German Multiculturalism Immigrant Integration And The Transformation Of Citizenship:

German Multiculturalism Brett Klopp, 2002-10-30 Migration asylum and citizenship have become unavoidable topics in contemporary European politics. Klopp examines the issues of immigration, integration, and multiculturalism in Germany, Europe's premier immigration country, through the perspectives of both immigrants and local institutions: unions, employers, schools, neighborhoods, and city government. Klopp addresses the potential for immigration patterns and increasing heterogeneity to produce the conditions for social transformation and specifically shows how these factors are challenging and gradually transforming the boundaries of citizenship and the nation in Germany. Theoretically, he argues against recent models of postnational and transnational membership that claim that the nation-state model of citizenship has been superseded by a new type of membership, one that guarantees individual rights via international human rights norms. Given the claims of these models, we should expect that long-term resident aliens will be satisfied with the partial citizenship rights (civil and social) extended to them by liberal European welfare states and that they will not identify with or seek political rights from their state of residence. On the contrary, Klopp suggests that national state citizenship remains the essential form of formal social and political inclusion for the majority of immigrants. In the past, Germany has represented an extreme case of ethnocultural exclusion, and it is therefore something of a natural laboratory in which to examine the reciprocal measures and mechanisms of political and social change currently underway in Europe. Lessons learned from qualitative empirical examination of immigration and integration processes in Germany could prove instructive when compared to similar processes of transformation underway in the other traditional nation states of Western Europe and in the efforts to define a common European identity. Provocative reading for scholars, students, and other researchers as well as policy makers involved with migration issues, comparative politics, and citizenship and contemporary German studies.

The Changing Faces of Citizenship Joyce Marie Mushaben, 2008 In contrast to most migration studies that focus on specific foreigner groups in Germany, this study simultaneously compares and contrasts the legal, political, social, and economic opportunity structures facing diverse categories of the ethnic minorities who have settled in the country since the 1950s. It reveals the contradictory and usually self-defeating nature of German policies intended to keep migrants out, allegedly in order to preserve a German *Leitkultur* with which very few of its own citizens still identify. The main barriers to effective integration and socioeconomic revitalization in general sooner lie in the country's obsolete labor market regulations and bureaucratic procedures. Drawing on local case studies, personal interviews, and national surveys, the author describes the human faces behind official citizenship and integration practices in Germany and, in doing so, demonstrates that average citizens are much more multicultural than they realize.

The Politics of Immigration. Is Germany Moving Towards a Multicultural Society? Samuel Skipper, 2017 The topic of immigration is never simple. Questions such as who belongs to society and how do you define national identity or what values are needed to maintain a coexisting society are extremely difficult to answer. Global

migration introduces unprecedented challenges for conceptualising the integration of immigrants On a European scale Germany can be said to represent the first destination for immigrants since its unification in 1989 On a global level Germany is the second largest immigrant receiving country after the United States Nevertheless only recently has Germany recognised and admitted that it is an ethnically and culturally diverse society Before the 1998 elections successive governments have always stuck to the maxim that Germany is not a country of immigration The infamous phrase came under increased pressure with the electoral victory of the Red Green coalition in 1998 New laws regarding immigration integration and citizenship were on the agenda with the aim of replacing the traditional ethnocultural model of German nationhood with a more liberal and modern model by moving away from the concepts of Volk and ius sanguinis The conservative CDU however accused the Schroder government of trying to jeopardize German cultural identity causing a fierce debate known as the Leitkultur Guiding culture debate On the one side of this debate there were the conservative CDU politicians who viewed Germany in ethno nationalist terms while on the other members of the Green Party and the SPD who attempted substituting the volkish tradition with a multicultural model of citizenship that guaranteed universal human rights The aim of this study is to assess which of these two models are currently prevailing in moulding immigration and integration policy Has the progressive left achieved its objective of moving away from the traditional ethnocultural and assimilationist model defining citizenship towards a more inclusive multicultural model

The Crisis of Multiculturalism in Europe Rita Chin, 2019-06-11 From the influx of immigrants in the 1950s to contemporary worries about refugees and terrorism The Crisis of Multiculturalism in Europe examines the historical development of multiculturalism on the Continent Rita Chin argues that there were few efforts to institute state sponsored policies of multiculturalism and those that emerged were pronounced failures virtually from their inception She shows that today's crisis of support for cultural pluralism isn't new but actually has its roots in the 1980s Chin looks at the touchstones of European multiculturalism from the urgent need for laborers after World War II to the public furor over the publication of The Satanic Verses and the question of French girls wearing headscarves to school While many Muslim immigrants had lived in Europe for decades in the 1980s they came to be defined by their religion and the public's preoccupation with gender relations Acceptance of sexual equality became the critical gauge of Muslims' compatibility with Western values The

convergence of left and right around the defense of such personal freedoms against a putatively illiberal Islam has threatened to undermine commitment to pluralism as a core ideal Chin contends that renouncing the principles of diversity brings social costs particularly for the left and she considers how Europe might construct an effective political engagement with its varied population Publisher web site

The Guest Worker Question in Postwar Germany Rita Chin, 2007-03-05 This book provides the first English language history of the postwar labor migration to West Germany Drawing on government bulletins statements by political leaders parliamentary arguments industry newsletters social welfare studies press coverage and the cultural production of immigrant artists and intellectuals Rita Chin offers an account of West German public debate about guest workers She traces the historical and ideological shifts around the meanings of the labor migration moving from the concept of guest workers as a temporary labor supplement in the 1950s and 1960s to early ideas about multiculturalism by the end of the 1980s She argues that the efforts to come to terms with the permanent residence of guest workers especially Muslim Turks forced a major rethinking of German identity culture and nation What began as a policy initiative to fuel the economic miracle ultimately became a much broader discussion about the parameters of a specifically German brand of multiculturalism

