Svartengren,2018-02-06 Excerpt from Intensifying Similes in English Inaugural Dissertation It was originally my intention to start an inquiry on a rather large scale but my attempts in this direction soon made it evident that owing to causes needless to dwell upon postal conditions and other circumstances would not make such an inquiry an unqualified success Nevertheless I have to thank Miss Edith Underwood of Durham and several correspondents of Notes Queries for many valuable replies About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at www.forgottenbooks.com This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works *Thesaurus of Traditional English Metaphors* P.R. Early American Proverbs and Proverbial Phrases Bartlett Jere Whiting,1977 p B J Whiting savors proverbial expressions

and has devoted much of his lifetime to studying and collecting them no one knows more about British and American proverbs than he The present volume based upon writings in British North America from the earliest settlements to approximately 1820 complements his and Archer Taylor's Dictionary of American Proverbs and Proverbial Phrases 1820 1880 It differs from that work and from other standard collections however in that its sources are primarily not literary but instead workaday writings letters diaries histories travel books political pamphlets and the like The authors represent a wide cross section of the populace from scholars and statesmen to farmers shopkeepers sailors and hunters Mr Whiting has combed all the obvious sources and hundreds of out of the way publications of local journals and historical societies This body of material because it covers territory that has not been extracted and compiled in a scholarly way before can justly be said to be the most valuable of all those that Whiting has brought together according to Albert B Friedman What makes the work important is Whiting's authority a proverb or proverbial phrase is what BJW thinks is a proverb or proverbial phrase There is no objective operative definition of any value no divining rod his tact feel experience determine what's the real thing and what is spurious

Adjective Intensification - Learner's versus Native Speakers Gunter R. Lorenz, 2024-08-26 This volume represents one of the first full length studies carried out on material from the International Corpus of Learner English ICLE supplemented by data from younger learners and native speakers It addresses three main goals a the implementation of a developmental corpus methodology The study explores four corpora of argumentative writing two sampled from advanced learners of different ages and two from corresponding native speakers of English This way the respective linguistic maturation in native and non native writing can be traced with more explanatory power than could be yielded by a mere learner native speaker contrast b a functional account of adjective intensification in present day written English Intensification is a singularly dynamic and innovative lexico grammatical class Despite their obvious limitations small text type controlled corpora such as the ones used here make it feasible to examine this whole functional paradigm and identify the conceptual mechanisms of its continual innovation and semantic change c the exploration of native vs non native usage and the notion of idiomaticity The main differences between native English usage and that of advanced learners rest not so much on grammatical structure but on the rather elusive quality of idiomaticity In the limited domain of intensification this notion is explored both qualitatively and arithmetically with the aim of learning more about what it takes to use English idiomatically
