Mad Scientist Magic Number Machine Book One

John H Lettau, 2014-02-06 Mad Scientist Magic Number Machine Book One is a collection of puzzles related to creative

thinking pattern searching and problem solving The Mad Scientist created a device that he uses to have students think creatively The activity is a guess my pattern game Math Patterns Thinking and when students utilize their creative thinking skills and at the same time search for patterns they are on their way to doing anything in mathematics Mathematics is all about patterns The Magic Number Machine is very simple in nature a number called  $x$  is inserted in the machine and it goes through a formula process and the outcome is a number called  $y$  The object is to determine what formula the machine uses to arrive at  $y$  Each puzzle starts with three sample equations as follows in  $x$  2 out  $y$  8 in  $x$  5 out  $y$  20 in  $x$  9 out  $y$  36 In this case the machine applied the formula to 2 5 9 and arrived at 8 20 36 The outcomes  $y$  s are greater than the input so addition multiplication or a combination of operations are part of the formula The formula applied is  $x$  times 4  $y$  2 times 4 8 etc Use the diagram on the next page to create a transparency that can be used to present the concept before assigning the various puzzles as classwork and or assignments Students need to be creative using addition subtraction multiplication etc when searching for solutions to each puzzle Have fun and think

**Entertaining Math** Oksana Siniukov, Maryna Kuznetsova, Math Country, 2020-10-23 Using our materials kids learn important skills such as mental counting while solving math problems photographic memory and spatial orientation logical critical and analytical thinking the ability to concentrate and focus attention belief in their own ability to solve a problem leads to greater self esteem and being more focused on the result increased artistic potential and creative thinking improvement of hearing and optical memory This serves as great preparation for the Gifted and Talented tests A feature of our notebooks is the symbiosis of mental arithmetic and classical mathematics This allows the use of both hemispheres of the brain simultaneously This helps in developing memory imagination and visualization and helps kids reach a high understanding of the material In total this exponentially increases the speed at which the learning process happens allowing kids to easily solve problems of different levels of difficulty Mental arithmetic is a UNIQUE method of teaching children that trains the speed of perception and processing of information and allows them to simultaneously develop both hemispheres of the brain at the same time by mentally visualizing the calculations on the abacus A developed brain is a basis for successful future activities With the help of our notebooks Entertaining Math 7 Part 3 your kids will easily learn the technique for fast counting will learn to solve word problems and inequalities and learn to find the length of segments of a line They will also learn fractions powers of numbers learn to add and subtract with regrouping and also do simple math with money Our colorful notebook and the style of having exercises in the form of games lets children learn the material easily and hassle free Children will learn the rules of fast counting on the abacus fast counting mentally and rounding of all natural numbers In addition the workbook contains a lot of funny pictures and interesting tasks that create positive motivation for learning and actively develop the logic memory attention and intelligence of children
