Eric Ambler's Novels Robert Lance Snyder, 2019-12-30 Eric Ambler s first six novels released between 1936 and 1940 quickly established his reputation as a master craftsman of intrigue and espionage narratives Far less often discussed are the twelve Cold War novels he published after an eleven year hiatus as a screenwriter between 1951 and 1981 This study argues that his entire corpus manifests late modernism s impulse toward a broadly social political and cultural critique of the times Ambler s fiction from the mid 1950s onward is also remarkable for its ludic turn as he assesses the self deceptions of an increasingly bureaucratized and media focused world blind to its own follies In these later works can be seen elements of what has come to be known as postmodernism though in his commitment to chronicling the juggernaut of modernity he remains a uniquely independent witness of what is now being called the long twentieth century
