Xavier Vila Moreno, Vanessa Bretxa, 2014-12-05 In today's increasingly interconnected knowledge based world language policy in higher education is rapidly becoming a crucial area for all societies aiming to play a part in the global economy The challenge is double faceted how can universities retain their crucial role of creating the intellectual elites who are indispensable for the running of national affairs and at the same time prepare their best educated citizens for competition in a global market To what extent is English really pushing other languages out of the academic environment Drawing on the experience of several medium sized language communities this volume provides the reader with some important insights into how language policies can be successfully implemented The different sociolinguistic contexts under scrutiny offer an invaluable comparative standpoint to understand what position can or could be occupied by each language at the level of higher education *Guide to Sources for Agricultural and Biological Research* J. Patents could officially be registered From then on companies research institutions and individuals are able to obtain not only a patent title with immediate effect in the participating EU Member States but also a court decision on infringement or validity of a European or Unitary Patent with immediate effect in all the participating Member States The authors of this book one being a leading Belgian IP lawyer who had a hand in the legal texts of the Unitary Patent and the other being a reputed Belgian intellectual property appeal judge who is currently part time UPC judge at the local division in Brussels were the first in 2013 to publish an introduction to the Unitary Patent and the Unified Patent Court In 2017 they published the first edition of the current book In this second edition of the book they now present a comprehensive description of all aspects of this new patent and enforcement system This book not only describes in detail all the provisions regarding the new patent and the new court but also explains the history and the rationale behind certain choices This book unravels all legal texts regarding the Unitary Patent and the Unified Patent Court including the Rules of Procedure and all other Rules governing the Unitary Patent and the Unified Patent Court This book also includes flowcharts summarizing the important phases of the proceedings before the Unified Patent Court For its deeply informed insights into the practical functioning of this revolutionary new patent and litigation system this extraordinary book is a must have on the bookshelf of anyone involved or interested in European patenting
