## House Names Around The World:

**House Names Around the World** Joyce C. Miles,1973      *The Oxford Handbook of Names and Naming* Carole Hough,2016-05-03 In this handbook scholars from around the world offer an up to date account of the state of the art in different areas of onomastics in a format that is both useful to specialists in related fields and accessible to the general reader Since Ancient Greece names have been regarded as central to the study of language and this has continued to be a major theme of both philosophical and linguistic enquiry throughout the history of Western thought The investigation of name origins is more recent as is the study of names in literature Relatively new is the study of names in society which draws on techniques from sociolinguistics and has gradually been gathering momentum over the last few decades The structure of this volume reflects the emergence of the main branches of name studies in roughly chronological order The first Part focuses on name theory and outlines key issues about the role of names in language focusing on grammar meaning and discourse Parts II and III deal with the study of place names and personal names respectively while Part IV outlines contrasting approaches to the study of names in literature with case studies from different languages and time periods Part V explores the field of socio onomastics with chapters relating to the names of people places and commercial products Part VI then examines the interdisciplinary nature of name studies before the concluding Part presents a selection of animate and inanimate referents ranging from aircraft to animals and explains the naming strategies adopted for them      *Critical Toponymies* Jani Vuolteenaho,2017-03-02 While place names have long been studied by a few devoted specialists approaches to them have been traditionally empiricist and uncritical in character This book brings together recent works that conceptualize the hegemonic and contested practices of geographical naming The contributors guide the reader into struggles over toponymy in a multitude of national and local contexts across Europe North America New Zealand Asia and Africa In a ground breaking and multidisciplinary fashion this volume illuminates the key role of naming in the colonial silencing of indigenous cultures canonization of nationalistic ideals into nomenclature of cities and topographic maps as well as the formation of more or less fluid forms of postcolonial and urban identities      **The Guinness Book of Names** Leslie Dunkling,1974      **Year Book** Merchants' Association of New York,1920      **The Political Life of Urban Streetscapes** Reuben Rose-Redwood,Derek Alderman,Maoz Azaryahu,2017-07-06 Streetscapes are part of the taken for granted spaces of everyday urban life yet they are also contested arenas in which struggles over identity memory and place shape the social production of urban space This book examines the role that street naming has played in the political life of urban streetscapes in both historical and contemporary cities The renaming of streets and remaking of urban commemorative landscapes have long been key strategies that different political regimes have employed to legitimize spatial assertions of sovereign authority ideological hegemony and symbolic power Over the past few decades a rich body of critical scholarship has explored the politics of urban toponymy and the present collection brings together the works of geographers

anthropologists historians linguists planners and political scientists to examine the power of street naming as an urban place making practice Covering a wide range of case studies from cities in Europe North America Sub Saharan Africa and Asia the contributions to this volume illustrate how the naming of streets has been instrumental to the reshaping of urban spatial imaginaries and the cultural politics of place Naming Africans Oyèrónké Oyěwùmí, Hewan Girma, 2023-06-08 Focusing on the epistemic value of African names this edited collection is based on the premise that personal names constitute valuable sources of historical and ethnographic information and help to unveil endogenous forms of knowledge The chapters assembled here document and analyze personal names and naming practices in a slew of African societies on the geographically vast and ethnically diverse continent including contributions on the naming practices in Angola Cameroon Ethiopia Ghana Kenya Namibia Nigeria South Africa and Uganda The contributors to this anthology are scholars from different African language communities who investigate names and naming practices diachronically Taken together their work offers a comparative focus that juxtaposes different African cultures and reveals the historical and epistemic significance of given names *Your Astrology Guide 2008* Rick Levine, Jeff Jawer, 2007-09 Covers forecast for all twelve signs offering advice on love career money health home travel and personal and spiritual growth *A House Through Time* David Olusoga, Melanie Backe-Hansen, 2020-05-14 A very readable history of the British way of life viewed through its homes Choice Magazine In recent years house histories have become the new frontier of popular participatory history People many of whom have already embarked upon that great adventure of genealogical research and who have encountered their ancestors in the archives and uncovered family secrets are now turning to the secrets contained within the four walls of their homes and in doing so finding a direct link to earlier generations And it is ordinary homes not grand public buildings or the mansions of the rich that have all the best stories As with the television series *A House Through Time* offers readers not only the tools to explore the histories of their own homes but also a vividly readable history of the British city the forces of industry disease mass transportation crime and class The rises and falls the shifts in the fortunes of neighbourhoods and whole cities are here tracing the often surprising journey one single house can take from an elegant dwelling in a fashionable district to a tenement for society's rejects Packed with remarkable human stories David Olusoga and Melanie Backe Hansen give us a phenomenal insight into living history a history we can see every day on the streets where we live And it reminds us that it is at home that we are truly ourselves It is there that the honest face of life can be seen At home behind closed doors and drawn curtains we live out our inner lives and family lives International Encyclopedia of Human Geography, 2019-11-29 International Encyclopedia of Human Geography Second Edition Fourteen Volume Set embraces diversity by design and captures the ways in which humans share places and view differences based on gender race nationality location and other factors in other words the things that make people and places different Questions of for example politics economics race relations and migration are introduced and discussed through a geographical lens This updated edition will assist

*Mieres Reborn* A. F. Robertson,2012-04-09 *Mieres Reborn* reveals how patient observation and an analysis of one small community have much to tell us about human progress more generally Not long ago Mieres a village in the eastern foothills of the Pyrenees seemed destined to die As in countless thousands of rural communities around the world young people in Mieres over the years have moved to the towns and cities leaving behind abandoned fields and meadows derelict houses and their aging and disconsolate parents and grandparents Close observation of this social microcosm over two decades reveals the capacity of ordinary people in a locality to reinvent themselves reconstruct relationships with the wider world and confront new threats to their collective survival A F Robertson describes how the determination that Mieres should survive is most evident in a vigorous round of fiestas fairs and other public events in which natives exiles and newcomers work to create a lively sense of belonging Since the 1980s Mieres has been enlivened

by a reverse flow of migrants from the cities new settlers who have brought an infusion of youth to the community devised new livelihoods revitalized the village school energized the native Mierencs and provided the impetus for a rediscovery of historical roots and political identity The regeneration of life in the countryside in part a reaction to urban expansion and decay is a global phenomenon of increasing political economic and social significance     *The Oxford Dictionary of Family Names in Britain and Ireland* Patrick Hanks,Richard Coates,Peter McClure,2016-11-17 Containing entries for more than 45 000 English Scottish Welsh Irish Cornish and immigrant surnames The Oxford Dictionary of Family Names in Britain and Ireland is the ultimate reference work on family names of the UK The Dictionary includes every surname that currently has more than 100 bearers Each entry contains lists of variant spellings of the name an explanation of its origins including the etymology lists of early bearers showing evidence for formation and continuity from the date of formation down to the 19th century geographical distribution and where relevant genealogical and bibliographical notes making this a fully comprehensive work on family names This authoritative guide also includes an introductory essay explaining the historical background formation and typology of surnames and a guide to surnames research and family history research Additional material also includes a list of published and unpublished lists of surnames from the Middle Ages to the present day
