## **German Architecture 1960 1970:**

*German Architecture, 1960-1970* Wolfgang Pehnt, 1970-01-01      **Encyclopedia of Contemporary German Culture** John Sandford, 2013-04-03 Pre and post unification culture Includes Austria and Switzerland Annotated suggestions for further reading English and German language works      Architecture, Politics, and Identity in Divided Berlin Emily Pugh, 2014-03-21 On August 13 1961 under the cover of darkness East German authorities sealed the border between East and West Berlin using a hastily constructed barbed wire fence Over the next twenty eight years of the Cold War the Berlin Wall grew to become an ever present physical and psychological divider in this capital city and a powerful symbol of Cold War tensions Similarly stark polarities arose in nearly every aspect of public and private life including the built environment In *Architecture Politics and Identity in Divided Berlin* Emily Pugh provides an original comparative analysis of selected works of architecture and urban planning in both halves of Berlin during the Wall era revealing the importance of these structures to the formation of political cultural and social identities Pugh uncovers the roles played by organizations such as the Foundation for Prussian Cultural Heritage and the Building Academy in conveying the political narrative of their respective states through constructed spaces She also provides an overview of earlier notable architectural works to show the precursors for design aesthetics in Berlin at large and considers projects in the post Wall period to demonstrate the ongoing effects of the Cold War Overall Pugh offers a compelling case study of a divided city poised between powerful contending political and ideological forces and she highlights the effort expended by each side to influence public opinion in Europe and around the World through the manipulation of the built environment      **The Oxford Dictionary of Architecture** James Stevens Curl, Susan Wilson, 2015 With over 6 000 entries this is the most authoritative dictionary of architectural history available      History of Architectural Theory Hanno-Walter Kruft, 1994 As the first comprehensive encyclopedic survey of Western architectural theory from Vitruvius to the present this book is an essential resource for architects students teachers historians and theorists Using only original sources Kruft has undertaken the monumental task of researching organizing and analyzing the significant statements put forth by architectural theorists over the last two thousand years The result is a text that is authoritative and complete easy to read without being reductive      *Setting the Scene* Alistair Fair, 2016-03-03 During the twentieth century an increasingly diverse range of buildings and spaces was used for theatre Theatre architecture was reformed by new approaches to staging and performance while theatre was often thought to have a reforming role in society Innovation was accompanied by the revival and reinterpretation of older ideas The contributors to this volume explore these ideas in a variety of contexts from detailed discussions of key architects work including Denys Lasdun Peter Moro Cedric Price and Heinrich Tessenow to broader surveys of theatre in West Germany and Japan Other contributions examine the Malm Stadsteater ideal theatres in post war North America found space in 1960s New York and Postmodernity in 1980s East Germany Together these essays shed new light on this complex building type and also contribute to the wider architectural

history of the twentieth century      **Germany and the United States, a "special Relationship?"** Hans Wilhelm Gatzke, 1980 A discerning statement about Germany and other nations this book reevaluates for the general reader and the historian the impact of rapid industrialization the origins of the world wars the question of war guilt the decade of Weimar democracy and the rise and fall of Hitler Gatzke looks anew at the economic miracle in West Germany and the consequences of making prosperity the cornerstone of a new republic      **Modern Architecture Through Case Studies 1945 to 1990** Peter Blundell Jones, Eamonn Canniffe, 2012-08-21 Once again new interpretations are presented of some of the most famous architecture of the period Work by lesser known architects whose influence and role have been overlooked by conventional histories of the subject is discussed The case study structure allows each example to be discussed and used as a springboard to explore different theoretical approaches Filled with beautiful photographs plans and architect s drawings this is a clear and accessible discussion on a period of architecture that engages many questions still under debate in architecture today

