Harris has achieved remarkable, replicable results with young readers, not with a rigid system or program, but with a new approach to thinking about reading. In this book, you'll learn why it makes sense to go beyond all the lessons of phonics, fluency, and vocabulary by making reading personal to each student. This easy-to-use approach has helped teachers across the country create a culture of reading within their classrooms, so students, even those that struggle the most with reading, can start view themselves as readers. Help students learn based on what interests them as individuals and watch budding readers bloom. Discover why reading is not a series of decoding skills, but a personal, powerful act of thinking. Learn the steps to setting up your classroom for reading success at the beginning of the year. Get engaging lesson plans and techniques for implementing primary reading strategies like schema, asking questions, metacognition, and so much more. Overcome common roadblocks, including student resistance to reading. With *The Thinking Reader*, elementary school teachers in grades 2-4 can build the ultimate framework for reading success.

Contemporary Perspectives on Science and Technology in Early Childhood Education Olivia Saracho, Bernard Spodek, 2008-01-01 For decades politicians businessmen and other leaders have been concerned with the quality of education including early childhood education in the United States While more than 50% of the children between the ages of three and five are enrolled in preschool and kindergarten programs in the United States no state federal or national standards exist for science or technology education in preschool or kindergarten programs Knowledge about science and technology is an important requirement for all in contemporary society An increasing number of professions require the use of scientific concepts and technological skills and society as a whole depends on scientific knowledge Scientific and technological knowledge should be a part of every individual s education There are many ways to enhance young children s scientific thinking and problem solving skills as well as their technological abilities The purpose of this volume is to present a critical analysis of reviews of research on science and technology education in early childhood education The first part of the volume includes contributions by leading scholars in science while the second part includes contributions by leading scholars in technology

Critical CALL - Proceedings of the 2015 EUROCALL Conference, Padova, Italy Francesca Helm, Linda Bradley, Marta Guarda, Sylvie Thouësny, 2015-12-02 The theme of the conference this year was Critical CALL drawing inspiration from the work carried out in the broader field of Critical Applied Linguistics The term critical has many possible interpretations and as Pennycook 2001 outlines has many concerns It was from these that we decided on the conference theme in particular the notion that we should question the

assumptions that lie at the basis of our praxis ideas that have become naturalized and are not called into question Over 200 presentations were delivered in 68 different sessions both in English and Italian on topics related specifically to the theme and also more general CALL topics 94 of these were submitted as extended papers and appear in this volume of proceedings

Child Therapy in the Great Outdoors Sebastiano Santostefano,2013-04-15 Building on relational conceptualizations of enactment and on developmental research that attests to the role of embodied nonverbal language in the meanings children impute to their experiences Sebastiano Santostefano offers this compelling demonstration of effective child therapy conducted in the great outdoors Specifically he argues that for the child traumatic life metaphors should be resolved at an embodied rather than an exclusively verbal level they should be resolved that is as they are enacted between child and therapist To this end child and therapist must take advantage of all the indoor and outdoor environments available to them As they take therapy to nontraditional places relying on the nonverbal vocabulary they have constructed together they move toward enacted solutions to relational crises solutions that revise the child s sense of self and ability to form new and productive relationships
