House Of Bone:

Bulletin Geological Survey (U.S.),1942 The Bone House Stephen R. Lawhead,2012-05-14 Kit Livingstone is on the run hunted by the Burley Men as he tries to piece together a map that reveals the hidden dimensions of the multiverse Kit however is not the only one traveling through time and space to influence the future of the future *The Development of Neolithic House Societies in Orkney* Colin Richards,Richard Jones,2016-04-30 Considering that Orkney is a group of relatively small islands lying off the northeast coast of the Scottish mainland its wealth of Neolithic archaeology is truly extraordinary An assortment of houses chambered cairns stone circles standing stones and passage graves provides an unusually comprehensive range of archaeological and architectural contexts Yet in the early 1990s there was a noticeable imbalance between 4th and 3rd millennium cal BC evidence with house structures and villages being well represented in the latter but minimally in the former As elsewhere in the British Isles the archaeological visibility of the 4th millennium cal BC in Orkney tends to be dominated by the monumental presence of chambered cairns or tombs In the 1970s Claude L vi Strauss conceived of a form of social organization based upon the house soci t s maisons in order to provide a classification for social groups that appeared not to conform to established anthropological kinship structures In this approach the anchor point is the house understood as a conceptual resource that is a consequence of a strategy of constructing and legitimizing identities under ever shifting social conditions Drawing on the results of an extensive program of fieldwork in the Bay of Firth Mainland Orkney the text explores the idea that the physical appearance of the house is a potent resource for materializing the dichotomous alliance and descent principles apparent in the archaeological evidence for the early and later Neolithic of Orkney It argues that some of the insights made by L vi Strauss in his basic formulation of soci t s maisons are extremely relevant to interpreting the archaeological evidence and providing the parameters for a social narrative of the material changes occurring in Orkney between the 4th and 2nd millennia cal BC The major excavations undertaken during the Cuween Wideford Landscape Project provided an unprecedented depth and variety of evidence for Neolithic occupation bridging the gap between domestic and ceremonial architecture and form exploring the transition from wood to stone and relationships between the living and the dead and the role of material culture The results are described and discussed in detail here enabling tracing of the development and fragmentation of soci t s maisons over a 1500 year period of Northern Isles prehistory A Norse Settlement in the Outer Hebrides Niall Sharples,2019-12-19 The settlement at Bornais in the Western Isles of Scotland is one of the largest rural settlements known from the Norse period in Britain It spans the period from the fifth to the fifteenth century AD when the Atlantic seaboard was subject to drastic changes The islands were systematically ravaged by Viking raiders and then colonised by Norse settlers In the following centuries the islanders were central to the emergence of the Kingdom of Man and the Isles played a crucial role in the development of the Lordship of the Isles and were finally assimilated into the Kingdom of Scotland This volume explores the stratigraphic sequence uncovered

