**Larry Niven**

## **Integral Trees:**

The Integral Trees Larry Niven, 1984 A culture of evolved humans inhabits a doughnut shaped gas tube that rotates around a neutron star      **The Integral Trees** Larry Niven, Outlet, 1987-05-27      *The Integral Trees* Larry Niven, 2003-07-29 Niven has come up with an idea about as far out as one can get This is certainly classic science fiction the idea is truly the hero Asimov's Science Fiction Magazine When leaving Earth the crew of the spaceship Discipline was prepared for a routine assignment Dispatched by the all powerful State on a mission of interstellar exploration and colonization Discipline was aided and secretly spied upon by Sharls Davis Kendy an emotionless computer intelligence programmed to monitor the loyalty and obedience of the crew But what they weren't prepared for was the smoke ring an immense gaseous envelope that had formed around a neutron star directly in their path The Smoke Ring was home to a variety of plant and animal life forms evolved to thrive in conditions of continual free fall When Discipline encountered it something went wrong The crew abandoned ship and fled to the unlikely space oasis Five hundred years later the descendants of the Discipline crew living on the Smoke Ring no longer remember their origins Earth is more myth than memory and no recollection of the State remains But Kendy remembers And just outside the Smoke Ring Discipline waits patiently to make contact with its wayward children      Integral Trees Larry Niven, 1988 The story of a group of humans who live without real gravity in the gas torus that rotates about a neutron star      **Graphs and Combinatorics** R.A. Bari, F. Harary, 2006-11-15      **Spectra of Graphs** Andries E. Brouwer, Willem H. Haemers, 2011-12-17 This book gives an elementary treatment of the basic material about graph spectra both for ordinary and Laplace and Seidel spectra The text progresses systematically by covering standard topics before presenting some new material on trees strongly regular graphs two graphs association schemes p ranks of configurations and similar topics Exercises at the end of each chapter provide practice and vary from easy yet interesting applications of the treated theory to little excursions into related topics Tables references at the end of the book an author and subject index enrich the text Spectra of Graphs is written for researchers teachers and graduate students interested in graph spectra The reader is assumed to be familiar with basic linear algebra and eigenvalues although some more advanced topics in linear algebra like the Perron Frobenius theorem and eigenvalue interlacing are included      **Combinatorial Image Analysis** Reinhard Klette, Jovisa Zunic, 2004-11-22 This volume presents the proceedings of the 10th International Workshop on Combinatorial Image Analysis held December 1-3 2004 in Auckland New Zealand Prior meetings took place in Paris France 1991 Ube Japan 1992 Washington DC USA 1994 Lyon France 1995 Hiroshima Japan 1997 Madras India 1999 Caen France 2000 Philadelphia USA 2001 and Isero Italy 2003 For this workshop we received 86 submitted papers from 23 countries Each paper was evaluated by at least two independent referees We selected 55 papers for the conference Three invited lectures by Vladimir Kovalevsky Berlin Akira Nakamura Hiroshima and Maurice Nivat Paris completed the program Conference papers are presented in this volume under the following topical part

titles discrete tomography 3 papers combinatorics and computational models 6 combinatorial algorithms 6 combinatorial mathematics 4 digital topology 7 digital geometry 7 approximation of digital sets by curves and surfaces 5 algebraic approaches 5 fuzzy image analysis 2 image segmentation 6 and matching and recognition 7 These subjects are dealt with in the context of digital image analysis or computer vision *N-Space* Larry Niven, 2007-08-21 This retrospective collection of stories from all phases of Niven's writing career is rich with gossip storytelling vigor and sheer science fictional play

