Lord,Douglas J. Brown,2003-09-12 Presenting a follower centered perspective on leadership this book focuses on followers as the direct determinant of leadership effects because it is generally through follower reactions and behaviors that leadership attempts succeed or fail Therefore leadership theory needs to be articulated with a theory of how followers create meaning from leadership acts and how this meaning helps followers self regulate in specific contexts In this book an attempt is made to develop such a theory maintaining that the central construct in this process is the self identity of followers In developing this theoretical perspective the authors draw heavily from several areas of research and theory The most critical constructs do not come directly from the leadership literature but from social and cognitive theory pertaining to follower s self identity self regulatory processes motivation values cognitions and emotions and perceptions of social justice Leaders may have profound effects on these aspects of followers and it is by analyzing such indirect follower mediated leadership effects that most ideas regarding leadership theory and practice are developed Due to its broad theoretical focus this book is relevant to a number of audiences The authors principal concern is with the development of leadership theory and the practice of leadership making the book relevant to audiences in management applied psychology and social psychology They have tried to clearly define key constructs and provide practical examples so that the book could be accessible to advanced undergraduate students However the diversity of the underlying theoretical literatures and the complexity of the framework developed also make the book appropriate for graduate courses in those disciplines and for readers with a professional interest in leadership

theory or practice SACRIFICIAL SERVANT LEADER PIOUS JOSEPH PAUL YANZUH, 2020-04-08 This book discusses how these lay persons are inspired to lead, serve and nurture congregations. Using the model which Jesus taught on servant leadership, the son of man came to serve and not to be served (Matt 20:28, Mk 10:45), an exploration is conducted on the concept of servant leadership, the characteristics and behaviors of sacrificial servant leaders and the environmental factors that motivate sacrificial servant leaders to be effective in the Church. The purpose of this book is to encourage and motivate leaders to be sacrificial servant leaders and to enhance an effective church ministry. In this contemporary era and more than ever before, there is a need for sacrificial servant leadership and team work to cope with the needs of the congregation. However, I approach sacrificial servant leadership as the process of serving followers towards growth through sacrificial and selfless stewardship based on the example of Jesus Christ viewed within the Christian faith. In essence, the concepts of sacrificial selflessness and stewardship are foundational and define the larger facets of sacrificial servant leadership.
