High Summer Backpacking The Canadian Rockies:

High Summer Chris Townsend, 2024-11 The updated second edition of a hiking classic High Summer the true story of the first thru hike of Canada's Rocky Mountains The full end to end traverse on foot of Canada's Rocky Mountains is one of North America's greatest hiking challenges By the late 1980s it had never been completed When long distance backpacker Chris Townsend heard about the route he couldn't resist it The Canadian Rockies offer everything a wilderness connoisseur could desire There are glaciated peaks forested valleys remote tracts where solitude can be found and abundant wildlife grizzly bears wolves moose and wolverines among them From celebrated national parks in the south to vast undeveloped regions in the north the range is filled with natural wonders many only accessible to a lone traveller on foot In June 1988 Chris Townsend set out to discover this range for himself With no set route to follow he pioneered his own path first linking established trails then heading cross country into a trackless land He walked not to be the first to complete the route but instead to treasure the journey and above all to spend long enough in the wild for it to come to feel like home Challenged by rough weather and even rougher terrain sometimes navigating from suggestions received in frontier settlements or by dead reckoning his backpacking skills were pushed to the limit He began the journey as a hiker but over 1 600 miles had to evolve into something more an explorer First published in 1989 this new and updated edition of High Summer features a new introduction by the author new footnotes and over 100 black and white photos from the hike many never before seen Written by a passionate advocate for wild places and told with honesty and authenticity High Summer will take the reader on an engrossing journey into a wilderness that very few people will ever experience for themselves **Canadian Rockies Trail Guide** Brian Patton, Bart Robinson, 2011-03-31 *Beyond Backpacking* Ray Jardine, 2000 The all trails version of Jardine's PCT Hiker's Handbook a more complete explanation of what's becoming known as The Ray Way in hiking circles

The Forgotten Explorer Samuel Prescott Fay, 2011-02-15 North of Jasper in the Canadian Rockies is a large roadless and spectacular wilderness of alpine flower meadows glaciated peaks canyons waterfalls and abundant wildlife Compared to the millions each year who visit Banff and Jasper national parks immediately to the south this northern area sees few visitors Fewer still have ever attempted to travel through this wilderness in one continuous trip The first to do so was Samuel Prescott Fay in 1914 To this day his exact route has never been duplicated Fay and his party set out from Jasper on June 26 1914 with five saddle horses and 16 pack horses After a treacherous slogging journey of 1 200 kilometres through wild uncharted country they reached their destination on October 15 1914 with the outfit completely intact During his expedition Fay kept a detailed journal currently held at the Smithsonian Institution Washington DC which he provided to the US Biological Survey now known as the US Fish Wildlife Service and to various Canadian government authorities He also published several magazine articles about his discoveries However the journal in its entirety with all his day to day observations struggles and concerns has never been published Similarly his maps photographs and wildlife records have been preserved in various Canadian and US archives but never exhibited to a wider audience Brought together for the first time in book form they provide an early and dynamic record of an area that remains little known to this day Complete with a large selection of never before published photos and maps **The Forgotten Explorer** is destined to become a classic of North American exploration history
