Hostage in Peking Plus Anthony Grey, 2003 *The China Diary of George H. W. Bush* Jeffrey A. Engel, 2011-05-04
Available in print for the first time this day by day diary of George H W Bush's life in China opens a fascinating window into one of the most formative periods of his career As head of the United States Liaison Office in Beijing from 1974 to 1975 Bush witnessed high level policy deliberations and daily social interactions between the two Cold War superpowers The China Diary of George H W Bush offers an intimate look at this fundamental period of international history marks a monumental contribution to our understanding of U S China relations and sheds light on the ideals of a global president in the making In compelling words Bush reveals a thoughtful and pragmatic realism that would guide him for decades to come He considers the crisis of Vietnam the difficulties of détente and tensions in the Middle East while lamenting the global decline in American power He formulates views on the importance of international alliances and personal diplomacy as he struggles to form meaningful relationships with China's top leaders With a critical eye for detail he depicts key political figures including Gerald Ford Donald Rumsfeld Deng Xiaoping and the ever difficult Henry Kissinger Throughout Bush offers impressions of China and its people describing his explorations of Beijing by bicycle and his experiences with Chinese food language lessons and Ping Pong Complete with a preface by George H W Bush and an introduction and essay by Jeffrey Engel that place Bush's China experience in the broad context of his public career The China Diary of George H W Bush offers an unmediated perspective on American diplomatic history and explores a crucial period's impact on a future commander in chief The East Is Black Robeson Taj Frazier, 2015-02-15 During the Cold War several prominent African American radical activist intellectuals including W E B and Shirley Graham Du Bois journalist William Worthy Marxist feminist Vicki Garvin and freedom fighters Mabel and Robert Williams traveled and lived in China There they used a variety of media to express their solidarity with Chinese communism and to redefine the relationship between Asian struggles against imperialism and black American movements against social racial and economic injustice In *The East Is Black* Taj Frazier examines the ways in which these figures and the Chinese government embraced the idea of shared struggle against U S policies at home and abroad He analyzes their diverse cultural output newsletters print journalism radio broadcasts political cartoons lectures and documentaries to document how they imagined communist China's role within a broader vision of a worldwide anticapitalist coalition against racism and imperialism **The Writers Directory**, 2013 The Hostage Handbook Anthony Grey, 2009-11 The Thoughts of Chairman Grey present the highly charged verbatim transcription of the text of the author's secret shorthand diaries which he wrote and kept hidden during his period of two years and two months solitary confinement as a hostage in China The reader receives a powerful sense of feeling what it was like moment by moment to be held hostage in isolation in a hostile land He says he now sees the two harrowing years held in a slogan daubed house in the heart of Beijing as a huge delayed action privilege and realises more than three decades later how the insights provided by that

experience and the very act of keeping those secret diaries themselves helped shape his life positively after his release He has been an avid journal keeper ever since and in an accompanying commentary he extols the virtues of that reflective discipline
