[The Breakfast Club](#) Elissa Nelson, 2019-03-28 The Breakfast Club is a quintessential teen film This book analyzes how multiple factors coalesced to solidify the status of The Breakfast Club as one of the most emblematic films of the 1980s and one of the most definitive teen films of the genre The film brings together genre defining elements the conflicts between generations and peer pressure archetypal characters and breaking down stereotypes the celebration and survival of adolescence and the importance of this time in life on the coming of age process and became a significant moment for John Hughes as an auteur

and for teen films in the 1980s More than just embodying these elements of the genre filmmaker Hughes and the Brat Pack stars helped introduce and popularize multiple generic features that would come to be expected with the teen film formula The content of the film combined with its context of production in the middle of a boom in teen filmmaking in Hollywood Meanwhile the marketing that focused on contemporary music peer group dynamics and oppositions between Generation X and baby boomers merged with an enthusiastic reception by youth audiences Its endurance speaks to the way the film s level of importance as a critical commercial and influential film with tremendous impact has grown since its initial debut The Drive-In Guy Barefoot,2023-11-16 The Drive In meaningfully contributes to the complex picture of outdoor cinema that has been central to American culture and to a history of US cinema based on diverse viewing experiences rather than a select number of films Drive in cinemas flourished in 1950s America in some summer weeks to the extent that there were more cinemagoers outdoors than indoors Often associated with teenagers interested in the drive in as a passion pit or a venue for exploitation films accounts of the 1950s American drive in tend to emphasise their popularity with families with young children downplaying the importance of a film programme apparently limited to old low budget or independent films and characterising drive in operators as industry outsiders They retain a hold on the popular imagination The Drive In identifies the mix of generations in the drive in audience as well as accounts that articulate individual experiences from the drive in as a dating venue to a segregated space Through detailed analysis of the film industry trade press local newspapers and a range of other primary sources including archival records on cinemas and cinema circuits in Arkansas California New York State and Texas this book examines how drive ins were integrated into local communities and the film industry and reveals the importance and range of drive in programmes that were often close to that of their indoor neighbours Alien Chic Neil Badmington,2004 From The War of the Worlds Mars Attacks Mission to Mars and Independence Day Neil Badmington explores our relationship with aliens and how thinkers such as Descartes Barthes Freud Lyotard and Derrida have conceptualised what it means to be human and post human *Seeing Is Believing* Peter Biskind,2000-09-11 Seeing is Believing is a provocative shrewd witty look at the Hollywood fifties movies we all love or love to hate and the thousand subtle ways they reflect the political tensions of the decade Peter Biskind former executive editor of Premiere is one of our most astute cultural critics Here he concentrates on the films everybody saw but nobody really looked at classics like Giant On the Waterfront Rebel Without a Cause and Invasion of the Body Snatchers and shows us how movies that appear to be politically innocent in fact carry an ideological burden As we see organization men and rugged individualists housewives and career women cops and doctors teen angels and teenage werewolves fight it out across the screen from suburbia to the farthest reaches of the cosmos we understand that we have been watching one long dispute about how to be a man a woman an American the conflicts of the period in action A work of brilliant analysis and meticulous conception Seeing Is Believing offers fascinating insights into how to read films of any era *Ghouls, Gimmicks, and Gold* Kevin Heffernan,2004-03-25 The

history of horror films and the horror film industry in the 1950s and 1960s American International Pictures Rob Craig, 2019-02-15 American International Pictures was in many ways the missing link between big budget Hollywood studios poverty row B movie factories and low rent exploitation movie distributors AIP first targeted teen audiences with science fiction horror and fantasy but soon grew to encompass many genres and demographics at times it was indistinguishable from many of the major studios From Abby to Zontar this filmography lists more than 800 feature films television series and TV specials by AIP and its partners and subsidiaries Special attention is given to American International Television the TV arm of AIP and an appendix lists the complete AITV catalog The author also discusses films produced by founders James H Nicholson and Samuel Z Arkoff after they left the company **At a Theater or Drive-in Near You** Randall Clark, 2013-12-17 Millions of Americans have been thrilled scared titillated and shocked by exploitation movies low budget films with many scenes of sex violence and other potentially lurid elements The term derives from the fact that promoters of such films exploit the contents in advertising that plays up the sexual or violent aspects of the films This is the first comprehensive study of the American exploitation film to be published It discusses five distinct genres the teen movie the sexploitation film the martial arts movie the blaxploitation film and the lawbreaker picture Contained within these genres are many popular American film types including beach movies biker pictures and women s prison movies The study provides a history and sociopolitical analysis of each genre focusing on significant films in those genres It also discusses the economics of exploitation films and their place in the motion picture industry the development of drive in theaters the significance of the teenage audience and the effect of the videocassette Finally the book applies major film and cultural theories to establish an aesthetic for evaluating the exploitation film and to explore the relationship between film and audience **A Research Guide to Film and Television Music in the United States** Jeannie G. Pool, H. Stephen Wright, 2011 Unlike sources for traditional music those for film and television music are often difficult to locate and do not follow the patterns that researchers are trained to identify Although there have been several self described introductions to the field and articles that summarize the problems and state of this research no resource gathers all the basic information In this volume Jeannie Gayle Pool and H Stephen Wright address the difficulties that scholars encounter when conducting research on film and television music Intended as a guide for those navigating the complex world of film and television music research this book presents a detailed description of primary sources and explains how to find and interpret them The authors tackle the problems of determining film score authorship and working with recordings of film music A bibliography summarizes the major works and trends in film music research and identifies the most important resources in the field Up to date information about prominent collections of film music sources and other research materials is also included Designed to clarify the nature of source materials and how they are generated A Research Guide to Film and Television Music in the United States provides clear signposts for scholars and highlights opportunities for further investigation Book jacket Elvis Cinema and Popular

Culture Douglas Brode, 2014-12-09 Though Elvis Presley's music is widely credited as starting a sea change in American popular culture his films are often dismissed as superficial. Beyond the formulaic plotlines and the increasingly weaker songs however the films are rich with resonance to the changing times in which they were produced roughly 1955-1970. They were also a means by which Elvis communicated deeply felt autobiographical material to his fan base although in the guise of lighthearted escapist fare. This work takes a new stand maintaining that Elvis's 31 Hollywood features and two documentaries reveal a profound statement from the star and auteur. Analyzing each film in detail and exploring the body of work as a whole Brode reveals the Elvis persona as a contemporary Candide attempting to navigate an ever changing social and political landscape.

Soundtracks Stewart R. Craggs, 2019-05-03 First published in 1998 music scored for film has only relatively recently received the critical attention which it merits. Many composers in the twentieth century have written works for films or documentaries a number feeling that this aspect of their output has been undervalued. This dictionary complements other studies which have appeared in recent years which look at the technical and theoretical issues concerned with film music composition. Arranged alphabetically by composer the volume comprises over 500 entries covering all nationalities. Each entry includes very brief biographical information on the composer followed by a list of the films with dates for which he or she has composed. Details of recordings are also given. The dictionary's international coverage ensures that it will become a standard reference work for all those interested in the history of twentieth century music and the development of film.
