L. R. James in Imperial Britain** Christian Høgsbjerg, 2014-03-07 C L R James in Imperial Britain chronicles the life and work of the Trinidadian intellectual and writer C L R James during his first extended stay in Britain from 1932 to 1938 It reveals the radicalizing effect of this critical period on James's intellectual and political trajectory During this time James turned from liberal humanism to revolutionary socialism Rejecting the imperial Britishness he had absorbed growing up in a crown colony in the

British West Indies he became a leading anticolonial activist and Pan Africanist thinker Christian H gsbjerg reconstructs the circumstances and milieus in which James wrote works including his magisterial study *The Black Jacobins* First published in 1938 James s examination of the dynamics of anticolonial revolution in Haiti continues to influence scholarship on Atlantic slavery and abolition H gsbjerg contends that during the Depression C L R James advanced public understanding of the African diaspora and emerged as one of the most significant and creative revolutionary Marxists in Britain **The Collected Writings of Denton J. Snider ...** Denton Jaques Snider,1921 **Du Bois's Dialectics** Reiland Rabaka,2009-01-01 With chapters that undertake ideological critiques of education religion the politics of reparations and the problematics of black radical politics in contemporary culture and society Du Bois s *Dialectics* employs Du Bois as its critical theoretical point of departure and demonstrates his and Africana Studies contributions to as well as contemporary critical theory s connections to critical pedagogy sociology of religion and reparations theory Rabaka offers the first critical theoretical treatment of the W E B Du Bois Booker T Washington debate which lucidly highlights Du Bois s transition from a bourgeois black liberal to a black radical and revolutionary democratic socialist [The Collected Writings of Thomas De Quincey](#) Thomas De Quincey,David Masson,1897 **The Postcolonial Intellectual** Oliver Lovesey,2016-03-03 Addressing a neglected dimension in postcolonial scholarship Oliver Lovesey examines the figure of the postcolonial intellectual as repeatedly evoked by the fabled troika of Said Spivak and Bhabha and by members of the pan African diaspora such as Cabral Fanon and James Lovesey s primary focus is Ng g wa Thiong o one of the greatest writers of post independence Africa Ng g continues to be a vibrant cultural agitator and innovator who in contrast to many other public intellectuals has participated directly in grassroots cultural renewal enduring imprisonment and exile as a consequence of his engagement in political action Lovesey s comprehensive study concentrates on Ng g s non fictional prose writings including his largely overlooked early journalism and his most recent autobiographical and theoretical work He offers a postcolonial critique that acknowledges Ng g s complex position as a virtual spokesperson for the oppressed and global conscience who now speaks from a location of privilege Ng g s writings Lovesey shows display a seemingly paradoxical consistency in their concerns over nearly five decades at the same time that there have been enormous transformations in his ideology and a shift in his focus from Africa s holocaust to Africa s renaissance Lovesey argues that Ng g s view of the intellectual has shifted from an alienated nearly neocolonial stance to a position that allows him to celebrate intellectual activism and a return to the model of the oral vernacular intellectual even as he challenges other global intellectuals Tracing the development of this notion of the postcolonial intellectual Lovesey argues for Ng g s rightful position as a major postcolonial theorist who helped establish postcolonial studies *C. L. R. James and Creolization* Nicole King,2011-01-03 C L R James 1901 1989 one of the most important intellectuals of the twentieth century expressed his postcolonial and socialist philosophies in fiction speeches essays and book length scholarly discourses However the majority of academic attention given to James keeps the diverse

