Media Spectacle and the Crisis of Democracy Douglas Kellner,2015-12-03 Douglas Kellner s *Media Spectacle and the Crisis of Democracy* 9 11 the War on Iraq and Election 2004 investigates the role of the media in the momentous political events of the past four years Beginning with the role of the media in contested election of 2000 Kellner examines how corporate media ownership and concentration linked with a rightward shift of establishment media have disadvantaged the Democrats and benefited George W Bush and the Republicans Exploring the role of media spectacle in the 9 11 attacks and subsequent Terror War in Afghanistan and Iraq Kellner documents the centrality of media politics in advancing foreign policy agendas and militarism Building on his analysis in *Media Spectacle* Routledge 2003 Kellner demonstrates in detail how conflicting political forces ranging from Al Qaeda to the Bush administration construct media spectacles to advance their politics Two chapters critically engage the role of the media in the buildup to the Iraq war and the media centric nature of

Bush's Iraq invasion and occupation Final chapters delineate the role of the media in the highly contested and significant 2004 election campaign that many believe to be one of the key political struggles of the contemporary era Criticizing Bush's unilateralism Kellner argues for a multilateral and cosmopolitan globalization and the need for democratic media to help overcome the current crisis of democracy in the United States The Vast Left Wing Conspiracy Byron York, 2006 Provides a provocative look at how liberal media money and minds have united to take control of American politics working together on an unprecedented scale under the leadership of Hillary Clinton Michael Moore George Soros and others to transform American culture Reprint 25 000 first printing Devastating Society Bernd Hamm, 2005-02-20 United in their opposition to the neo conservatism underpinning America's current political strategies the contributors offer a grounded critique of the real impact that these policies make at home and abroad Starting with a close analysis of the Bush administration and the neo conservative hold on power in Washington they move on to a broader historical analysis They set today's topical issues in the context of what they see as a gradual shift towards the right in American politics and the creeping corporatisation of American society The contributors show that September 11 was used by the Bush administration to clamp down on civil liberties at home and to step up an aggressive line in foreign policy The impact on American society and societies elsewhere has been deeply damaging Ranging over this and other topics including the US economy corporate crime and anti environmentalism this book is ideal for anyone who wants a critical introduction to current affairs issues set within the broader context of America's history of foreign interventions and global capitalism **Reality, Truth and Evil** Thomas Meyer, 2005 Using the events of 9 11 and Pearl Harbor as his backdrop Meyer studies the issues of reality truth and evil Offering important new perspectives he shows that U S political practice under the influence of secret societies such as Skull and Bones is based on an ideology of polarity and conflict Meyer offers instances of this tendency encouraging what Huntington famously referred to as a clash of civilizations For example a week before George Bush Sr spoke in Congress about the need for a new world order a humorous cartoon map in the Economist divided the world's continents into religious and philosophical blocks creating a new region called Islamistan In 1997 National Security Advisor Zbigniew Brzezinski wrote openly of U S geo strategic plans stating that it would be hard to achieve such goals except in the circumstances of a truly massive and widely perceived direct external threat It seems that this was granted with the events of September 11 2001 and the consequent launch of the war on terror The immediate comparisons led by George W Bush with Pearl Harbor demand a reassessment of the events of 1941 Meyer points to conclusive evidence suggesting that Roosevelt deliberately provoked the attacks and failed to pass on intelligence to US Navy chiefs Could it be possible that certain members of the U S elite likewise deliberately remained passive before 9 11 Why only two weeks after the attacks were celebrations held at CIA headquarters in which Bush profusely thanked the secret services on behalf of the American people In contrast to the divisive thinking and conflict management of leading representatives of the Anglo American elite inspired by a contorted reading of

some basic insights of the philosopher Hegel the author shows how the holistic approach of Rudolf Steiner and Mabel Collins offers a radical alternative for dealing with polarities and overcoming conflict **Caesar Ate My Jesus** Meg

Gorzycki,2017-06-09 What the hell happened on the way to making the world a better place We boomers were told our success would be unlimited We had democracy and capitalism and God was on our side We took our religious teachings seriously and set out to end bigotry violence and destitution Inevitably we collided with American Caesars whose power and wealth was sufficient to dominate national and international affairs Political and religious Caesars appropriated Jesus and used him to justify war sexism racism dictatorships and poverty What were the faithful to do Lots of boomers I know tossed the spiritual baby out with the religious institution s bathwater and became cynical about civic engagement It is not time to abandon hope in our goodness however and it is not time to surrender our conscience to Caesar Our experiences as boomers teach us that it is possible to bring the love of God to bear in our lives despite Caesar s constant pressure to cherish power wealth celebrity and things more than we cherish people This book is for folks who are ready to get off Caesar s treadmill and dig deeply into their hearts and minds to see what remains of the Kingdom of God within The Fourth Branch Michael

L. Rees,2008 I have come to the conclusion that our national government has gotten itself infested with an unknown but large number of people who do not have the best interests of the people the country or the planet as a whole at heart Instead they are some combination of totally unproductive or wasteful in the extreme or corrupt or criminal which includes those who have no concept of right or wrong and those who appear to be pursuing goals harmful to the country and to the individual citizen Unfortunately it seems likely that more than a few such people have inserted themselves into positions of power Worse they have assisted others of their kind into supporting positions of power so that it seems very hard to root them out It s a simple book one that I hope doesn t take you too long to read YouOve read enough already to form some idea of whether you might agree with this conclusion If not skip it Do something that seems more interesting to you But if you think there might be something to this read on I will briefly discuss some events and portions of the US government that I think illustrate the likelihood of what I described in paragraphs one and two above being true Chapter Two outlines a proposed solution for this dilemma facing all of us How can we keep our government efficient inexpensive and honest Can anything be done about it I take the position that the answer to that question is yes **Matrix for Assassination** Richard Gilbride,2009 A phantom
