**Born in Exile** George Gissing, 2023-09-06 Reproduction of the original The publishing house Megali specialises in reproducing historical works in large print to make reading easier for people with impaired vision **George Gissing** Martin Ryle, 2017-11-28 Once seen as a relatively marginal figure George Gissing 1857 1903 persists in sparking interest among new generations of radical critics who continue to be inspired by his work and to develop fresh approaches to it This essay collection bringing together British European and North American literary critics and cultural historians with diverse specialities and interests demonstrates the range of contemporary perspectives through which his fiction can be viewed Offering both closely contextualized historical readings and broader cultural and philosophical assessments the contributions will engage not only the specialist but those interested in the diverse themes that absorbed Gissing the cultural and social formation of class and gender social mobility and its unsettling effects on individual and collective identities the place of writing in emerging mass culture and the possibilities and limits of fiction as critical intervention The Paradox of Gissing David Grylls, 2016-07-22 First published 1986 In this book the author refutes the notion that Gissing's weaknesses as a novelist are associated with defects in his personality and argues that the power of his writing stemmed from his divided character Gissing's permanently divided emotions on poverty reformism women and art were at his best the reason he could write so convincingly about them This analysis of Gissing's imagination and the fictional development in his major works shows that the effectiveness of his novels depends largely on these dichotomies and opposites This work covers the whole range of Gissing's writing and relates it to its social and intellectual milieu **George Gissing, Classicist** Samuel Vogt Gapp, 2017-01-30 Gissing's combination of the love of classical literature with this vivid sense of modern realism showing how his classical background was built up by reading and his travels in Italy with references of classical allusions in his works