mediums of James's writing separate focuses on his work as a political theorist and subordinates his role as a fiction writer. This book however seeks to change such an approach to studying James. Defining creolization as a process by which European, African, Amerindian, Asian, and American cultures are amalgamated to form new hybrid identities and cultures, Nicole King uses this process as a means to understanding James's work and life. She argues that throughout his career, whether writing a short story or a political history, James articulated his attempt to produce revolutionary radical discourses with a consistent methodology. James, a Trinidad-born scholar who migrated to England and then to the United States and who described himself both as a black radical and a Victorian intellectual, serves as a definitive model of creolization. King argues that James's writings also fit the model of creolization for each is influenced by diverse types of discourses. James rarely wrote from within the confines of a single discipline; instead, choosing to make the layers of history, literature, philosophy, and political theory coalesce in order to make his point. As his West Indian and Western European influences converge in his work and life, he creates texts that are difficult to confine to a specific category or discipline. No matter which writerly medium he uses, James was preoccupied with how to represent the individual personality and at the same time represent the community. The C. L. R. James that emerges from King's study is a man made more compelling and more human because of his complicated, multilayered, and sometimes contradictory allegiances.

**W. E. B. Du Bois and the Problems of the Twenty-First Century** Reiland Rabaka, 2008-04-29. W. E. B. Du Bois and the Problems of the Twenty-First Century utilizes Du Bois's thought and texts to develop an informed critical theory of contemporary society. This book broadens the base of critical theory, making it more multicultural, transethnic, transgender, and non-Western European philosophy, focused by placing it in dialogue with theory and phenomena that had been heretofore woefully neglected. Taking the preeminent black intellectual of the twentieth century as his primary point of departure, Reiland Rabaka identifies and analyzes several key contributions that Du Bois and the black racial tradition offer to those interested in redeveloping and racially revising contemporary critical social theory. With chapters on critical race theory, postcolonial theory, feminism, and Marxism, this volume builds bridges from Africana Studies to disparate discursive communities, accessibly demonstrating Du Bois's and the black radical tradition's contributions to and the potential impact on a wide range of new social scientific research and radical political struggles.

*The Oxford Encyclopedia of African Thought* Abiola Irele, 2010. From St. Augustine and early Ethiopian philosophers to the anti-colonialist movements of Pan-Africanism and Negritude, this encyclopedia offers a comprehensive view of African thought, covering the intellectual tradition both on the continent in its entirety and throughout the African Diaspora in the Americas and in Europe. The term African thought has been interpreted in the broadest sense to embrace all those forms of discourse, philosophy, political thought, religion, literature, important social movements that contribute to the formulation of a distinctive vision of the world determined by or derived from the African experience. The Encyclopedia is a large-scale work of 350 entries covering major topics involved in the development of African Thought.

including historical figures and important social movements producing a collection that is an essential resource for teaching an invaluable companion to independent research and a solid guide for further study

**Selected Writings** George Herbert Mead, 1964

**The Negritude Movement** Reiland Rabaka, 2015-05-20 The Negritude Movement provides readers with not only an intellectual history of the Negritude Movement but also its prehistory W E B Du Bois the New Negro Movement and the Harlem Renaissance and its posthistory Frantz Fanon and the evolution of Fanonism By viewing Negritude as an insurgent idea to invoke this book's intentionally incendiary subtitle as opposed to merely a form of poetics and aesthetics The Negritude Movement explores Negritude as a traveling theory la Edward Said's concept that consistently crisscrossed the Atlantic Ocean in the twentieth century from Harlem to Haiti Haiti to Paris Paris to Martinique Martinique to Senegal and on and on ad infinitum The Negritude Movement maps the movements of proto Negritude concepts from Du Bois's discourse in *The Souls of Black Folk* through to post Negritude concepts in Fanon's *Black Skin White Masks* and *The Wretched of the Earth* Utilizing Negritude as a conceptual framework to on the one hand explore the Africana intellectual tradition in the twentieth century and on the other hand demonstrate discursive continuity between Du Bois and Fanon as well as the Harlem Renaissance and Negritude Movement The Negritude Movement ultimately accents what Negritude contributed to arguably its greatest intellectual heir Frantz Fanon and the development of his distinct critical theory Fanonism Rabaka argues that if Fanon and Fanonism remain relevant in the twenty first century then to a certain extent Negritude remains relevant in the twenty first century
