Hostage to History Christopher Hitchens, 1989 *Hostage to History* Christopher Hitchens, 1989 *Cyprus 1974: Anatomy of an Invasion* Vassilis Fouskas, William Mallinson, 2024-11-13 Conventional wisdom and ideologies hold that responsibility for the partition of the Republic of Cyprus in the wake of Turkey s multiple advances on the island in summer 1974 rests on domestic ethnic and religious tensions between the Turks and the Greeks This book drawing on a wealth of archival material shows that this is not the case at all As the detailed report of the United Nations mediator Galo Plaza had shown in 1965 the Turks and the Greeks living on the island could easily have co existed if left alone to determine their future This did not happen The partition of the island had been inscribed in NATO s policy since the 1950s rewarding the strongest component of NATO s southern flank Turkey at the expense of Greece the weaker component The volume details the role of CIA agents in Greece and the machinations of the Greek junta of Dimitrios Ioannides to overthrow the charismatic leader of Cyprus Archbishop Makarios who had been fighting for an independent and non aligned Cyprus It also explains how the partition of Cyprus in 1974 has opened up prospects for the partition of the Aegean Sea between Greece and Turkey with Greece s eastern Aegean islands becoming NATOlands in the service of the war against Russia The volume is an essential reading for researchers and students of the history and politics of Cyprus Greece Turkey and south eastern Europe

America, Britain and the Cyprus Crisis of 1974: Calculated Conspiracy or Foreign Policy Failure? Dr. Andreas Constandinos, 2009-06-29 *America Britain and the Cyprus Crisis of 1974* examines recently released and declassified British and American government documents in order to scrutinize the roles played by both of these countries during the Cyprus crisis of 1974 It evaluates British and American aims towards Cyprus analysing in particular the roles played by British Foreign Secretary James Callaghan and US Secretary of State Dr Henry Kissinger and their respective relationships with the Cypriot Greek and Turkish governments Also the book considers Whitehall and Washington s responses to the Greek military coup the Turkish invasion the two Geneva conferences on Cyprus and the second consolidatory phase of the Turkish invasion Ultimately the book seeks to ascertain whether there exists any credible evidence to support the belief that Britain and or America were complicit in the coup against President Makarios as well as whether they colluded with Ankara in her

subsequent partition of the island **Propaganda and the Cyprus Revolt** Maria Hadjiathanasiou, 2020-05-14 During the EOKA period of Greek Cypriot revolt against British colonial rule the Greek Cypriots and the British deployed propaganda as a means of swaying allegiances both within Cyprus and on the international scene Propaganda and the Cyprus Revolt places new emphasis on the vital role propaganda played in turning the tide against British colonial control over Cyprus Examining the increase of violence and coercion during this period of revolt this book examines how the opposing sides mobilization of propaganda offered two alternative visions for the future of Cyprus that divided opinion to the ultimate detriment of British counterinsurgency efforts Detailing the deployment of propaganda by both parties across radio television and print channels the book draws upon previously unpublished archival material in order to paint a detailed picture of how the British Empire lost control over the hearts and minds of the Greek Cypriot people This study shines new light on a crucial period of Cypriot history and contributes to wider transnational debates around the use of propaganda and the end of empire This will be an essential read for students of Cyprus history and British colonial history *Language Planning in Europe* Robert Kaplan, Richard Baldauf Jr., Nkonko Kamwangamalu, 2016-04-22 This volume focuses on language planning in Cyprus Iceland and Luxembourg explaining the linguistic diversity historical and political contexts and current language situation including language in education planning the role of the media the role of religion and the roles of non indigenous languages The authors are indigenous to the situations described and draw on their experience and extensive fieldwork there The three extended case studies contained in this volume draw together the literature on each of the polities to present an overview of the existing research available while also providing new research based information The purpose of this volume is to provide an up to date overview of the language situation in each polity based on a series of key questions in the hope that this might facilitate the development of a richer theory to guide language policy and planning in other polities where similar issues may arise This book comprises case studies originally published in the journal *Current Issues in Language Planning* **Modern Conflict in the Greater Middle East** Spencer C. Tucker, 2017-04-17 This reference work covers the history of Middle East nations addressing military political diplomatic and ideological trends in each respective country and enabling readers to better understand the factors behind the crises shaping the Middle East today *Modern Conflict in the Greater Middle East A Country By Country Guide* is a concise reference for students exploring the importance of each nation state in the Middle East and their level of involvement in major conflicts in the region It supplies the broad historical background necessary for readers to understand each country s unique role in the conflicts that have characterized the region since the end of World War I The book also enables readers to grasp the various motives and ideologies that have shaped each nation s military objectives and to appreciate the political and social climates of each of these countries that propelled them into various wars The book presents a chapter by chapter discussion of the origins and impacts of war on specific Middle Eastern countries giving readers an in depth understanding of the global importance of the conflicts within the region These chapters along

with detailed timelines sidebars and primary source documents will help readers grasp the connections between individuals developments and conflicts in the Middle East and events and developments such as European imperialism World Wars I and II U S foreign policy during and after the Cold War the formation of the state of Israel Arab nationalism the emergence of the oil industry in the region and the origins of radical Islam **The Foreign Policy of the Republic of Cyprus** Zenonas

