Gillies,1994-05-12 In this engaging book John Gillies explores Shakespeare's geographic imagination and discovers an intimate relationship between Renaissance geography and theatre arising from their shared dependence on the opposing impulses of taboo laden closure and hubristic expansiveness Dr Gillies shows that Shakespeare's images of the exotic the barbarous outlandish or strange are grounded in concrete historical fact to be marginalised was not just a matter of social status but of belonging quite literally to the margins of contemporary maps Through an examination of the icons and

emblems of contemporary cartography Dr Gillies challenges the map makers overt intentions and the attitudes and assumptions that remained below the level of consciousness His study of map and metaphor raises profound questions about the nature of a map and of the connections between the semiology of a map and that of the theatre     **The Seventeenth-Century Orange-Nassau Library** A.D.
