## House Of The Sun:

**House of the Sun** Meira Chand, 2012-07-17 Bhai Sahib examined Mrs Hathiramani's horoscope. He sat cross-legged on the stone floor in a once white vest and dhoti. What is it, Mrs Hathiramani asked, leaning forward. She was alarmed not so much at what might be written in the horoscope but at the change in Bhai Sahib's expression. Mrs Hathiramani is not the only soul in the town of Sadhbela to be unsettled by the coming of Saturn into the House of the Sun. As Meira Chand's tale unfolds, various other townspeople will meet with struggles and surprises, turmoil and cruelty, ill fate and good fortune. Splendidly successful with its unexpected vein of humour and skilful intermeshing of many lives, TLS Vibrant's emotional, crowded, A colourful soap opera. Sunday Times. A sensitively crafted exploration of a community. Independent on Sunday. **A House in the Sun** Daniel A. Barber, 2016-10-13 A House in the Sun describes a number of experiments in solar house heating in American architectural, engineering, political, economic and corporate contexts from the beginning of World War II until the late 1950s. Houses were built across the Midwest, Northeast and Southwestern United States and also proposed for sites in India, South Africa and Morocco. These experiments developed in parallel to transformations in the discussion of modern architecture, relying on new materials and design ideas for both energy efficiency and claims to cultural relevance. Architects were among the myriad cultural and scientific actors to see the solar house as an important, designed element of the American future. These experiments also developed as part of a wider analysis of the globe as an interconnected geophysical system. Perceived resource limitations in the immediate postwar period led to new understandings of the relationship between energy technology and economy. The solar house, both as a charged object in the milieu of suburban expansion and as a means to raise the standard of living in developing economies, became an important site for social, technological and design experimentation. This led to new forms of expertise in architecture and other professions. Daniel Barber argues that this mid-century interest in solar energy was one of the first episodes in which resource limitations were seen as an opportunity for design to attain new relevance for potential social and cultural transformations. Furthermore, the solar discussion established both an intellectual framework and a funding structure for the articulation of and response to global environmental concerns in subsequent decades. In presenting evidence of resource tensions at the beginning of the Cold War, the book offers a new perspective on the histories of architecture, technology and environmentalism, one more fully entangled with the often competing dynamics of geopolitical and geophysical pressures. Shadowrun Legends: House of the Sun Nigel Findley, THE BRIGHTER THE LIGHT Dirk Montgomery, former Lone Star cop turned shadowrunner, knows the dark byways of Seattle and the city of Cheyenne. He knows when to take chances and when to take cover. But when a megacorporate exec demands payment of an old debt, Dirk finds himself where the familiar rules don't apply anymore. THE DARKER THE SHADOWS The Kingdom of Hawaii is a tropical playground with a sinister underside. Dirk must navigate its treacherous paths as he tries to stay one step ahead of all the factions battling to control the islands: the megacorps, the
