House Of Atreus Abortion As A Human Rights Issue

Arthur James Wells

House Of Atreus Abortion As A Human Rights Issue:

The House of Atreus James F. Bohan, 1999-02-28 Using clear language and unconventional examples this book argues that abortion is not merely a medical or religious issue but one that goes to the very heart of our conception of human rights. It explains that the unborn are living and human beings that all human beings have a right to life and that denying the right to life of some weakens the right to life of all. Bohan supports his thesis by pointing to human rights treaties the Declaration of Independence and the words of such luminaries as Albert Schweitzer Frederick Douglass Pearl S. Buck Elie Wiesel and Martin Luther King Jr. He also examines the connection between abortion and the recent push to legalize assisted suicide and euthanasia. Bohan explains why the Greek myth of the House of Atreus is an apt metaphor for our abortion minded society that shows the distinction between abortion and infanticide is arbitrary. While the Supreme Court holds that the 14th Amendment does not protect the lives of fetuses at the time the Amendment was drafted American scholars were comparing the mental capacity of Black people to that of a white fetus. Bohan also explores the common aspects involved in the destruction of the unborn and the destruction of Jews by the Nazis: the roles of dehumanization euphemism the medical community science idealism and humane killing among others.

Architects of the Culture of Death

Benjamin Wiker, Donald Demarco, 2009-09-03 The phrase the Culture of Death is bandied about as a catch all term that covers abortion euthanasia and other attacks on the sanctity of life. In *Architects of the Culture of Death* authors Donald DeMarco and Benjamin Wiker expose the Culture of Death as an intentional and malevolent ideology promoted by influential thinkers who specifically attack Christian morality's core belief in the sanctity of human life and the existence of man's immortal soul. In scholarly yet reader friendly prose DeMarco and Wiker examine the roots of the Culture of Death by introducing 23 of its architects including Ayn Rand Charles Darwin Karl Marx Jean Paul Sartre Alfred Kinsey Margaret Sanger Jack Kevorkian and Peter Singer. Still this is not a book without hope. If the Culture of Death rests on a fragmented view of the person and an eclipse of God the future of the Culture of Life relies on an understanding and restoration of the human being as a person and the rediscovery of a benevolent God. The personalism of John Paul II is an illuminating thread that runs through *Architects* serving as a hopeful antidote.

The Abortion Rights Movement Meghan Powers, 2006 Discusses the pro choice movement in the United States.

Publishing,Bowker,1999-09 **The Cumulative Book Index** ,1999 Birth or Abortion? Kate Maloy,Margaret Jones
Patterson,2013-11-09 Many Americans who believe that women should be able to choose when and whether to bear a child
are also deeply disturbed by the one and one half million abortions performed each year in this country They regard these
concerns as irreconcilable because the topic of abortion until now has been framed as a black or white conflict between the
rights of the mother and those of the fetus The very idea of compromise or common cause draws scorn among factions How
after all can the political debate about abortion permit any more options than pregnancy itself does This extraordinary book
tells fifty stories about women from strikingly diverse backgrounds who have had to choose whether to give birth or to abort
About half of these women carried their pregnancies to term the others ended them Their decisions arose from heartfelt
struggles expressed in terms completely different from those that prevail in the public debate Some women who abhor
abortion ended up choosing that option others who are prochoice opted for birth or had abortions that in some instances
caused them sorrow or regret The outcome of nearly every private dilemma hung on practical and emotional matters the
quality of the connection between the woman and the man the financial resources available the number of children the
woman already had the state of her self esteem and the health of the fetus rather than on the weighing of rights These
insightful and eloquent authors hold up a mirror to our society and show us that we have pitted mother against fetus They
ask whether we have emphasized the rights of individuals at the expense of human responsibility and care This most
intellectually challenging yet sensitive book transcends all other books on this topic The complexity and rich nuances of the
stories it tells permits us to see this controversy with new eyes These stories woven together are our nation s story one that
has never been told by the long and angry debate Once we learn to hear these women we may also learn to listen to one
another and work toward common values and moral responsibility *Abortion Rights and Fetal "personhood"* Edd
