highlighting the critical human and ecological benefits of connectivity MetroGreen's unique focus on several cities rather than a single urban area offers a perspective on the political economic cultural and environmental conditions that affect open space planning and the outcomes of its implementation

Ecology Begins at Home Archie Duncanson, 2008-07 How can we help reduce our planet's pollution Begin at home With his positive attitude and what can I do approach Archie Duncanson takes us on a journey of discovery to find a more sustainable way to live from reducing rubbish and the use of chemicals to cooking with almost no energy Ecology Begins at Home offers environmentally friendly options often surprisingly simple that don't necessarily require major changes to your lifestyle Archie gives hundreds of tips and ideas some so obvious we wonder why we haven't thought of them before for ways that we can change our habits to live more in harmony with the earth There's no need to wait for the world's governments to take the initiative Using the power of choice we can reduce our share of global pollution and inspire others to do the same now

Integral Ecology Sean Esbjorn-Hargens, Ph.D., Michael E. Zimmerman, Ph.D., 2011-03-08 Today there is a bewildering diversity of views on ecology and the natural environment With more than two hundred distinct and valuable perspectives on the natural world and with scientists economists ethicists activists philosophers and others often taking completely different stances on the issues how can we come to agreement to solve our toughest environmental problems In response to this pressing need Integral Ecology unites valuable insights from multiple perspectives into a comprehensive theoretical framework one that can be put to use right now The framework is based on Integral Theory as well as Ken Wilber's AQAL model and is the result of over a decade of research exploring the myriad perspectives on ecology available to us today and their respective methodologies Dozens of real life applications and examples of this framework currently in use are examined including three in depth case studies work with marine fisheries in Hawai'i strategies of eco activists to protect Canada's Great Bear Rainforest and a study of community development in El Salvador In addition eighteen personal practices of transformation are provided for you to increase your own integral ecological awareness Integral Ecology provides the most sophisticated application and extension of Integral Theory available today and as such it serves as a template for any truly integral effort

Distribution Ecology Marcelo Hernán Cassini, 2013-03-02 This book brings together a set of approaches to the study of individual species ecology based on the analysis of spatial variations of abundance Distribution ecology assumes that ecological phenomena can be understood when analyzing the extrinsic environmental or intrinsic physiological constraints population mechanisms that correlate with this spatial variation Ecological processes depend on geographical scales so their analysis requires following environmental heterogeneity At small scales the effects of biotic factors of ecosystems are strong while at large scales abiotic factors such as climate govern ecological functioning Responses of organisms also depend on scales at small scales adaptations dominate i.e. the ability of organisms to respond adaptively using habitat decision rules that maximize their fitness at large scales limiting traits dominate i.e. tolerance ranges to environmental conditions

Atom Peter van Wyck, 2010-10-22 The surprising story of the atomic bomb's origins in Canada's North *Sourcebook of Family Theories and Methods* Pauline Boss, William J. Doherty, Ralph LaRossa, Walter R. Schumm, Suzanne K. Steinmetz, 1993-03-31 Origins We call this book on theoretical orientations and methodological strategies in family studies a sourcebook because it details the social and personal roots i.e. sources from which these orientations and strategies flow. Thus an appropriate way to preface this book is to talk first of its roots its beginnings. In the mid 1980s there emerged in some quarters the sense that it was time for family studies to take stock of itself. A goal was thus set to write a book that like Janus would face both backward and forward a book that would give readers both a perspective on the past and a map for the future. There were precedents for such a project. The Handbook of Marriage and the Family edited by Harold Christensen and published in 1964 the two Contemporary Theories about the Family volumes edited by Wesley Burr Reuben Hill F. Ivan Nye and Ira Reiss published in 1979 and the Handbook of Marriage and the Family edited by Marvin Sussman and Suzanne Steinmetz then in production.
