## **High Germans In The Low Countries:**

High Germans in the Low Countries Donald Harreld, 2004-11-01 This volume looks at the South German merchant community during Antwerp's Golden Age by examining German involvement in the social life of the city as well as by tracing merchants' commercial activities. The first section of the book considers the institutions of trade and the role Germans played in their development and how Germans interacted with other foreign merchant communities. The second section takes a wider view by tracing the commercial networks that South German merchants operated in and by quantifying South German participation in Antwerp's foreign trade. *The Limburg Sermons: Preaching in the Medieval Low Countries at the Turn of the Fourteenth Century* Wybren Scheepma, 2008-08-31 For a long time it was thought that there were no Middle Dutch sermons dating from the thirteenth century. It was only after J. P. Gumbert had redated the manuscript from The Hague containing the Limburg Sermons that its contents could be assigned to that century. Most of the Limburg Sermons appear to be translations of the Middle High German St. Georgen sermons. But sixteen of these texts are known only in Middle Dutch and among these is to be found material drawn from the works of Hadewijch and Beatrijs van Nazareth. Thus the Limburg Sermons emerge to take their place in the famous tradition of Brabantine mysticism. High Germans in the Low Countries Donald J. Harreld, 2000 *Old English and its Closest Relatives* Orrin W. Robinson, 2003-09-02 This accessible introductory reference source surveys the linguistic and cultural background of the earliest known Germanic languages and examines their similarities and differences. The languages covered include Gothic, Old Norse, Old Saxon, Old English, Old Low Franconian, Old High German. Written in a lively style, each chapter opens with a brief cultural history of the people who used the language, followed by selected authentic and translated texts and an examination of particular areas including grammar, pronunciation, lexis, dialect variation and borrowing, textual transmission, analogy and drift. England and Germany in the High Middle Ages Alfred Haverkamp, Hanna Vollrath, Karl Leyser, 1996 This collection of essays examines the similarities and differences between medieval England and Germany at a period of great change in almost all areas of life. It asks a number of fundamental questions which highlight the foundations of a rich common European heritage: What was it that made life in the twelfth century more varied, less peaceful and less secure than before? How can the parallel developments, changes and transformations that took place in Latin Europe in the High Middle Ages be related to each other? What answers were found to the challenges of the age in England and Germany? This volume gives the reader an opportunity to see how English-speaking and German scholars approach similar themes. Edited by two leading German medievalists, it includes 17 contributions by eminent scholars from Britain, North America and Germany. It is divided into 4 sections on modes of communication, war and peace, Christians and non-Christians, and urban and rural developments, and is essential reading for students and scholars of English or German medieval history. **Merchants and Trading in the Sixteenth Century** Jeroen Puttevils, 2015-10-06 Sixteenth century Europe was powered by commerce. Whilst mercantile groups from many areas

prospered those from the Low Countries were particularly successful This study based on extensive archival research charts the ascent of the merchants established around Antwerp *Pennsylvania School Journal*, 1915 *A Companion to Mysticism and Devotion in Northern Germany in the Late Middle Ages* Elizabeth Andersen, Henrike Lähnemann, Anne Simon, 2013-11-01 The volume explores the hitherto uncharted late medieval religious landscape of Northern Germany from 13th century Helfta to the 15th century Lebnburg convents The mystical and devotional writing of Northern Germany is contextualised through chapters on the Netherlands Scandinavia and East Prussia The seminal influence of the liturgy on these texts and their transmission is revealed in the creative interplay of Latin and Low German Through the individual chapters and their appendices which also contain translations into English the reader can access a wealth of texts produced by communities of religious and lay women who write learnedly in Latin and fervently in Low German Together the chapters and appendices reveal a fascinating regional mystical culture which also reverberated across Northern Europe Contributors include Jürgen Bartsch Anne Bollmann Veerle Fraeters Ulrike Hascher Burger Ernst Hellgardt Tanja Mattern Balázs Nemes Sara S Poor Eva Schlottheuber Almut Suerbaum and Geert Warnar **Dutch Anabaptism** Cornelius Krahn, 2004-10-04 Krahn avoids the hero worship which is common among many rehabilitators of Anabaptism In his presentation the giants of Anabaptism as well as those of the Magisterial Reformation turn out again and again to have clay feet No attempt is made to rationalize these apparent weaknesses Out of Dutch mysticism there grew a spiritualizing tendency which could not be confined to the question of the Lord's Supper Frank C Roberts in *Calvin Theological Journal* Krahn's greatest service is in the distilling more than a century of Dutch scholarship and he performs it judiciously Especially interesting is his argument that both Reformed Protestantism and Anabaptism had their roots in the Sacramentarian movement of the 1520s Alastair C Duke in *Journal of Ecclesiastical History* The author's extensive and accurate knowledge of both the modern and the sixteenth century Dutch language together with his careful and competent evaluation of the conflicting interpretations of the events make his survey of Dutch Anabaptism a reliable source of information Krahn has made a serious attempt to immerse himself in the issues and to assess fairly the clashing opinions H W Meihuizen in *Mennonite Quarterly Review* Tutionish: Or, Anglo-German Union Tongue Elias Molee, 1901 **The New Cratylus; Or Contributions Towards a More Accurate Knowledge of the Greek Language** John William Donaldson, 1850 The New Cratylus John W. Donaldson, 1839 The New Cratylus John William Donaldson, 1868 **Principles of Historical Linguistics** Hans Henrich Hock, 2009-09-24 Historical linguistic theory and practice contains a great number of different layers which have been accepted in the course of time and have acquired a permanency of their own These range from neogrammarian conceptualizations of sound change and analogy to present day ideas on rule change and language mixture To get a full grasp of the principles of historical linguistics it is therefore necessary to understand the nature and justifications or shortcomings of each of these layers not just to look for a single overarching theory The major purpose of the book is to provide in up to date form such an

understanding of the principles of historical linguistics and the related fields of comparative linguistics and linguistic reconstruction In addition the book provides a very broad exemplification of the principles of historical linguistics     **The Encyclopædia Britannica** Hugh Chisholm,1910     *Essays on language and literature* Friedrich Max Müller,1895
