Houses in the Rainforest Roy Richard Grinker, 2023-04-28 This is the first ethnographic study of the farmers and foragers of northeastern Zaire since Colin Turnbull's classic works of the 1960s Roy Richard Grinker lived for nearly two years among the Lese farmers and their long term partners the Efe Pygmies learned their languages and gained unique insights into their complex social relations and ethnic identities By showing how political organization is structured by ethnic and gender relations in the Lese house Grinker challenges previous views of the Lese and Efe and other farmer forager societies as well as the conventional anthropological boundary between domestic and political contexts This is the first ethnographic study of the farmers and foragers of northeastern Zaire since Colin Turnbull's classic works of the 1960s Roy Richard Grinker lived for nearly two years among the Lese farmers and their long term partners the Efe Pygmies *The House in the Rainforest* Sophie Masson, 1983

**A Death in the Rainforest** Don Kulick, 2019-06-18 Perhaps the finest and most profound account of ethnographic fieldwork and discovery that has ever entered the anthropological literature The Wall Street Journal If you want to experience a profoundly different culture without the exhausting travel to say nothing of the cost this is an excellent choice The Washington Post As a young anthropologist Don Kulick went to the tiny village of Gapun in New Guinea to document the death of the native language Tayap He arrived knowing that you can't study a language without understanding the daily lives of the people who speak it how they talk to their children how they argue how they gossip how they joke Over the course of thirty years he returned again and again to document Tayap before it disappeared entirely and he found himself inexorably drawn into their world and implicated in their destiny Kulick wanted to tell the story of Gapuners one that went beyond the particulars and uses of their language that took full stock of their vanishing culture This book takes us inside the village as he came to know it revealing what it is like to live in a difficult to get to village of two hundred people carved out like a cleft in the middle of a tropical rainforest But *A Death in the Rainforest* is also an illuminating look at the impact of Western culture on the farthest reaches of the globe and the story of why this anthropologist realized finally that he had to give up his study of this language and this village An engaging deeply perceptive and brilliant interrogation of what it means to study a culture *A Death in the Rainforest* takes readers into a world that endures in the face of massive changes one that is on the verge of disappearing forever
