**The German Hansa** Philippe Dollinger, 1999 First published in 1999 Routledge is an imprint of Taylor Francis an informa company Medieval Maritime Warfare Charles D. Stanton, 2015-06-30 This sweeping history of maritime warfare through the Middle Ages ranges from the 8th century to the 14th covering the Mediterranean and Northern Europe After the fall of Rome the sea becomes the center of conflict for Western Civilization In a world of few roads and great disorder it is where power is projected and wealth is sought Yet since this turbulent period in the history of maritime warfare has rarely been studied it is little known and even less understood In Medieval Maritime Warfare Charles Stanton depicts the development of maritime warfare from the end of the Roman Empire to the dawn of the Renaissance recounting the wars waged in the Mediterranean by the Byzantines Ottomans Normans Crusaders and the Italian maritime republics as well as those fought in northern waters by the Vikings English French and the Hanseatic League Weaving together details of medieval ship design and naval strategy with vivid depictions of seafaring culture this pioneering study makes a significant contribution to maritime history The Shaping of German Identity Len Scales, 2012-04-26 German identity a key force in history took shape during the late Middle Ages This book explains how and why **Merchant Colonies in the Early**

**Modern Period** Victor N Zakharov, Gelina Harlaftis, Olga Katsiardi-Hering, 2015-10-06 Merchant colonies were a significant factor for economic growth in Europe during the early modern period The essays in this collection look at merchant colonies across Europe assessing their function legal status interaction with local traders and assimilation into their host countries

**The German Hansa and Bergen 1100-1600** Arnvéd Nedkvitne, 2014 In the 13th and 14th centuries German Hansa merchants dominated North European maritime trade They created trade settlements abroad and new towns in the Baltic The Kontor in Bergen was the largest of these settlements and had ca 1000 residents in winter increasing to 2000 in summer Its counterpart was a Norwegian state whose authority declined after 1319 The resulting military administrative and judicial relations are unique in Northern Europe The great expansion in the Bergen stockfish trade took place 1250 1320 and declined after the Black Death Norwegian merchants and state officials found the Kontor presence problematic but stockfish producing households between Bergen and the Barents Sea saw the trade as a source of economic welfare and better food security **The Sovereign State and Its Competitors** Hendrik Spruyt, 2020-05-05 The present international system

composed for the most part of sovereign territorial states is often viewed as the inevitable outcome of historical development Hendrik Spruyt argues that there was nothing inevitable about the rise of the state system however Examining the competing institutions that arose during the decline of feudalism among them urban leagues independent communes city states and sovereign monarchies Spruyt disposes of the familiar claim that the superior size and war making ability of the sovereign nation state made it the natural successor to the feudal system The author argues that feudalism did not give way to any single successor institution in simple linear fashion Instead individuals created a variety of institutional forms such as the

sovereign territorial state in France the Hanseatic League and the Italian city states in reaction to a dramatic change in the medieval economic environment Only in a subsequent selective phase of institutional evolution did sovereign territorial authority prove to have significant institutional advantages over its rivals Sovereign authority proved to be more successful in organizing domestic society and structuring external affairs Spruyt's interdisciplinary approach not only has important implications for change in the state system in our time but also presents a novel analysis of the general dynamics of institutional change

From the beginning of history to the present a sweep of the world's oceans and seas and how they have shaped the course of civilization From the author of the acclaimed *The Great Sea* Magnificent radiates scholarship and a sense of wonder and fun Simon Sebag Montefiore Book of the Year *The Economist* David Abulafia's new book guides readers along the world's greatest bodies of water to reveal their primary role in human history The main protagonists are the three major oceans the Atlantic the Pacific and the Indian which together comprise the majority of the earth's water and cover over half of its surface Over time as passage through them gradually extended and expanded linking first islands and then continents maritime networks developed evolving from local exploration to lines of regional communication and commerce and eventually to major arteries These waterways carried goods plants livestock and of course people free and enslaved across vast expanses transforming and ultimately linking irrevocably the economies and cultures of Africa Europe Asia and the Americas Far more than merely another history of exploration *The Boundless Sea* shows how maritime networks gradually

formed a continuum of interaction and interconnection Working chronologically Abulafia moves from the earliest forays of peoples taking hand hewn canoes into uncharted waters to the routes taken daily by supertankers in the thousands History on the grandest scale and scope written with passion and precision this is a project few could have undertaken Abulafia whom The Atlantic calls superb writer with a gift for lucid compression and an eye for the telling detail proves again why he ranks as one of the world s greatest storytellers *Germany's Northern Challenge* Jason Lavery,2021-10-25 Shortly after the Augsburg peace settlement of 1555 from 1563 to 1576 the Holy Roman Empire was threatened by the rivalry between Denmark and Sweden This book examines the empire s reaction to a foreign crisis the Seven Years War of the North and the connections between foreign policy and internal imperial politics As this study will show and contrary to most assumptions the empire through its confederal structure was able to provide effective means for defending the domestic order against external dangers Further the empire could conduct a common foreign policy to protect common interests This study highlights the empire s internal organization and politics by introducing two new concepts initiative and consensus Initiative was possible on the basis of consensus but as this study reveals there were two specific limits on building consensus First the empire s polities could only support a common approach if they had common aims Second a united approach to an outside crisis had to foster the preservation of internal stability Motivated by German commerce in the Baltic the empire was persistent in trying to achieve peace in that region The empire was not alone in its interest in the Scandinavian conflict which threatened no less than the economic well being of western Europe **Hanseatic League: Oxford Bibliographies Online Research Guide** Oxford University Press,2010-06-01 This ebook is a selective guide designed to help scholars and students of Islamic studies find reliable sources of information by directing them to the best available scholarly materials in whatever form or format they appear from books chapters and journal articles to online archives electronic data sets and blogs Written by a leading international authority on the subject the ebook provides bibliographic information supported by direct recommendations about which sources to consult and editorial commentary to make it clear how the cited sources are interrelated related This ebook is a static version of an article from Oxford Bibliographies Online Renaissance and Reformation a dynamic continuously updated online resource designed to provide authoritative guidance through scholarship and other materials relevant to the study of European history and culture between the 14th and 17th centuries Oxford Bibliographies Online covers most subject disciplines within the social science and humanities for more information visit [www.oxfordbibliographies.com](http://www.oxfordbibliographies.com) **History of the German People at the Close of the Middle Ages** Johannes Janssen,1896 *History of the German People at the Close of the Middle Ages: Political economy continued.