Tziarras,2022-03-16 This book examines the foreign policy of the Republic of Cyprus particularly since 2004 the year of its accession to the European Union and of the failed Annan Plan V of the United Nations which aimed to solve the decades old Cyprus Problem Scholarly work about the politics and foreign policy of the Republic of Cyprus RoC has been almost entirely analyzed through the prism of the Cyprus Problem This is not without justification since the Cyprus Problem is indeed central to the social political and economic life of Cyprus However Cyprus is located in a highly neuralgic area of historical and geopolitical importance that is more often than not characterized by rapid developments instability and insecurity Therefore the RoC s politics and foreign policy go well beyond the confines of the Cyprus Problem or so they should Although the subject of the book is not international by definition the book touches upon many regional and international dimensions that render it relevant for anyone who wants to better understand not just Cyprus but also the broader region and its importance for regional and international actors **Nurturing Peace** Fen Osler Hampson,1996 Although the book explores the roles

that other factors such as regional and systemic power relationships the terms of the settlement itself and the role of ripeness play in the success or failure of these peace settlements it concludes that success hinges more on what third parties do and do not do International Law and the Relationality of States Erdem Ertürk,2023-03-23 This book critically engages with theories of the recognition of states under international law Demonstrating that recognition is a constitutive relation that is imperative for the construction of international subjects the book argues that prevalent theories of recognition fall short of accommodating this imperative The book traces the source of this shortcoming to Vattel s notion of absolute sovereignty A paradox pertains to this notion as absolutely independent states seemingly come into being in a community which sets the law that determines statehood The book shows how this paradox is reproduced in constitutive theorists idea of recognition as a sovereign gesture of consent and declarative theorists perception that states can come into being on a singular basis without any need for interaction This necessitates a rethinking of the role of recognition in a way that circumvents the problems generated by the notion of absolute independence whilst accommodating the relational element of coming into being To achieve this purpose the book draws upon Hegel s theory of recognition supplementing it with Bataille s and Derrida s critical readings of Hegel s thought In this respect the book departs from the restrictive economy of recognition that constantly recreates a paradoxical perception of sovereignty elaborating a more general economy of recognition that accommodates the notion of subjects in flux This critical engagement with a key notion in international law will appeal to legal and political theorists as well as scholars and students in international relations *The Europeanization*

of Cyprus A. Sepos, 2008-10-08 Drawing from rationalist and constructivist approaches The Europeanization of Cyprus identifies mechanisms and processes of Europeanization and examines their impact on the following key dimensions of Cyprus executive legislative and judicial authorities political parties and public opinion economy agriculture and regional policy foreign policy and justice and home affairs It also assesses how the territorial and temporal dimensions of the country have mediated the impact of these mechanisms and processes and ultimately shaped the country's Europeanization experience The book provides a deep understanding of the relations between Cyprus and the EU while also enhancing our theoretical understanding of the impact of Europeanization on states whether inside or outside the EU

Peace Formation and Political Order in Conflict Affected Societies Oliver P. Richmond, 2016-02-23 As Oliver Richmond explains there is a level to peacemaking that operates in the realm of dialogue declarations symbols and rituals But after all this pomp and circumstance is where the reality of security development politics economics identity and culture figure in conflict cooperation and reconciliation are at their most vivid at the local scale Thus local peace operations are crucial to maintaining order on the ground even in the most violent contexts However as Richmond argues such local capacity to build peace from the inside is generally left unrecognized and it has been largely ignored in the policy and scholarly literature on peacebuilding In Peace and Political Order Richmond looks at peace processes as they scale up from local to transnational efforts to consider how to build a lasting and productive peace He takes a comparative and expansive look at peace efforts in conflict situations in countries around the world to consider what local voices might suggest about the inadequacy of peace processes engineered at the international level As well he explores how local workers act to modify or resist peace processes headed by international NGOs and to what degree local actors have enjoyed success in the peace process and how they have affected the international peace process

