ideas as a means of overcoming the alienation of women's being from their own becoming. With an understanding of feminist theology as a pivotal contribution to the feminist criticism of culture, this original book also examines idoloclasm in feminist visual art, literature, direct action, and theory, not least that of the sexual politics of romantic love, the diet and beauty industry, sex robots, and other phenomena whose idolization of women reduces them to figures of the feminine same, experienced as a de-realization or death of the self. This book demonstrates that secular and religious feminist critical engagements with the modern trauma of dehumanization were far more closely related than is often supposed. As such, it will be vital reading for scholars in theology, religious studies, gender studies, visual studies, and philosophy.

Education Feminism Barbara J. Thayer-Bacon, Lynda Stone, Katharine M. Sprecher, 2013-12-15. Collection of important essays by feminist scholars from cultural studies, philosophy of education, curriculum theory, and women's studies. *Education Feminism* is a revised and updated version of Lynda Stone's out-of-print anthology *The Education Feminism Reader*. The text is intended as a course text and provides students a foundational base in feminist theories in education. The classics section is comprised of the readings that students have most responded to in classes. The contemporary readings section demonstrates how the third wave feminist criticism of the 1990s has an impact on today's feminist work. Both of these sections address critical multicultural educational issues and have an inclusive, diverse selection of feminist scholars who bring race, class, sexual orientation, religious practices, and colonial/postcolonial perspectives to bear on their work. The individual essays are concise and well-written and arranged in such a way that it is easy for instructors to assign them around themes of their own choosing. The incredible value of this fine collection is that it demonstrates what it means to critically consider, interrogate, and challenge historic and contemporary ideas regarding educational equity while using these very ideas to imagine new possibilities. It will serve as an indispensable resource in graduate classrooms where students can use the text to ground and forward explorations of the necessarily complex considerations of equity in education today.
