social class and careers to fit in with British society Based on a series of interviews and participant observations with two cohorts of privileged Iranian migrant women working as doctors dentists and academics in Britain groups that are usually absent from studies around migration marginality and intersectionality the book applies narrative analysis and intersectionality to critically analyse social class in relation to gender ethnicity places and sense of belonging in Britain As concepts such as Nation Migrant Native Other Security and Border have populated public and policy discourse it is vital to explore migrants experiences and perceptions of the society in which they live to answer deceptively simple questions such as What does class mean and How is class translated in the lives of migrants **The Movement** Thomas C. Holt,2021-01-04

The civil rights movement was among the most important historical developments of the twentieth century and one of the most remarkable mass movements in American history Not only did it decisively change the legal and political status of African Americans but it prefigured as well the moral premises and methods of struggle for other historically oppressed groups seeking equal standing in American society And yet despite a vague sometimes begrudging recognition of its immense import more often than not the movement has been misrepresented and misunderstood For the general public a singular moment frozen in time at the Lincoln Memorial sums up much of what Americans know about that remarkable decade of struggle In *The Movement* Thomas C Holt provides an informed and nuanced understanding of the origins character and objectives of the mid twentieth century freedom struggle privileging the aspirations and initiatives of the ordinary grassroots people who made it Holt conveys a sense of these developments as a social movement one that shaped its participants even as they shaped it He emphasizes the conditions of possibility that enabled the heroic initiatives of the common folk over those of their more celebrated leaders This groundbreaking book reinserts the critical concept of movement back into our image and understanding of the civil rights movement *The New Countryside?* Sarah Neal,Julian Agyeman,2006 Focusing on the countryside this book explores issues of ethnicity identity and racialised exclusion in rural Britain It questions what the countryside is problematises who is seen as belonging to rural spaces and argues for the recognition of a rural multicultural **California. community of Hutu rebel fighters and their families living under the harshest of conditions She describes the Hutu fighters not only as a military unit with a vision of return to Rwanda but also as a community engaged in the present Congo conflicts Hedlund focuses on how fighters and their families perceive their own life conditions how they remember and articulate the events of the genocide and why they continue to fight in what appears to be an endless conflict Hutu Rebels argues that we need to move beyond compiling catalogs of atrocities and start examining the ordinary life of combatants if we want to understand the ways in which violence is expressed in the context of a most brutal conflict

A Pneumatology of Race in the Gospel of John Rodolfo Galvan Estrada III, 2019 How do the Greco Roman views of ethnicity inform our reading of the Spirit in the Fourth Gospel This study not only reviews the role of ethnicity and race in the ancient world it also proposes a bold new understanding of Johannine pneumatology From an ethnocritical perspective this study argues that the Spirit was articulated for an ethnically diverse Johannine community that was dealing with the issues of race relations The Spirit is the divine breath of God that commissions Jesus for the redemption of all ethnicities The Spirit is involved in the maternal birth of all ethnic members who are in the family of God The Spirit draws all people despite their ethnic lineage and heritage And the Spirit is actively involved as an advocate for the minoritized community undergoing synagogue violence Will the members of the Johannine community still hold onto ethnic ideologies of dehumanization that were prevalent of their age Can the Johannine community still have the Spirit and support ideologies of ethnic division and hate This study seeks to answer these questions

*Haunted Property* Sarah Gilbreath Ford, 2020-08-25 Winner of a 2021 South Central Modern Language Association Book Prize At the heart of America's slave system was the legal definition of people as property While property ownership is a cornerstone of the American dream the status of enslaved people supplies a contrasting American nightmare Sarah Gilbreath Ford considers how writers in works from nineteenth century slave narratives to twenty first century poetry employ gothic tools such as

ghosts and haunted houses to portray the horrors of this nightmare Haunted Property Slavery and the Gothic thus reimagines the southern gothic which has too often been simply equated with the macabre or grotesque and then dismissed as regional Although literary critics have argued that the American gothic is driven by the nation's history of racial injustice what is missing in this critical conversation is the key role of property Ford argues that out of all of slavery's perils the definition of people as property is the central impetus for haunting because it allows the perpetration of all other terrors Property becomes the engine for the white accumulation of wealth and power fueled by the destruction of black personhood Specters often linger however to claim title and Ford argues that haunting can be a bid for property ownership Through examining works by Harriet Jacobs Hannah Crafts Mark Twain Herman Melville Sherley Anne Williams William Faulkner Eudora Welty Toni Morrison Octavia Butler and Natasha Trethewey Ford reveals how writers can use the gothic to combat legal possession with spectral possession