Anthropology of Migration and Multiculturalism Steven Vertovec, 2013-09-13 The field of anthropology of migration and multiculturalism is booming Throughout its hundred odd year history studies of migration and diverse or plural societies have arguably been both marginal and central to the discipline of Anthropology However recent years have witnessed the rapid growth of anthropological studies concerning these topics This has particularly been the case since the 1970s when anthropologists developed a keen interest in the

subject of ethnicity especially in post migration communities Since the 1990s migrant transnationalism has become one of the most fashionable topics There is still much to do in research and theory surrounding this field not least with regard to contemporary public debates around multiculturalism immigration and integration policy This book presents essays pointing toward a number of possible new directions both theoretical and methodological for anthropological inquiry into migration and multiculturalism including innovative ways of examining diversity discourses urban conditions social complexities scales of analysis transnational marriages entangled politics and interwoven cultures This book was published as a special issue of the *Ethnic and Racial Studies* *Foreigners, minorities and integration* Sarah Hackett, 2015-11-01 This book explores the arrival and development of Muslim immigrant communities in Britain and Germany during the post 1945 period through the case studies of Newcastle upon Tyne and Bremen It traces Newcastle's South Asian Muslims and Bremen's Turkish Muslims from their initial settlement through to the end of the twentieth century and investigates their behaviour and performance in the areas of employment housing and education At a time at which Islam is sometimes seen as a barrier to integration and harmony in Europe this study demonstrates that this need not be the case In what is the first comparison of Muslim ethnic minorities in Britain and Germany at a local level this book reveals that instances of integration have been frequent It is essential reading for both academics and students with an interest in migration studies modern Britain and Germany and the place of Islam in contemporary Europe **One Word Shapes a Nation: Integration Politics in Germany** Johanna Schuster-Craig, **Turkish Germans in the Federal Republic of Germany** Sarah Thomsen Vierra, 2018-10-25 As the largest national group of guest workers in Germany the Turks became a visible presence in local neighbourhoods and schools and had diverse social cultural and religious needs Focussing on West Berlin Sarah Thomsen Vierra explores the history of Turkish immigrants and their children from the early days of their participation in the post war guest worker program to the formation of multi generational communities Both German and Turkish sources help to uncover how the first and second generations created spaces of belonging for themselves within and alongside West German society while also highlighting the factors that influenced that process from individual agency and community dynamics to larger institutional factors such as educational policy and city renovation projects By examining the significance of daily interactions at the workplace in the home in the neighbourhood and in places of worship we see that spatial belonging was profoundly linked to local level daily life and experiences Ethnic Citizenship Regimes A. Maatsch, 2011-04-12 This book sheds light on the processes that have transformed national citizenship of the European Union's member states and explains the legislative changes that have taken place since the mid 1980s in Germany Hungary and Poland **Immigration and Citizenship in Japan** Erin Aeran Chung, 2010-03-31 Japan is currently the only advanced industrial democracy with a fourth generation immigrant problem As other industrialized countries face the challenges of incorporating post war immigrants Japan continues to struggle with the incorporation of pre war immigrants and their descendants Whereas others have focused on international norms domestic

institutions and recent immigration this book argues that contemporary immigration and citizenship politics in Japan reflect the strategic interaction between state efforts to control immigration and grassroots movements by multi generational Korean resident activists to gain rights and recognition specifically as permanently settled foreign residents of Japan Based on in depth interviews and fieldwork conducted in Tokyo Kawasaki and Osaka this book aims to further our understanding of democratic inclusion in Japan by analyzing how those who are formally excluded from the political process voice their interests and what factors contribute to the effective representation of those interests in public debate and policy

Managing Ethnic Diversity after 9/11 Ariane Chebel d'Appollonia, Simon Reich, 2010-03-16 America's approach to terrorism has focused on traditional national security methods under the assumption that terrorism's roots are foreign and the solution to greater security lies in conventional practices Europe offers a different model with its response to internal terrorism relying on police procedures *Managing Ethnic Diversity after 9 11* compares these two strategies and considers that both may have engendered greater radicalization and a greater chance of home grown terrorism Essays address how transatlantic countries including the United Kingdom the United States France Germany Spain Italy and the Netherlands have integrated ethnic minorities especially Arabs and Muslims since 9 11 Discussing the securitization of integration contributors argue that the neglect of civil integration has challenged the rights of these minorities and has made greater security more remote

As the Witnesses Fall Silent: 21st Century Holocaust Education in Curriculum, Policy and Practice Zehavit Gross, E. Doyle Stevick, 2015-03-16 This volume represents the most comprehensive collection ever produced of empirical research on Holocaust education around the world It comes at a critical time as the world observes the 70th anniversary of the liberation of Auschwitz We are now at a turning point as the generations that witnessed and survived the Shoah are slowly passing on Governments are charged with ensuring that this defining event of the 20th century takes its rightful place in the schooling and the historical consciousness of their peoples The policies and practices of Holocaust education around the world are as diverse as the countries that grapple with its history and its meaning Educators around the globe struggle to reconcile national histories and memories with the international realities of the Holocaust and its implications for the present These efforts take place at a time when scholarship about the Holocaust itself has made great strides In this book these issues are framed by some of the leading voices in the field including Elie Wiesel and Yehuda Bauer and then explored by many distinguished scholars who represent a wide range of expertise Holocaust education is of such significance so rich in meaning so powerful in content and so diverse in practice that the need for extensive high quality empirical research is critical This book provides exactly that
