**Secret Law and the Threat to Democratic and Accountable Government** United States. Congress. Senate. Committee on the Judiciary. Subcommittee on the Constitution (2007- ),2008      **The Journal of Legal Pluralism and Unofficial Law 61/2010** Gordon R. Woodman,Fauzia Shariff,2011 This volume examines dynamics of legal pluralism and explores the varied ways in which constellations of legal pluralism play out in social life It aims to bridge the social and theoretical space between small scale case studies and abstract generalisation The introduction provides an overview of developments in the field of legal pluralism and offers an analytical perspective on the dynamics of the maintenance of and change in constellations of legal pluralism Contributions examine situations in which the state is seen as remote from local settings and others in which local populations are actively engaged in widening the scope and validity of state law By focusing on historical developments and the fault lines of rapid political change in both post socialist and post authoritarian states the volume shows that legal legacies of the past continue to have an impact Authors look at the social significance of the various and sometimes competing types of law which religious and secular transnational actors introduce into local settings      **Higher Powered** Shahryar Sadree,2016-03-15 You have more power than you will ever know It has been said that humans only use a small fraction of the minds ability What if you could unlock that unused potential and open the doorway to your dreams What if you could make that your reality Author Shahryar Sadrees Higher Powered A Book of Powerful Secrets to Finding Happiness takes you on a journey to open your mind awaken the spirit and unfold the real truth as to who you really are From there you will learn what it means to have power and your life can change forever Sadree pieces together historical events science and his own discoveries to pave a way to a better understanding of human behaviors He discusses the necessity of changing how we think to achieve a truly happy life In down to earth language and a friendly tone the author delves into why we think the way we do before embarking on the difficult yet achievable task of changing how we think Most of us have no idea how much power we have as creators inside a human body Higher Powered A Book of Powerful Secrets to Finding Happiness helps you find that power and use it optimally      *Heidegger's Shadow* Chad Engelland,2017-03-16 Heidegger s Shadow is an important contribution to the understanding of Heidegger s ambivalent relation to transcendental philosophy Its contention is that Heidegger recognizes the importance of transcendental philosophy as the necessary point of entry to his thought but he nonetheless comes to regard it as something that he must strive to overcome even though he knows such an attempt can never succeed Engelland thoroughly engages with major texts such as Kant and the Problem of Metaphysics Being and Time and Contributions and traces the progression of Heidegger s readings of Kant and Husserl to show that Heidegger cannot abandon his own earlier breakthrough work in transcendental philosophy This book will be of interest to those working on phenomenology continental philosophy and transcendental philosophy      **The Law-Making Process** Michael Zander KC,2020-06-25 As a critical in depth analysis of the law making

process this book has no equal It deals with all the stages and forms of law making the preparation of legislation its passage through Parliament statutory interpretation the operation of the rules of precedent in judicial decision making the many facets of judicial law making the machinery of law reform The new eighth edition covers the operation of EU law in the UK after Brexit It also covers pre Brexit events such as the unprecedented legislation by backbench MPs to stop a No Deal Exit from the EU and the two great Supreme Court decisions over the triggering of Brexit and the prorogation of Parliament The books draws on a wide range of sources including important new empirical research such as Lord Sumption s 2019 Reith lectures Trials of the State Law and the Decline of Politics and the work of Sir Geoffrey Palmer former Prime Minister and Justice Minister of New Zealand on The Law Reform Enterprise There are new sections on the attempt to control the size of the House of Lords on whether Parliament should have a role in the selection of senior judges and on the topical question whether decisions of the courts on constitutional questions are legal or political **Speak No Evil** Jon B. Gould,2010-02-15 Opponents of speech codes often argue that liberal academics use the codes to advance an agenda of political correctness But Jon B Gould s provocative book based on an enormous amount of empirical evidence reveals that the real reasons for their growth are to be found in the pragmatic almost utilitarian considerations of college administrators Instituting hate speech policy he shows was often a symbolic response taken by university leaders to reassure campus constituencies of their commitment against intolerance In an academic version of keeping up with the Joneses some schools created hate speech codes to remain within what they saw as the mainstream of higher education Only a relatively small number of colleges crafted codes out of deep commitment to their merits Although college speech codes have been overturned by the courts Speak No Evil argues that their rise has still had a profound influence on curtailing speech in other institutions such as the media and has also shaped mass opinion and common understandings of constitutional norms Ultimately Gould contends this kind of informal law can have just as much power as the Constitution *Protest, Property and the Commons* Lucy Finchett-Maddock,2016-03-17 Protest Property and the Commons focuses on the alternative property narratives of social centres or political squats and how the spaces and their communities create their own resistant form of law Drawing on critical legal theory legal pluralism legal geography poststructuralism and new materialism the book considers how protest movements both use state law and create new more informal legalities in order to forge a practice of resistance Invaluable for anyone working within the area of informal property in land commons protest and adverse possession this book offers a ground breaking account of the integral role of time space and performance in the instituting processes of law and resistance **Melodies Unheard** Anthony Hecht,2020-03-24 Originally published in 2003 The fruit of a lifetime s reading and thinking about literature its delights and its responsibilities this book by acclaimed poet and critic Anthony Hecht explores the mysteries of poetry offering profound insight into poetic form meter rhyme and meaning Ranging from Renaissance to contemporary poets Hecht considers the work of Shakespeare Sidney and Noel Housman Hopkins Eliot and Auden Frost

**Kafka and the Universal** Arthur Cools, Vivian Liska, 2016-07-25 Kafka's work has been attributed a universal significance and is often regarded as the ultimate witness of the human condition in the twentieth century Yet his work is also considered paradigmatic for the expression of the singular that cannot be subsumed under any generalization This paradox engenders questions not only concerning the meaning of the universal as it manifests itself in and is transformed by Kafka's writings but also about the expression of the singular in literary fiction as it challenges the opposition between the universal and the singular The contributions in this volume approach these questions from a variety of perspectives They are structured according to the following issues ambiguity as a tool of deconstructing the pre-established philosophical meanings of the universal the concept of the law as a major symbol for the universal meaning of Kafka's writings the presence of animals in Kafka's texts the modernist mode of writing as challenge of philosophical concepts of the universal and the meaning and relevance of the universal in contemporary Kafka reception This volume examines central aspects of the interplay between philosophy and literature