Britain and UN Peacekeeping N. Briscoe, 2003-10-09 Britain was arguably the single greatest catalyst and beneficiary of UN peacekeeping operations during the post war period This book analyses the reasons for this including the post colonial conflicts which Britain handed the UN and its determination to ensure that peacekeeping evolved in a manner compatible with UK national interests Despite initial ambivalence about letting the UN run military operations Britain repeatedly used the organization to shed colonial responsibilities save face share policing burdens and stabilise conflicts in sensitive regions This comprehensive survey first examines UK experience with antecedents of UN operations notably 19th century colonial policing and missions set up under the League of Nations It then analyses British efforts to influence contain and exploit individual UN operations including the Emergency Force established following the Suez Crisis 1956-67 the force in the Congo 1960-64 and the enduring operation in Cyprus 1967 Also covered are several instances when British Governments preferred to intervene unilaterally including in Jordan and Kuwait One of the main contributions of the book is the detailed analysis of internal UK Government and UN files which the author uses to reconstruct the policy making process The book also sheds light on the peacekeeping policies of certain other key states

particularly the US and USSR Finally the account addresses some issues of contemporary relevance including the tension between neutrality and impartiality peacekeeping in a semi permissive environment and the use of force *Concise Biographical Companion to Index Islamicus* Wolfgang Behn,2006-03-01 This second of the three volume Who s Who in Islamic Studies presents the scholarly world at long last with its own biographical encyclopaedia Taking as a starting point the inventory of authors from the renowned Index Islamicus the author Wolfgang Behn Berlin has systematically collected numerous data on the lives and works of the tens of thousands of authors listed in the Index Islamicus from 1665 to 1980 This Biographical Companion will be an indispensable reference tool for the serious student and scholar of Islamic Studies It enables the user to quickly gain knowledge on the life work and professional background of almost every major and minor author and thus to place each author in his her proper perspective A tremendous achievement and a true must for every library **Beyond The Nation State** Katerina Karamanou,2019-05-09 Cyprus gained independence in 1960 without a strong national identity Citizens considered themselves Greeks or Turks not Cypriots As a result the country was susceptible to external as well as internal attacks Ethnic pride reinforced by proximity to both countries inflamed the majority of the population and was encouraged by the historic rivalry between the two homelands This is the political salient cleavage further emphasized by the 1960 constitution which fortified the stronghold on each ethnic homeland by guaranteeing to maintain both Turkish and Greek customs When I commenced this journey international relations and comparative theories were the primary way of interpreting Cyprus s internal friction While examining the national state as an institution I realized their limitations specifically while scrutinizing the 1974 Cypriot Crisis I applied a culturally oriented comparative perspective along with game theoretic international models in order to gain a thorough understanding and find the root cause of Cyprus s turmoil During this process I discovered a mechanism I now call transnational nationalism A methodical analysis of the Cypriot Crisis of 1974 gives further insight into cultural politics which has continued to play a powerful role in nations such as the lands of Northern Ireland Lebanon Palestine and Bosnia Herzegovina These nations all share a common characteristic foreign and domestic forces attempting to achieve transnational nationalism as each group strives to maintain its national identity leading to further division *Conflict Management in Divided Societies* Stefan Wolff,Christalla Yakinthou,2013-03 This textbook takes a multi perspective approach to the study of conflict management in divided societies The philosophies underpinning constitutional design are clearly explained including power sharing centripetalism power dividing and territorial self governance The actors and processes involved and the practicalities of the settlement process are covered in conceptual and theoretical contributions that include the evolution of diplomacy in peacemaking The book ends with empirical case studies that explore the realities on the ground by specialists drawing on their experience of working in conflict zones *Contemporary Social and Political Aspects of the Cyprus Problem* Michalis Kontos,Jonathan Warner,2016-08-17 In today s world the issue of Cyprus is notable for all the wrong reasons because of the duration of the

divisions in Cyprus itself between Greek Cypriots and Turkish Cypriots formalized since 1983 by a disputed international border across the island because of the involvement of Greece and Turkey for which the hyphenated Cypriot communities form proxy battalions and because of the failure of the United Nations longstanding efforts to resolve the conflict Much of the discussion in the book revolves around the difficulty of producing viable constitutional and civic arrangements in an

Censorship of Historical Thought Antoon De Baets, 2001-12-30 History is an important dangerous and fragile subject Historical thought can be censored in widely diverging political and historiographical contexts as historians are well aware Yet the problems of censorship often thought to be obvious are rarely studied Filling a significant void this guide supplies information on the censorship of historical thought and the fate of persecuted historians in over 130 countries from Afghanistan to Zimbabwe and from 1945 to 2000 With each entry providing a chronological overview of cases and giving a full listing of sources the book is the first systematic effort to overview the repression of historical thought Aiming to encompass all countries in which censorship and persecution have taken place De Baets sketches a world map of repression that goes beyond the well known and well studied cases It assembles scattered data from three types of sources the works of censors and censored historical and biographical dictionaries and historiographical surveys and reports from international human rights organizations Showing the universality of historical censorship and its infinite variety in amount and degree the book also provides a basis for further comparative research
