The Integral Yoga Sri Aurobindo, 1993-12-01 A compilation of letters written by Sri Aurobindo to disciples during the 1930s this book presents the major aspects of his spiritual teaching The first parts deal with the psychological and philosophical foundations of his teaching and relate them to other systems of yoga and philosophy The next sections deal with the method of practice starting with the bases of yoga and continuing with the different types of sadhana descriptions of experiences and realisations the triple transformation that defines the essence of the yoga and the difficulties in transforming the nature A glossary of the terminology used by Sri Aurobindo completes the volume *The Integral Yoga* Sri Aurobindo, Aurobindo Ghose, 1993 Between 1927 and 1950 Sri Aurobindo one of the foremost Indian philosophers of the 20th century perfected a new kind of spiritual practice he called the Integral Yoga This volume brings together a comprehensive selection of Sri Aurobindo's letters pertaining to the practice of this discipline *Readings in Integral Yoga: Sri Aurobindo's Teaching & Method of Practice* Santosh Krinsky, 2022-01-01 Sri Aurobindo calls us to what he terms an adventure of consciousness Integral yoga was not intended to set forth a specific and rigid set of practices for everyone to follow rather it was developed to understand the specific needs of each individual at each stage of development and to employ those methods and practices that would best aid in the further progress for the individual seeker It also was not targeted at abandoning life The integral yoga first focuses on achieving the necessary liberation from the fixed habits of body life and mind that create a framework around each person's life and then on bringing down into the being a higher status of consciousness and aiding its transformation of the being in all its aspects The eventual objective of the integral yoga was to provide conscious support to the natural process of evolution of consciousness and thereby speed up its advent The book *Integral Yoga Sri Aurobindo's Teaching and Method of Practice* was compiled and organised from among the thousands of letters on yoga that Sri Aurobindo wrote to disciples and others over a number of years It outlines his philosophical outlook the background and basis of the integral yoga and delves into a vast array of details which aid the sincere seeker in understanding the inner workings of consciousness and helps the seeker to work through the difficulties obstacles and resistances of nature to truly bring about a transformation of consciousness in all parts of his being **Gems from Sri Aurobindo, 2nd Series** Sri Aurobindo, 1994 Sri Aurobindo represents a synthesis of the teachings of both the West and the East Not content simply with dissolution into a transcendental other worldly God consciousness nor with concentration on the outer life and its powers to the exclusion of anything other or higher Sri Aurobindo has created the teachings of a Divine Life on Earth This is the second book of the series **The Yoga of Sleep and Dreams** Sri Aurobindo, Mother, 2004 The Yoga of Sleep and Dreams The Night School of Sadhana The practice of yoga continues day and night This book aids the seeker in becoming conscious and turning sleep and dreams into the opportunity for real and substantial progress on the path of yoga Introduced and compiled by Dr A S Dalal *Readings in Our Many Selves: Practical Yogic Psychology* Santosh Krinsky, 2024-01-01 Who are we Why are we

alive What are we here to do What is the meaning and significance of our lives These questions nag at us at times in our everyday lives until finally we take them up and try to unravel the mystery of our existence and the existence of the universal creation Sri Aurobindo and the Mother have taken up these questions and provided a way of understanding and a method for progress in finding and applying the solutions we find They do so by showing us the complex and multiple different selves that make up what we believe to be a unified external personality In fact we are not so simple and not so unified in our being There are conflicting drives and forces at work which create internal conflict and in many cases defeat us in the achievement of our highest goals and aspirations By understanding this complex makeup of our being we are able to find a path to liberation from this bondage without at the same time having to totally abandon all action in the world Our Many Selves Practical Yogic Psychology compiled by Dr A S Dalal from the writings of Sri Aurobindo and the Mother is an extremely useful text to aid us in the process of self discovery and self actualization It is a benefit to spiritual seekers regardless of the specific path followed as it is not based on any particular religious or philosophical dogma At the same time the deeper understanding provided by this text can aid even those who are not actively and consciously practicing yoga for the sake of self knowledge or self realization as it will help each individual work through the pressures the internal debates and inner conflicts that frequently impact the individual s ability to act and succeed in their intended goals even when they are purely based on fulfilling the external personality If we can understand the forces that bring us to feeding addictions procrastinating living an unhealthy and imbalanced lifestyle sabotaging our relations with others then we can begin to achieve a more harmonious and successful life however we choose to define success Dr Dala states This book is meant to bear out Sri Aurobindo s oft quoted statement Yoga is nothing but practical psychology Generally yoga is viewed as made up of certain set practices and certain rules and norms pertaining to one s outer life In contrast to this view Our Many Selves present Yoga as consisting essentially in inner psychological work aimed at the transformation of consciousness Indigenising and Decolonising Social Work Education Bishnu Mohan Dash and Mithilesh Kumar,2023-01-01 The book has made a modest attempt in highlighting various issues and perspectives towards Indigenizing and Decolonizing social work education from India and South African countries It has tried to rejuvenate the Indic wisdom in the field of social work welfare and human emancipation It has tried to develop a discourse towards the importance major religions in the social work education and practice Besides that it has explored the Indigenous models and techniques of social case work and group work practice in Indian context The book will definitely be interesting reading for the social work academicians researchers practitioners and students Bhagavad Gita and Its Message Sri Aurobindo,1996-03 The Bhagavad Gita literally The Song of God is one of the most important spiritual and religious texts of the world and is to Hindus what the Torah is to Jews the Bible to Christians and the Quran to Muslims With text translation and Sri Aurobindo s commentary this is probably the finest translation and commentary on the Bhagavad Gita that we have seen **Yoga Journal** ,2000-11 For more than 30 years Yoga Journal has
