Becoming a Nurse in the 21st Century Ian Peate, 2006-07-11 This is an accessible guide aimed at student nurses

introducing them and guiding them through the Nursing and Midwifery Council's approved programmes of education for Registered Nurse status. Every programme of study that prepares a student to become a proficient registered nurse must be approved by the NMC and adhere to its standards and guidelines. The book is broken in to four sections based on the four proficiencies stated by the NMC: Professional and Ethical Practice, Care Delivery, Care Management, and Personal and Professional Development. It presents these proficiencies in an easy to understand and implement way making it easily accessible for both students and registered nurses who will find it a useful reference for their work and development.

Beyond the Therapeutic Relationship Frederic J. Leger, 2014-07-16

Seeking to transfer knowledge across ideological boundaries within a theoretically valid scientific framework Beyond the Therapeutic Relationship draws upon and relates existing research from psychotherapy and the allied fields of human behavior Author Frederic J Leger has successfully cut across multifarious therapies to create an integrated high order theory that unites psychotherapy's disparate forces In the process he addresses the theoretical underpinnings of the field of psychotherapy the paradigm of the therapeutic relationship and its centrality to therapeutic change the difficulties of creating a scientific discipline from the study of the psyche and the factionalization of psychology into different competing schools By exploring universal variables and how they fit into a causal nexus Beyond the Therapeutic Relationship identifies transtheoretical processes of change that cut across diverse therapies It also offers heuristic research direction and guidance in eclectic and integrative practice as it broadens the perspective on the psychotherapeutic encounter Combining physiological social and psychological research into a transtheoretical psychodynamic theory this important text discusses why the need for paradigmatic direction is urgent bringing nonverbal variables to the therapist's working awareness or focus how a small range of conceptual possibilities limits knowledge of human behavior the lack of efficacy in psychotherapy the psychobiological significance of intensive experiential exploration formation of the self through language and discourse integrative eclecticism within transtheoretical and common factors integration Psychologists psychiatrists mental health therapists and academics and students in psychology psychiatry and educational psychology now have a text that cuts across the multitude of therapeutic approaches to provide a theory that is empirically supported and grounded in the author's 25 years of clinical practice As you will see Beyond the Therapeutic Relationship discusses the current position of the field of psychotherapy where it needs to go specific strategies for getting there as well as alternative interventions beyond empathy and the therapeutic relationship
