*Wider Boundaries of Daring* Di Brandt, Barbara Godard, 2011-09-08 *Wider Boundaries of Daring* The Modernist Impulse in Canadian Women s Poetry announces a bold revision of the genealogy of Canadian literary modernism by foregrounding the originary and exemplary contribution of women poets critics cultural activists and experimental prose writers Dorothy Livesay P K Page Miriam Waddington Phyllis Webb Elizabeth Brewster Jay Macpherson Anne Wilkinson Anne Marriott and Elizabeth Smart In the introduction editor Di Brandt champions particularly the achievements of Livesay Page and Webb in setting the

visionary parameters of Canadian and international literary modernism The writers profiled in *Wider Boundaries of Daring* are the real founders of Canadian modernism the contributors of this volume argue both for their innovative aesthetic and literary experiments and for their extensive cultural activism They founded literary magazines and writers groups wrote newspaper columns and created a new forum for intellectual debate on public radio At the same time they led busy lives as wives and mothers social workers and teachers editors and critics and competed successfully with their male contemporaries in the public arena in an era when women were not generally encouraged to hold professional positions or pursue public careers The acknowledgement of these writers formidable contribution to the development of modernism in Canada and along with it wider boundaries of daring for women and other people previously disadvantaged by racial ethnic or religious identifications has profound implications for the way we read and understand Canadian literary and cultural history and for the shape of both national and international modernisms

*Race, Trauma, and Home in the Novels of Toni Morrison* Evelyn Jaffe Schreiber, 2010-12-01 In this first interdisciplinary study of all nine of Nobel Laureate Toni Morrison's novels Evelyn Jaffe Schreiber investigates how the communal and personal trauma of slavery embedded in the bodies and minds of its victims lives on through successive generations of African Americans Approaching trauma from several cutting edge theoretical perspectives psychoanalytic neurobiological and cultural and social theories Schreiber analyzes the lasting effects of slavery as depicted in Morrison's work and considers the almost insurmountable task of recovering from trauma to gain subjectivity With an innovative application of neuroscience to literary criticism Schreiber explains how trauma whether initiated by physical abuse dehumanization discrimination exclusion or abandonment becomes embedded in both psychic and bodily circuits Slavery and its legacy of cultural rejection create trauma on individual familial and community levels and parents unwittingly transmit their trauma to their children through repetition of their bodily stored experiences Concepts of home whether a physical place community or relationship are reconstructed through memory to provide a positive self and serve as a healing space for Morrison's characters Remembering and retelling trauma within a supportive community enables trauma victims to move forward and attain a meaningful subjectivity and selfhood Through careful analysis of each novel Schreiber traces the success or failure of Morrison's characters to build or rebuild a cohesive self starting with slavery and the initial postslavery generation and continuing through the twentieth century with a special focus on the effects of inherited trauma on children When characters attempt to escape trauma through physical relocation or to project their pain onto others through aggressive behavior or scapegoating the development of selfhood falters Only when trauma is confronted through verbalization and challenged with reparative images of home can memories of a positive self overcome the pain of past experiences and cultural rejection While the cultural trauma of slavery can never truly disappear Schreiber argues that memories that reconstruct a positive self whether created by people relationships a physical place or a concept help Morrison's characters to establish subjectivity A groundbreaking interdisciplinary work Schreiber's book unites

psychoanalytic neurobiological and social theories into a full and richly textured analysis of trauma and the possibility of healing in Morrison's novels
