Talking to the Shaman Within Manfred F. R. Kets de Vries, 2014-06-17 Everything about hunting leads inexorably to death the challenge for all hunters is how to justify the kill But the hunter's emotional response to the kill is immensely complex Hunters respect and even love the animals they kill Talking to the Shaman Within Musings on Hunting addresses this paradox head on dissecting the emotional and psychological response of the hunter to his quarry and more broadly his surroundings The climax of the chase brings the hunter closer to realizing the nature intelligence that modern

civilization has suppressed Through his investigation of the instinct that lies beneath the urge to hunt author Manfred F R Kets de Vries reveals something basic and fundamental about human behavior The hunting instinct is hardwired into the human psyche and for all our sophistication and urbanization it exerts a powerful influence over the way we conduct our lives even to this day Talking to the Shaman Within draws on depictions of hunting in art and literature throughout the ages exploring changing trends in human social norms with frequent reference to literature art film television and music It unites a dispassionate academic hypothesis with an engaging and colourful narrative into which Kets de Vries weaves stories from his own life as both an academic and a hunter **Turkey World** ,1927 **Celebrate with Books** Rosanne
