Economic Development In The Soviet Union:

Soviet Economic Development from Lenin to Khrushchev Robert William Davies, 1998-03-28 This book provides a comprehensive survey of Soviet economic development from 1917 to 1965 in the context of the pre revolutionary economy In these years the Soviet Union negotiated the first stages of modern industrialisation and then after the defeat of Nazi Germany and its allies emerged as one of the two world superpowers This was also the first attempt to construct a planned socialist order These developments resulted in great economic achievements at great human cost Using the results of recent Russian and Western research Professor Davies discusses the inherent faults and strengths of the system and pays particular attention to the major controversies Was the Russian Revolution doomed to failure from the outset Could the mixed economy of the 1920s have led to a democratic socialist economy What was the influence of Soviet economic development on the rest of the world

Economic Development in the Soviet Union Stanley Harold Cohn, 1970 **Economic Development in the Soviet Union** Stanley Harold Cohn, 1970 **Law And Economic Development In The Soviet Union** Peter B.

Maggs, 2019-03-04 In the past Soviet policymakers planners and jurists in their enthusiasm for economic and technological development devoted little attention to the often negative consequences of modernization New concerns however have become apparent in recent literature statutes and decrees In this book political scientists and experts on Soviet law address many of those concerns analyzing the legal issues associated with economic modernization in the USSR The central themes of the book are the increasingly centralized nature of the policymaking process in the USSR and Eastern Europe and the marked tendency to rely on law as a principal mechanism for managing the undesirable consequences of scientific and technological progress The authors also assess the impact of the scientific technical revolution on Soviet East European relations and East West relations emphasizing the foreign policy consequences of increased financial and technological interdependence The study does not deal with narrow legalistic issues of technical progress rather its focus on policy questions reflects the inclination of Soviet and Eastern European governments to view those questions in terms of law and legislative activity and to see law as an instrument of social engineering **The Economic Development of the USSR**

Roger Munting, 2023-06-14 The Economic Development of the USSR 1982 examines the economic advances the Soviet Union made as the first major economy to adopt full scale socialist planning It argues that the Soviet experience demonstrates that remarkable quantitative economic progress can be achieved but at a price which Western democracies would not tolerate Moreover while the planning and control mechanism of the USSR produced striking results in the case of agriculture it often failed to produce satisfactory results The book provides an impartial assessment of the merits and defects of the Soviet planning system which also served as a model for many other Communist countries Western Technology and Soviet Economic Development 1917 to 1930 Antony C. Sutton, 1968 THIS is the first volume time period 1917 1930 of an empirical study of the relationship between Western technology entrepreneurship and the economic growth of the Soviet Union By far

the most significant factor in the development of the Soviet economy has been its absorption of Western technology and skills. The continuing transfer of skills and technology to the Soviet Union through the medium of foreign firms and engineers in the period 1917 to 1930 can only be characterized as extraordinary. Target Figures for the Economic Development of the Soviet Union, 1959-1965 Union of Soviet Socialist Republics (Russia). - Communist Party, 1959 **Research and Development Management: From the Soviet Union to Russia** Christoph M. Schneider, 2013-11-11 In the past intensive interest in Soviet research and development has been sporadic both in the West and in the USSR. The end of the 1980s coincided with the demise of the Soviet model of economic development. As a result a surge of attention has been given to the factors driving the motor of Soviet growth and development as well as R D. The opening first of the Soviet and subsequently of the Russian economy finally exposed it to global standards of scientific standards. The long period of international isolation with respect to technological exchanges made it difficult for scholars and policy makers at home and abroad to measure the status of Soviet advances. Consequently some overrated the levels while others underestimated them. Now it comes to light that although the Soviets put the first satellite in space, Sputnik, and developed their own hydrogen bomb, these were more the exceptions of innovation from research results rather than the rule. Therefore as the management of the entire economy increasingly malfunctioned so did the management of R D in contributing to economic growth and development. There is no denying the incredible investment of the former Soviet state in domestic science and research. The R D community was one of the largest if not the largest in the world during the second half of the twentieth century. Now Russia has inherited not only this enormous resource but also the inadequate organization, management and structure. *Russian Economic Development Since the Revolution* Maurice Dobb, Henry Charles Stevens, 1928 Western Technology and Soviet Economic Development 1945-1968 Antony C. Sutton, 2022-05-10 THIS is the third volume of an empirical study of the relationship between Western technology and entrepreneurship and the economic growth of the Soviet Union. The continuing transfer of skills and technology to the Soviet Union through the medium of foreign firms and engineers in the period 1945 to 1965 can only be characterized as extraordinary. **The Soviet Union Looks Ahead** Soviet Union. Gosudarstvennaya planovaya komissiya, 1929 **Soviet Economic Development Since 1917** Maurice Dobb, 1966 *Monetary Policy in the Soviet Union* Yasushi Nakamura, 2017-08-08 This book sheds light on the Soviet economic system which claimed the eventual abolition of money collapsed following a monetary turmoil. It argues that the cause of the economic collapse was embedded in the design of the economic system. The Soviet economic system restricted the market but continued to use fiat money. Consequently it faced the question for which no feasible answer seemed to exist: how to manage fiat money without data and information generated by the market. Using Soviet data newly available from the archives, the book evaluates the performance of the components of monetary management mechanism, discovers the continuous accumulation of open and secret government debts and quantitatively analyzes the relationship between economic growth and the money supply to

support the argument The book concludes that the Soviet economic collapse marked the end of the long history of Soviet monetary mismanagement

The Development of the Soviet Economy Vladimir G. Treml, Robert Farrell, 1968 Soviet Asia Leslie Dienes, 2019-07-11 This work examines the geographic position of soviet Asia in the overall economy of the USSR and analyzes the impact of major national policy issues on its development and prospects The Asian USSR constitutes three fourths of the country s territory an area exceeding the size of Brazil and Australia combined Its acquisition was the result of Russian expansion and conquest in the past 499 years This vast territory is still hinterland to the European USSR weakly and unevenly integrated into the country s economic and societal mainstream Moreover the Asian USSR is hardly unifonn culturally or otherwise Its regions play very different roles in the Soviet spatial system and are affected by different policy choices on the national level On the one hand there are striking contrasts between Moslem Central Asia and Siberia including the Far East On the other hand the Siberian regions are also assigned different economic and strategic roles according to their resource endovnent their links to the economic power centers in the European USSR partly a function of their east west and north south positions and their strategic vulnerability or importance