by the excavation of Bornais mounds 2 and 2A The excavation of mound 2 revealed a sequence of high status buildings that span the Norse occupation of the settlement One of these houses constructed at the end of the eleventh century AD was a well preserved bow walled longhouse and the careful excavation and detailed recording of the floor layers has revealed a wealth of finds that provides invaluable insight into the activities taking place in this building The final house in this sequence is very different in form and use and clearly indicates the increasing Scottish influence on the region at the beginning of the thirteenth century The excavation of mound 2A provides an insight into the less prestigious areas of the settlement and contributes a significant amount of evidence on the settlement economy The area was initially cultivated before it became a settlement local and throughout its life a focus on agricultural activities such as grain drying and processing appears to have been important In the thirteenth century the mound was occupied by a craftsman who produced composite combs gaming pieces and simple tools The evidence presented in this volume makes a major contribution to the understanding of Norse Scotland and the colonisation of the North Atlantic in a period of dramatic transformations **Spirit Leveling in Texas** John George Staack,1942 *The Register of Electors Entitled to Vote at Elections of Members to Serve in Parliament for the Borough of Maidstone, in the County of Kent* Maidstone (England). Corporation,1845 **Annual Report of the Pennsylvania Department of Agriculture** Pennsylvania. Dept. of Agriculture,1903 **Annual Reports of Officers, Boards and Institutions of the Commonwealth of Virginia** Virginia,1896 *Wright's Nottingham Directory and Borough Register for 1854* C. N. Wright,1861 **The Complete Old English Poems** ,2017-01-31 From the riddling song of a bawdy onion that moves between kitchen and bedroom to the thrilling account of Beowulf's battle with a treasure hoarding dragon from the heart rending lament of a lone castaway to the embodied speech of the cross upon which Christ was crucified from the anxiety of Eve who carries a sumptuous secret in her hands And a tempting truth hidden in her heart to the trust of Noah who builds a sea floater a wave walking Ocean home with rooms for all creatures the world of the Anglo Saxon poets is a place of harshness beauty and wonder Now for the first time the entire Old English poetic corpus including poems and fragments discovered only within the past fifty years is rendered into modern strong stress alliterative verse in a masterful translation by Craig Williamson Accompanied by an introduction by noted medievalist Tom Shippey on the literary scope and vision of these timeless poems and Williamson's own introductions to the individual works and his essay on translating Old English poetry the texts transport us back to the medieval scriptorium or ancient mead hall to share a herdsman's recounting of the story of the world's creation or a people's sorrow at the death of a beloved king to be present at the clash of battle or to puzzle over the sacred and profane answers to riddles posed over a thousand years ago This is poetry as stunning in its vitality as it is true to its sources Were Williamson's idiom not so modern we might think that the Anglo Saxon poets had taken up the lyre again and begun to sing once more **Ride the Man Down** Bill Brooks,2017-11-28 John Henry Cole working as a deputy US marshal out of Judge Isaac Parker's court in Fort Smith Arkansas was on

assignment in the Indian Nations when he was shot and seriously injured Now fifteen years later employed as a deputy for Judge Roy Bean in Texas Cole receives a personal summons from Judge Parker to appear in his court within thirty days Cole isn't inclined to go but he knows whatever's on Judge Parker's mind is serious and decides he has to go

"Beowulf" and Other Old English Poems Craig Williamson, 2011-06-30 The best known literary achievement of Anglo Saxon England Beowulf is a poem concerned with monsters and heroes treasure and transience feuds and fidelity Composed sometime between 500 and 1000 C E and surviving in a single manuscript it is at once immediately accessible and forever mysterious And in Craig Williamson's splendid new version this often translated work may well have found its most compelling modern English interpreter Williamson's Beowulf appears alongside his translations of many of the major works written by Anglo Saxon poets including the elegies The Wanderer and The Seafarer the heroic Battle of Maldon the visionary Dream of the Rood the mysterious and heart breaking Wulf and Eadwacer and a generous sampling of the Exeter Book riddles

Accompanied by a foreword by noted medievalist Tom Shippey on Anglo Saxon history culture and archaeology and Williamson's introductions to the individual poems as well as his essay on translating Old English the texts transport us back to the medieval scriptorium or ancient mead hall to share an exile's lament or herdsman's recounting of the story of the world's creation From the riddling song of a bawdy onion that moves between kitchen and bedroom to the thrilling account of Beowulf's battle with a treasure hoarding dragon the world becomes a place of rare wonder in Williamson's lines Were his idiom not so modern we might almost think the Anglo Saxon poets had taken up the lyre again and begun to sing after a silence of a thousand years

Swifterbant Stones Izabel Devriendt, 2014-09-18 In this research the stone and flint artefacts of the site Swifterbant are analysed Attention is focussed on the Neolithic occupation phase of the prehistoric creek system c 4300 4000 cal BC where archaeological traces were found on several levee and river dune sites This study shows that there is a larger variability in site types than originally presumed It is established that these sites are all part of one settlement system in which they all had a different function This thesis comprises a monograph on the research history of the site and the different aspects of the lithic research such as typological analysis technological attribute analysis raw material analysis and use wear analysis in combination with a detailed inventory catalogue All this leads to new insights into the use of lithic artefacts The importance of stone tool morphology the selective gathering of stone tool blanks or the use of two different flint production sequences are but a few of these interesting aspects Other topics concern tool function mobility raw material access and use cultural markers and social identity In combining the results from this research with that of other Swifterbant sites a better understanding of the different aspects of prehistoric stone and flint industries is gained