Issues in Mathematical Theory and Modeling: 2013 Edition, 2013-05-01 Issues in Mathematical Theory and Modeling 2013 Edition is a ScholarlyEditions book that delivers timely authoritative and comprehensive information about Lie Theory The editors have built Issues in Mathematical Theory and Modeling 2013 Edition on the vast information databases of ScholarlyNews You can expect the information about Lie Theory in this book to be deeper than what you can access anywhere else as well as consistently reliable authoritative informed and relevant The content of Issues in Mathematical Theory and Modeling 2013 Edition has been produced by the world's leading scientists engineers analysts research institutions and companies All of the content is from peer reviewed sources and all of it is written assembled and edited by the editors at ScholarlyEditions and available exclusively from us You now have a source you can cite with authority confidence and credibility More information is available at <http://www.ScholarlyEditions.com> **The Structurally Optimal Dual Graph Pyramid and Its Application in Image Partitioning** Yil Haxhimusa, 2007 **Recent Results in the Theory of Graph Spectra** D.M. Cvetkovic, M. Doob, I. Gutman, A. Torgašev, 1988-01-01 The purpose of this volume is to review the results in spectral graph theory which have appeared since 1978 The problem of characterizing graphs with least eigenvalue 2 was one of the original problems of spectral graph theory The techniques used in the investigation of this problem have continued to be useful in other contexts including forbidden subgraph techniques as well as geometric methods involving root systems In the meantime the particular problem giving rise to these methods has been solved almost completely This is indicated in Chapter 1 The study of various combinatorial objects including distance regular and distance transitive graphs association schemes and block designs have made use of eigenvalue techniques usually as a method to show the nonexistence of objects with certain parameters The basic method is to construct a graph which contains the structure of the combinatorial object and then to use the properties of the eigenvalues of the graph Methods of this type are given in Chapter 2 Several topics have been included in Chapter 3 including the relationships between the spectrum and automorphism group of a graph the graph isomorphism and the graph reconstruction problem spectra of random graphs and the Shannon capacity problem Some graph polynomials related to the characteristic polynomial are described in Chapter 4 These include the matching distance and permanental polynomials Applications of the theory of graph spectra to Chemistry and other branches of science are described from a mathematical viewpoint in Chapter 5 The last chapter is devoted to the extension of the theory of graph spectra to infinite graphs *Floating Islands* Richard J. Heggen, 2021-01-01 Floating Islands in science

history the arts and any number of sightings elsewhere      **Complete Critical Assembly** David Langford,2002-10-01 This new collection of essays commissioned from a range of scholars across the world takes as its theme the reception of Rome s greatest poet in a time of profound cultural change Amid the rise of Christianity the changing status of the city of Rome and the emergence of new governing classes Vergil remained a bedrock of Roman education and identity This volume considers the different ways in which Vergil was read understood and appropriated by poets commentators Church fathers orators and historians The introduction outlines the cultural and historical contexts Twelve chapters dedicated to individual writers or genres and the contributors make use of a wide range of approaches from contemporary reception theory An epilogue concludes the volume      **The Magic Goes Away Collection** Larry Niven,2005-02 A collection of three novels      **A Medieval Book of Beasts** Willene B. Clark,2006 The Bestiary is a book of animals The Second family bestiary is the most important version This study addresses the work s purpose and audience It includes a critical edition and new English translation and a catalogue raisonne of the manuscripts      **The Official Price Guide to Collecting Books** Marie Tedford,Pat Goudey,2008 The antiquarian s reference to old books features thousands of listings including hundreds of new titles a new Internet buying guide a complete glossary of book collecting terms research resources information on dealers and advice on buying selling and maintaining fragile acquisitions Original      **Queen of Candescence** Karl Schroeder,2024-03-26 Venera Fanning was last seen falling into nothingness at the end of Sun of Suns Now in Queen of Candescence Venera finds herself plunging through the air between the artificial continents of Virga far from home and her husband who may or may not be alive Landing in the ancient nation of Spyre Venera encounters new enemies and new friends or at least convenient allies She must quickly learn who she can trust and who she can manipulate in order to survive Queen of Candescence is her story      **The Mammoth Encyclopedia of Science Fiction** George Mann,2012-03-01 This encyclopedia is the most up to date concise clear and affordable guide to all aspects of science fiction from its background to generic themes and devices from authors established and new to films Science fiction has evolved into one of the most popular cutting edge and exciting fiction genres with a proliferation of modern and classic authors themes and ideas movies TV series and awards Arranged in an A Z format and featuring a comprehensive index and cross referencing system The Mammoth Encyclopedia of Science Fiction is also the most accessible and easy to use encyclopedia of its kind currently available      **The Mote in God's Eye** Larry Niven,Jerry Pournelle,1974 Science fiction roman      **Take My Advice** James L. Harmon,2010-05-11 Just in time for graduation a smart and edgy collection of advice for young people from dozens of the most creative and visionary people on the planet Contributors include Camille Paglia Wayne Koestenbaum Jonathan Ames Jennifer Belle Howard Zinn Joe Dallesandro Bruce LaBruce Dr Laura Schlessinger Tom Robbins Judith Butler Martha Nussbaum Horst William S Burroughs Larry Niven Veruschka Lydia Lunch Spalding Gray Eileen Myles Roger Scruton Ken Kesey Mary Gaitskill Richard Powers Mark Dery Florence King Mark Simpson Bob Shacochis Joanna Scott Quentin Crisp
