Fine,2010-10-08 In business today all advantage is temporary In order to survive let alone thrive companies must be able to anticipate and adapt to change or face rapid brutal extinction In Clock speed Charles Fine draws on a decades worth of research at M I T s Sloan School of Management to introduce a new vocabulary for understanding the forces of competition and making strategic decisions that will determine the destiny of your company as well as your industry Taking inspiration from the world of biology Fine argues that each industry has its own evolutionary life cycle or clock speed measured by the rate at which it introduces new products processes and organizational structures Just as geneticists study the fruit fly to gain insight into the evolutionary paths of all animals managers in any industry can learn from the industrial fruit flies such as Internet services personal computers and multimedia entertainment which evolve through new generations at breakneck speed Applying the lessons of the fruit flies to industries as diverse as bicycles pharmaceuticals and semiconductors Fine illustrates how competitive advantage is lost or gained by how well a company manages dynamic web of relationships that run throughout its chain of suppliers distributors and alliance partners Packed with revolutionary concepts and tools to help managers make key strategic decisions that affect current and future performance Clock speed shows as no other book before it how the ultimate core competency is mastering the art of supply chain design carefully choosing which components and capabilities to keep in house and which to purchase from outside      *Inventing the Organizations of the 21st Century* Thomas W. D'aveni,2010-05-11 General Motors and IBM have been battered to their cores Jack Welch the chairman of General Electric called the frenzied competition of the 1980 s a white knuckle decade and said the 1990s would be worse In this pathbreaking book that will define this new age of

hypercompetition Richard D Aveni reveals how competitive moves and countermoves escalate with such ferocity today that the traditional sources of competitive advantage can no longer be sustained To compete in this dynamic environment D Aveni argues that a company must fundamentally shift its strategic focus He constructs a brilliant operational model that shows how firms move up escalation ladders as advantage is continually created eroded destroyed and recreated through strategic maneuvering in four arenas of competition Using this Four Arena analysis D Aveni explains how competitors engage in a struggle for control by seeking leadership in the arenas of price and quality timing and know how stronghold creation invasion and deep pockets Winners set the pace in each of these four competitive battlegrounds Using hundreds of detailed examples from hypercompetitive industries such as computers software automobiles airlines pharmaceuticals toys and soft drinks D Aveni demonstrates how hypercompetitive firms succeed in dynamic markets by disrupting the status quo and creating a continuous series of temporary advantages They seize the initiative D Aveni explains by employing a set of strategies he calls the New 7 S s Superior Stakeholder Satisfaction Strategic Soothsaying Speed Surprise Shifting the Rules of Competition Signaling Strategic Intent and Simultaneous and Sequential Thrusts Paradoxically firms must destroy their competitive advantages to gain advantage D Aveni shows Long term success depends not on sustaining an advantage through a static long term strategy but instead on formulating a dynamic strategy for the creating destruction and recreation of short term advantages America must embrace the new reality of hypercompetition D Aveni concludes in a compelling analysis of the potential chilling effect of American antitrust laws on competitiveness This masterful book essentially an operating manual of strategy and tactics for a new era will be required reading for managers planners consultants academics and students of hypercompetitive industries      **InfoWorld** ,1991-07-15 InfoWorld is targeted to Senior IT professionals Content is segmented into Channels and Topic Centers InfoWorld also celebrates people companies and projects