**Housing and Planning References** , 1969      **Catalog of the Library of the Museum of Modern Art: A Museum of Modern Art** (New York, N.Y.). Library, 1976      **Pop Culture Germany!** Catherine C. Fraser, Dierk O. Hoffman, 2006-09-25 From the reality TV show Superstar to Formula One ace Michael Schumacher Pop Culture Germany explores the exciting world of contemporary German popular culture Like no other volume of its kind Pop Culture Germany captures the breadth and vitality of popular culture in modern Germany exploring both familiar and lesser known aspects of German art entertainment television music and film Written by expert contributors who are rooted in German language and culture the book focuses on German popular culture since 1945 providing an indispensable guide for anyone planning a trip to Germany for business or pleasure or for those who wish to have a deeper understanding of the German nation This book offers a concise in depth overview of the evolution and impact of German media arts lifestyles and recreation written with a historical perspective      **Utopia(s) - Worlds and Frontiers of the Imaginary** Maria do Rosário Monteiro, Mário S. Ming Kong, Maria João Pereira Neto, 2016-11-03 The idea of Utopia springs from a natural desire of transformation of evolution pertaining to humankind and therefore one can find expressions of utopian desire in every civilization Having to do explicitly with human condition Utopia accompanies closely cultural evolution almost as a symbiotic organism Maintaining its roots deeply attached to ancient myths utopian expression followed and sometimes preceded cultural transformation Through the next almost five hundred pages virtually one for each year since Utopia was published researchers in the fields of Architecture and Urbanism Arts and Humanities present the results of their studies within the different areas of expertise under the umbrella of Utopia Past present and future come together in one book They do not offer their readers any golden key Many questions will remain unanswered as they should The texts presented in Proportion Harmonies and Identities UTOPIA S WORLDS AND FRONTIERS OF THE IMAGINARY were compiled with the intent to establish a platform for the presentation interaction and dissemination of researches It aims also to foster the awareness and discussion on the topics of Harmony and Proportion with

a focus on different utopian visions and readings relevant to the arts sciences and humanities and their importance and benefits for the community at large      AIA Journal American Institute of Architects,1971      **A History of Western Architecture** David Watkin,2005 The history of Western architecture from the earliest times in Mesopotamia and Egypt to the dramatic impact of CAD on architectural practice at the beginning of the 21st century      The Architecture of Evolution Marco Tamborini,2022-12-20 In the final decades of the twentieth century the advent of evolutionary developmental biology evo devo offered a revolutionary new perspective that transformed the classical neo Darwinian gene centered study of evolution In The Architecture of Evolution Marco Tamborini demonstrates how this radical innovation was made possible by the largely forgotten study of morphology Despite the key role morphology played in the development of evolutionary biology since the 1940s the architecture of organisms was excluded from the Modern Evolutionary Synthesis And yet from the beginning of the twentieth century to the 1970s and 80s morphologists sought to understand how organisms were built and how organismal forms could be generated and controlled The generation of organic form was they believed essential to understanding the mechanisms of evolution Tamborini explores how the development of evo devo and the recent organismal turn in biology involved not only the work of morphologists but those outside the biological community with whom they exchanged their data knowledge and practices Together with architects and engineers they worked to establish a mathematical and theoretical basis for the study of organic form as a mode of construction developing and reinterpreting important notions that would play a central role in the development of evolutionary developmental biology in the late 1980s This book sheds light not only on the interdisciplinary basis for many of the key concepts in current developmental biology but also on contributions to the study of organic form outside the English speaking world      *World Architecture and Society* Peter Louis Bonfitto,2021-12-06 This two volume encyclopedia covers buildings and sites of global significance from prehistoric times to the present day providing students with an essential understanding of architectural development and its impact on human societies This two volume encyclopedia provides an in depth look at buildings and sites of global significance throughout history The volumes are separated into four regional sections 1 the Americas 2 Europe 3 Africa and the Middle East and 4 Asia and the Pacific Four regional essays investigate the broader stylistic and historical contexts that describe the development of architecture through time and across the globe Entries explore the unique importance of buildings and sites including the megalithic wonder of Stonehenge and the imposing complex of Angkor Wat Entries on Spanish colonial missions in the Americas and the medieval Islamic universities of the Sahara connect to broader building traditions Other entries highlight remarkable stories of architectural achievement and memory like those of Tuskegee University a site hand built by former slaves or the Hiroshima Peace Memorial Park which was built at the site of the atomic detonation Each entry focuses on the architectural but includes strong consideration of the social impact importance and significance each structure has had in the past and in the present      **The Bulletin** Germany (West). Presse- und

Informationsamt,1971      Modern Architecture Alan Colquhoun,2002 In this study of the international modern movement in architecture Alan Colquhoun explores the complex motivations behind its revolutionary new style and assesses its triumphs and failures      **A Dictionary of Architecture and Landscape Architecture** ,      **Catalogue** Harvard University.
