Intensive Short-Term Dynamic Psychotherapy Patricia C. Della Selva, 2018-05-08 Traditionally psychoanalytic treatment has been a lengthy endeavour requiring a long term commitment from patient and analyst as well as vast financial resources More recently short term approaches to psychoanalytic treatment have proliferated One of the most well known and thoroughly studied is the groundbreaking method of Intensive Short term Dynamic Psychotherapy developed by Dr Habib Davanloo Having trained directly with Dr Davenloo the author has written a clear concise outline of the method that has come to be regarded as a classic in the field The book is organised in a systematic fashion analogous to the process of therapy itself from initial contact through to termination and follow up Detailed clinical examples are presented throughout the text to illustrate how theory is translated into techniques of unparalleled power and effectiveness **INTENSIVE**

Unlocking the Emotional Brain Bruce Ecker,Robin Ticic,Laurel Hulley,2022-03-23 In *Unlocking the Emotional Brain* authors Ecker Ticic and Hulley equip readers to carry out focused empathic therapy using the potent process of memory reconsolidation the recently discovered and only known process for actually unlocking emotional memory at the synaptic level The Routledge classic edition includes a new preface from the authors describing the book s widespread impact on psychotherapy since its initial publication Emotional memory s tenacity is the familiar bane of therapists and researchers had long believed that emotional memory forms indelible learning Reconsolidation has overturned these views It allows new learning to truly nullify not just suppress the deep intensely problematic emotional learnings that form outside of awareness during childhood or in later tribulations and generate most of the symptoms that bring people to therapy Readers will learn methods that precisely eliminate unwanted ingrained emotional responses whether moods behaviors or thought patterns causing no loss of ordinary narrative memory while restoring clients well being Numerous case
