Multilateralism Matters John Gerard Ruggie, 1993 This Book tells an exciting and intriguing story of my training experiences and relationships as a U S Army Ranger in the Vietnam War during 1969 to 1971 while performing recon missions Behind Enemy Lines The story takes you on a journey from the physical war in Vietnam to the spiritual warfare that goes on daily for your soul The spiritual uplifting message within its pages ignites your faith into a blazing fire You come alive To survive in Vietnam and come home alive required elite training strong belief in our training mental and physical repetition of the training and real true relationships If we got distracted failed to pay attention disobeyed ignored or forgot what we were there to do our percentage of surviving was greatly reduce There were many things to distract us Our minds and bodies got hooked up to drugs alcohol sex and the thrill of living on the edge These are but a few of the distractions available to us before we even went on a mission to face what our enemies had for us or the snakes diseases and animals of the jungle This book tells a very interesting and intriguing story of my experiences and relationships performing reconnaissance missions Behind Enemy Lines in the mountainous jungle region of South Vietnam and near the Cambodian border When I arrived in Vietnam the first thing I needed to do was de program myself of most of the training I had received from the Army while being trained in the States prior to arriving in Vietnam For example I had been taught to always ambush from the high ground that high ground determined the actual site selection for an ambush It sounded good and worked in World War II and Korea but this was guerilla warfare My mentor Tad taught us first to monitor a trail by observing how the enemy was traveling on the trail and when we had determined the direction of travel then always set our ambush on the right hand side of the trail according to the enemy s route of March regardless of the height of the terrain The reason is that most people over 90 % are right handed and the enemy s weapons would be pointed away from you as you set off the ambush After a few hours any soldier running missions in the hot jungles of Southeast Asia would have their attention span focus alertness and weapons positions drop off measurably especially while they traveled through what they perceived as their own safe territory When you ambush to the right of the trail five Rangers would fire a full 20 round magazine from an M 16 rifle in 2 3 seconds That s 100 bullets into a kill zone while the enemy freezes up for a second in shock from all the firing Once they realize what is happening they fall to the ground turning their weapons from the left to the right and try to locate where the firing is coming from That just took 2 8 seconds and our hands are on the detonators of five claymore mines Each mine has hundreds of shrapnel like bee bees packed into them and about a pound of C 4 explosive The enemy s rifle hasn t even gotten to their shoulder yet to fire before we detonate the claymore mines if needed and the enemy well that s why it s called an ambush The sixth person a Ranger radio operator was behind us guarding our back with the radio and

already our choppers and support were coming This story takes you from physical warfare to Spiritual warfare in such a way that your faith will be renewed My prayer is that it sheds light on the battle between good God and evil Satan that goes on daily for our souls Sit back and enjoy this short powerful story This books mission is when you reach the end of this book you will have an understanding of why Jesus did what He did and why you need a relationship with Him He loves you and wants to have a relationship with you one that will change you from who you are to a brand new person You are the Soul purpose of this book Author Danny Clifford **The Report: Saudi Arabia 2019** Oliver Cornock, Home to an estimated 15% of the world s proven oil reserves and the single largest economy in MENA Saudi Arabia is a key regional and global player The Vision 2030 blueprint sets out regulatory budget and social reforms that will be implemented over the coming decade as the nation sets about curbing its reliance on crude oil production and export which accounted for 43.5% of GDP in 2018
